Passport To The Cosmos Human Transformation And Alien Encounters:

Passport to the Cosmos John E. Mack, 2000-11-07 In his groundbreaking follow up to the bestselling Abduction Pulitzer Prize winner John E Mack powerfully demonstrates how the alien abduction phenomenon calls for a revolutionary new way of examining the nature of reality and our place in the cosmos Harvard professor Mack stunned the world when he published the astonishing results of his extensive research involving clients who claimed they had had encounters with alien life forms Writing with the authority and insight that have marked his distinguished career as a psychiatrist and writer Mack used the remarkable stories to show how the abduction phenomenon has the vast potential to transform the foundation of human thought In Passport to the Cosmos Mack who has done additional research with abductees in the United States and around the world provocatively asserts that this phenomenon is part of a new age in human consciousness a time in which we must be willing to embrace the idea that alien visitation is real on some level Drawing on the rich tradition of non Western and indigenous cultures which are more accepting of the idea that we live in a multidimensional universe Mack persuasively shows that by broadening our definition of what is real we can begin to explore a phenomenon that has deep and lasting implications for humanity In Passport to the Cosmos John Mack further solidifies his reputation as a brave pioneer on the forefront of the science of human experience with an authoritative voice that takes us into the twenty first century

Psychology of the Future Stanislov Grof, 2019-03-28 Summarizes Grof's experiences and observations from more than forty years of research into non ordinary states of consciousness This accessible and comprehensive overview of the work of Stanislov Grof one of the founders of transpersonal psychology was specifically written to acquaint newcomers with his work Serving as a summation of his career and previous works this entirely new book is the source to introduce Grof's enormous contributions to the fields of psychiatry and psychology especially his central concept of holotropic experience where holotropic signifies moving toward wholeness Grof maintains that the current basic assumptions and concepts of psychology and psychiatry require a radical revision based on the intensive and systematic research of holotropic experience He suggests that a radical inner transformation of humanity and a rise to a higher level of consciousness might be humankind's only real hope for the future It's rare to find a textbook that is both extremely informative and enjoyable to read *Psychology of the Future* has to be one of the first ones I've ever come across Each chapter brought an entirely new concept theory or method that was just as engaging as the previous one Dr Tami Brady TCM Reviews This book is by a pioneering genius in consciousness research It presents the full spectrum of Grof's ideas from his earliest mappings of using LSD psychotherapy to his clinical work with people facing death to his more recent work with holotropic breathing to his latest thoughts about the cosmological implications of consciousness research and the prospects for dealing with an emerging planetary crisis Grof has always been one of the most original thinkers in the transpersonal field and his creativity has kept pace with the maturity of his overall vision Michael Washburn author of *Transpersonal Psychology in Psychoanalytic Perspective* Grof offers an

outstanding contribution to the ever growing debate about the nature of human consciousness and about the place of humankind in the cosmos If more psychiatrists could be persuaded that human consciousness transcends the limitations of the physical brain and instead is but an aspect of what may best be described as cosmic consciousness we could not only expect treatment modalities to change but we could also anticipate the possibility of culture wide rethinking of the basic presuppositions of modern cosmology the cosmology that grounds Western institutions ideologies and beliefs about the nature of personhood Michael E Zimmerman author of *Contesting Earth's Future Radical Ecology and Postmodernity* Stanislav Grof MD is a psychiatrist with more than fifty years of experience in research of non ordinary states of consciousness He has been Principal Investigator in a psychedelic research program at the Psychiatric Research Institute in Prague Czechoslovakia Chief of Psychiatric Research at the Maryland Psychiatric Research Center Assistant Professor of Psychiatry at the Johns Hopkins University and Scholar in Residence at the Esalen Institute He is currently Professor of Psychology at the California Institute of Integral Studies conducts professional training programs in holotropic breathwork and gives lectures and seminars worldwide He is one of the founders and chief theoreticians of transpersonal psychology and the founding president of the International Transpersonal Association ITA In 2007 he was granted the prestigious Vision 97 award from the Vaclav and Dagmar Havel Foundation in Prague He is the author and editor of many books including *The Adventure of Self Discovery Dimensions of Consciousness and New Perspectives in Psychotherapy and Inner Exploration Ancient Wisdom and Modern Science Beyond the Brain Birth Death and Transcendence in Psychotherapy The Cosmic Game Explorations of the Frontiers of Human Consciousness and Human Survival and Consciousness Evolution* all published by SUNY Press *UFO Religions* Christopher Partridge, 2012-11-12 The spectre of the UFO as popularized by shows such as *The X Files* has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers *UFO Religions* critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims Focusing on contemporary global UFO groups including the Raelian Movement Heaven's Gate Unarius and the Ansaaru Allah Community it gives a clear profile of modern UFO controversies and beliefs **The Omniverse** Alfred Lambremont Webre, 2015-11-17 A tour through the new science of the Omniverse its spiritual and physical dimensions and its incalculable intelligent civilizations Reveals the key travel and communication technologies of the Omniverse time travel teleportation and telepathy Unveils newly disclosed state secrets about these technologies about the findings of the NASA Mars rover missions and about a secret colony and life on Mars Explains through science how souls are holographic fragments of God and how they help create planets solar systems galaxies and universes in the multiverse We are all citizens of the Omniverse the overarching matrix of energy spirit and intelligence that encompasses all that exists all universes within the multiverse as well as the spiritual dimensions

