Nikon D4 Manual Focus:

Nikon D4 and D4S: An Easy Guide for Beginners Matthew Hollinder, 2015-04-02 The Nikon D4 is one of the best cameras on the market. It has a dual function of camera and camcorder. This camera allows you to shoot quality photos and record great movies. The Nikon is a trusted brand and this new series is a spot above all the rest. The camera allows you to manipulate the outcome of the recordings before you shoot or record and grants you easy access to manipulate the end result. You can shoot in different frame rates and achieve quality content. This guide explains how to use the camera to get the best results.

A Photographer's Guide to Focus and Autofocus Alan Hess, 2016-02-17 Autofocus changed the way photos are taken making it easier to capture and keep the subject in sharp focus. Since autofocus was first introduced it has become much more complicated offering different focus modes, focus types and focus points. What started out as a way to simplify the photo making process has turned into a complicated endeavor with numerous choices and settings. A Photographer's Guide to Focus and Autofocus From Snapshots to Great Shots is here to answer all your questions about the focusing system in today's cameras and their various autofocus modes. Photographer Alan Hess covers the simple basics of focus: manual focus versus autofocus, the best focus modes to use and how focus works in both DSLRs and mirrorless cameras. Then he discusses more advanced topics including autofocus sensor types, back button autofocus and focus for DSLR video. There is much more to autofocus and focus in general than just pushing the shutter release button and hoping the image is sharp and in focus. With this book you will learn how to get the right focus in your images no matter what the occasion. Follow along with your friendly and knowledgeable guide and you will learn the top ten things to know about focus including how to use the focus controls on the camera, how to pick the autofocus point and when to use pre focus in your images. Address common autofocus issues such as dealing with low contrast or low light or shooting through obstacles like glass or a fence. Develop troubleshooting techniques for what to do when the autofocus doesn't work properly. Work with both manual focus and autofocus and learn tricks to achieve better focus in video. And once you've got the shot, show it off. Join the book's Flickr group to share your photos and tips at flickr.com/groups/focusandautofocusfromsnapshotstogreatshots.

Mastering Nikon Speedlights Alan Hess, 2015-08-05 Mastering Nikon Speedlights is the most comprehensive guide available for anyone using or wanting to learn more about the Nikon Creative Lighting System (CLS). Starting with an exploration of how to work with light, the book teaches you everything you need to know about understanding the direction and intensity of light using light meters and metering modes, controlling exposure and much more. You will learn the specifics of how to use the full range of Nikon Speedlights and accessories including past and current models of cameras and CLS compatible flashes and in the process you will find out how to get the best shots with your gear whether you have a whole box of equipment or just the basics. The book includes practical real world photo shoots: portraits, action shots and product photography starting with one light and gradually working up to multiple lights so you can observe the progression of the light from one flash to many. No matter

what your subject or shooting scenario Mastering Nikon Speedlights is an essential resource that teaches you how to produce the light you need to achieve great results Offers a thorough discussion of the qualities of light how the camera measures light and the settings needed to record an image with proper exposure Provides a complete overview of all the components that make up the Nikon Creative Lighting System outlining how to use the different Speedlights and accessories to correspond with each camera s unique capabilities Covers how to use the Nikon Speedlights off the camera using the Advanced Wireless Lighting AWL features built into the Creative Lighting System Features several examples of real photo shoots showing you how to take great photos in a variety of situations building from one flash up to multiple flashes