centered on the divine Source that many call God In this scientific guide to the Omniverse Alfred Lambremont Webre reveals startling replicable evidence about extraterrestrial and extra universal life the intelligent civilizations created by souls in the afterlife top secret alien technology and the existence of a secret base as well as life on Mars The author explains how our souls are holographic fragments of God Source and how souls and Source are co creating planets and galaxies as virtual realities for soul development He addresses Grey alien control over soul reincarnation and also sheds light on the presence of invisible hyperdimensional controllers known as the Archons who feed off negative energy Revealing the key technologies of the Omniverse the author explains how hyperdimensional civilizations communicate telepathically teleport interdimensionally and travel through time He unveils newly disclosed state secrets about government possession of these technologies the findings of the NASA Mars rover missions and the secret Mars colony whose permanent security personnel is age reversed and shot back through time to their specific space time origin points with their memories blocked Integrating science and spirituality this map of the dimensions of the Omniverse sounds the call for scientific inquiry into the holographic origins of the soul the potential of time travel and our role as divine co creators with Source Supernatural Graham

Hancock,2006-09-01 Publisher s Note A new expanded edition has replaced this book under the new title Visionary The Mysterious Origins of Human Consciousness ISBN 9781637480069 This definitive edition includes a new Introduction by Graham Hancock as well as restored chapters that were omitted from the original paperback release Less than fifty thousand years ago mankind had no art no religion no sophisticated symbolism no innovative thinking Then in a dramatic and electrifying change described by scientists as the greatest riddle in human history all the skills and qualities that we value most highly in ourselves appeared already fully formed as though bestowed on us by hidden powers In Supernatural Graham Hancock sets out to investigate this mysterious beforeandafter moment and to discover the truth about the influences that gave birth to the modern human mind His quest takes him on a detective journey from the stunningly beautiful painted caves of prehistoric France Spain and Italy to rock shelters in the mountains of South Africa where he finds extraordinary Stone Age art He uncovers clues that lead him to the depths of the Amazon rainforest to drink the powerful hallucinogen Ayahuasca with shamans whose paintings contain images of supernatural beings identical to the animalhuman hybrids depicted in prehistoric caves Hallucinogens such as mescaline also produce visionary encounters with exactly the same beings Scientists at the cutting edge of consciousness research have begun to consider the possibility that such hallucinations may be real perceptions of other dimensions Could the supernaturals first depicted in the painted caves be the ancient teachers of mankind Could it be that human evolution is not just the meaningless process that Darwin identified but something more purposive and intelligent that we have barely begun to understand *UFO FAQ* David J. Hogan,2016-09-01 *FAQ* Pop Culture Since the famed Kenneth Arnold flying saucer sighting of 1947 the world has been fascinated and unnerved by these mysterious objects in the sky Millennia of recorded human history report UFOs and everything from the extinction of

Encountering ETI John Hart,2015-03-26 Encountering ETI weaves together scientific knowledge and spiritual faith in a cosmic context It explores consequences of Contact between terrestrial intelligent life TI and extraterrestrial intelligent life ETI Humans will face cosmic displacement if there are other complex technologically advanced intelligent beings in the universe our economic structures and religious beliefs might need substantial revision On Earth or in space humans could encounter benevolent ETI solicitous of our striving for maturity as a species or malevolent ETI seeking our land and goods to benefit themselves claiming that their superior civilization gives them the right or meet both types of species Earth Encounters of the Third Kind described by witnesses including Native American elders suggest that both may have arrived already some have been accused of shutting down US and USSR ICBM missiles to promote peace others of mutilating cattle or abducting people perhaps to acquire physiological data on biota for scientific study or for other unknown purposes Scifi movies such as Avatar and novels like The Martian Chronicles describe humans as malevolent ETI aliens we do to others what we fear others will do to us A shared and evolving spiritual materiality could enable humanity to overcome cosmic displacement and guide TI and ETI in a common quest for meaning and wellbeing on cosmic common ground

Places Beyond Belief Michael K. Yen,2020-08-13 In 2017 Michael completed the first book in his planned trilogy From Physical to Metaphysical in Four Steps and One Giant Leap where he explored how we can separate from our materialistic attachment by seeing past our bodies our emotions and our thoughts After these three steps Michael illustrated how by enhancing and refining our life energy we can take one giant leap into metaphysical consciousness In Places Beyond Belief he expands on the concepts raised in the first book and also details some of his out of body experiences OBE that offer direct evidence of how the non physical envelops our material reality Michael also tells the story of how encounters in material reality with ghosts qigong masters psychics a living Buddha and extraterrestrials prepared him for having OBEs Building on the events covered in the first book Michael recounts how in trying to uncover the true nature of his UFO experiences he turned to using OBEs as a way to find answers about the reality of the beings he encountered What he found was not what he expected and lead to his discovery of the field of spirit release therapy and the large body of psychological literature that the

subject has produced since William Baldwin's Spirit Releasement Therapy A Technique Manual was published in 1995 While disclosing intimately personal experiences to illustrate his points Michael also takes time to discuss the big issues of the day highlighting how personal and spiritual development is intricately linked to how well we live in the material world Coming three years after his first book Places Beyond Belief follows Michael's journey deeper into the metaphysical world that he was only first discovering when he wrote One Giant Leap By daring to let direct experience be the guide Michael went to places beyond belief and came back to write about it

Conversations on the Edge of the Apocalypse David Jay Brown, 2005-06-06 Part scientific exploration and part philosophical speculation this book is a collection of interviews with some of the leading thinkers of our time about the future of the human race and the mystery of consciousness from scientific philosophical and spiritual perspectives It explores such topics as the future evolution of technology and consciousness the relationship between science and religion ecology and human values altered states of consciousness the possibility of intelligent extraterrestrial life psychic phenomena life after death and the fate of the human race From publisher description

Extra-Planetary Experiences Thomas James Streicher, 2012-03-19 Deep insights into human consciousness revealed by accounts of travel to other planets moons and stars Includes interviews with 7 people who have had extra planetary experiences including astronaut Edgar Mitchell Norma Milanovich and Ingo Swann Reveals the positive effects of these events on the interviewees lives from cosmic consciousness and loss of fear of death to enhanced spiritual insights Contextualizes these accounts with 19th and 20th century reports as well as alien human encounters in ancient Sumerian Vedic Egyptian Tibetan and biblical records Since prehistoric times all cultures report encounters with strange beings and crafts from the sky as well as stories of extra planetary experiences that is travel to other planets moons and stars In the case of modern accounts these benevolent alien human interactions bear striking resemblance to one another even among people with no knowledge of other alien human claims And all experiences marked a spiritual turning point in the person's life providing a loss of the fear of death enhanced spiritual insights a connection to cosmic consciousness or increased motivation to be of service to humanity Exploring fresh dimensions of ET contact and extra planetary experience XPE using Harvard professor and researcher John Mack's witnessing approach to paranormal incidents Thomas Streicher interviews 7 renowned people who have experienced XPE including astronaut Edgar Mitchell Norma Milanovich and Stanford tested remote viewer Ingo Swann and shares the positive spiritual effects of XPE on their lives Placing their experiences in the context of historical accounts of alien human encounters from ancient Sumerian Vedic Egyptian Tibetan Hopi Dogon and biblical records as well as 19th and 20th century testimonies from Orfeo Angelucci Billy Meier Elizabeth Klarer and others the author reveals the similarities of these experiences with those of his interviewees Streicher shows these experiences are not contrived hallucinations but genuine transformative spiritual awakenings akin to near death and out of body experiences *Captured!* Stanton T Friedman M Sc, 2009-01-26 The 1961 UFO abduction of Betty and Barney Hill stirred worldwide interest because

of the book *The Interrupted Journey* the subsequent media coverage and a 1975 TV movie The case is mentioned in almost all UFO abduction books It also became a target for debunkers who still attack it today But the complete story of what really happened that

[The Sacred Revival](#) Kingsley L. Dennis, 2017-10-24 The Sacred Revival is a thought provoking examination of the social cultural and personal development that is part of a new and unfolding era in our history Its central thesis is that a new form of energy has entered our post industrial post mechanical epoch and that this energy will be more conducive to a respect for feminine attributes and organization and our inward interior search and gaze The author predicts there will be a healing of life on the planet from an emerging new planetary ecosystem that will be physical digital biological and a greater drive toward a coherent cosmic consciousness He explains that one of our greatest needs is for a connection with the transcendent

[The Myth and Mystery of UFOs](#) Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth

[Science, Religion, and the Search for Extraterrestrial Intelligence](#) David Wilkinson, 2013-08 This book is about the search for extraterrestrial intelligence taking seriously the current scientific arguments and its implications for religion

Starstruck Albert A. Harrison, 2007-04-01 We live in an era of exploding scientific knowledge about the universe and our place and future within it Much of this new knowledge conflicts with earlier wisdom and some has frightening implications Cosmic evolution space exploration the search for extraterrestrial life and concerns about humanity's future prompt us to seek new answers to old existential questions Where did we come from Why are we here Are we alone What will become of us In our search for answers we turn to science religion myth and varying combinations thereof Exploring an ambiguous region between recognized findings and unfettered imagination Starstruck explores the multifaceted far reaching and often contentious attempts of people with contrasting worldviews to develop convincing and satisfying interpretations of rapidly accumulating discoveries in physics astronomy and biology *Historical Knowledge, Historical Error* Allan Megill, 2007-02 In the past thirty years historians have broadened the scope of their discipline to include many previously neglected topics and perspectives They have chronicled language madness gender and sexuality and have experimented with new forms of presentation They have turned to the histories of non Western peoples and to the troubled relations between the West and the rest Allan Megill welcomes these developments but he also suggests that there is now confusion among historians about what counts as a justified account of the past In *Historical Knowledge Historical Error* Megill dispels some of the confusion Here he discusses issues of narrative objectivity and memory He attacks what he sees as irresponsible uses of evidence while accepting the art of speculation which incomplete evidence forces upon historians Along the way he offers succinct accounts of the epistemological road historians have traveled from Herodotus and Thucydides through Leopold von Ranke and Alexis de Tocqueville and on to Hayden White Natalie Zemon Davis and Lynn Hunt *UFOs* Karl Svozil, 2023-08-01 Unidentified phenomena in space in the Earth's atmosphere and in waters are too important to leave their exploration to the military and scientific laypersons Their proper scientific study is important for a variety of reasons in particular scientists and the public at large need to know the basic facts to be informed about the way evidence is recorded and to understand the difference between reliable evidence and fiction as well as between plausible explanations and fantasy With this objective the book surveys the history of UFO observations the variety of recorded phenomena and recounts the efforts of investigative commissions and their published findings Although wild rumors are demystified in the process this is not an exercise in rumor bashing An open and at the same time critical mindset is the key Many narratives and hypothesis appear implausible relative to our present state of knowledge but this alone should not lead to their outright exclusion Thus the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology Here the reader will encounter some of the more speculative but scientifically tenable proposals for example relating to sudden zigzag motion without apparent inertia or recognizable propulsion yet always with a clear guide to their plausibility Last but not least the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences outer space engineers or technologies so far known only from science fiction **Alternative Conceptions of the Spiritual**

Travis Dumsday,2024-08-22 Analytic philosophy of religion and philosophical theology are known for being focused on issues pertaining specifically to Judeo Christian theism This volume answers the call for novel work on a broader range of ideas about the spiritual engaging with key concepts and neglected recent literature from other traditions Alternative Conceptions of the Spiritual engages with polytheism animism panspiritism and theophanism as propounded by recent philosophers and members of lesser known spiritual traditions and new religious movements Summarizing and assessing their core ideas and arguments with both clarity and sympathy Dumsday combines respectful dialogue with logical rigour Providing an accessible introduction to a rich and nuanced set of traditions largely overlooked in contemporary philosophical scholarship the work will be welcomed by philosophers theologians and students of new religious movements **The Lure of the Edge** Brenda Denzler,2001-11-07 A scholarly exploration of the UFO movement probes life on the fringes of modernity tracing the fascinating links between science and religion implied by this philosophy Captured!
