

Figure 2-2. ESI Triage Algorithm, Version 5

**A. Immediate life-saving intervention required:** Airway or respiratory support, emergency medications, hemodynamic interventions such as fluid resuscitation or blood products.

Clinical presentations requiring lifesaving interventions include the following: intubated, unresponsive, pulselessness, apneic, severe respiratory distress, profound hypotension or hypoglycemia.

**Unresponsiveness is defined as a patient who either:**

1. Is nonverbal and not following commands (acutely)
- OR
2. Requires noxious stimulus (P or U on AVPU scale)

**B. High-risk situation:** May become unstable, have high risk for deterioration, or exhibit newly altered mental status. Severe pain or distress is determined by patient report, corroborated with clinical observation.

**C. Resources:** Count the number of different types of resources, not the individual tests or radiographs. (For example, complete blood count, electrolytes, and coagulant studies equal one resource because they are all laboratory tests, while complete blood count plus chest radiograph equals two resources because one is a laboratory test and one is imaging).

| ESI Resources                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Not ESI Resources                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> <li>• Labs (blood, urine)</li> <li>• Electrocardiogram, radiographs</li> <li>• Computed tomography, magnetic resonance imaging, ultrasound, angiography</li> <li>• Intravenous fluids (hydration)</li> <li>• Intravenous, intramuscular, or nebulized medications</li> <li>• Specialty consultation</li> <li>• Simple procedure = 1 (laceration repair, urinary catheter)</li> <li>• Complex procedure = 2 (procedural sedation)</li> </ul> | <ul style="list-style-type: none"> <li>• History and physical exam (including pelvic)</li> <li>• Point-of-care testing</li> <li>• Saline or heparin lock</li> <li>• Oral medications</li> <li>• Tetanus immunization</li> <li>• Prescription refills</li> <li>• Phone call to primary care physician</li> <li>• Simple wound care (dressings, recheck)</li> <li>• Crutches, splints, slings</li> </ul> |

**D. High-risk vital signs:** Reassess to determine whether the patient warrants a higher acuity level if a patient has one or more vital signs outside the normal parameters for the patient.

#### Pediatric Fever Considerations

**1-28 days of age:** Assign at least ESI 2 if T > 38° C (100.4° F)

**1-3 months:** Consider assigning ESI 2 if T > 38° C (100.4° F)

**3 months and older:** Consider assigning ESI 2 or 3 if:

1. T > 39°C (102.2°F) or < 36°C (96.8°F), or
2. Incomplete immunizations,
- OR
3. No obvious source of fever

# Patent Professionals Handbook 5th Edition A Training Tool For Administrative Staff

**Christian Drosten**

## **Patent Professional's Handbook 5th Edition A Training Tool For Administrative Staff:**

Patent Professionals's Handbook, 5th Edition Susan Stiles, 2015-02-08 The Handbook contains 24 chapters and is arranged and indexed logically so that you can quickly access the information The Handbook starts with an explanation of patent basics and moves onto explain how to do business electronically with the U S Patent and Trademark Office PTO Sections on establishing user accounts and accessing the PTO s patent information website include numerous screen images to help the reader understand how to navigate the PTO website The Handbook includes a section for each step in the patent process from preparing a patent application to filing and advancing the application through the PTO to issue as a patent The Handbook has numerous checklists that will serve as an invaluable aid to novices and a reinforcement of best practices for more experienced staff This Handbook has been updated to include the most recent provisions of the America Invents Act and the Patent Law Treaty Also this Handbook is very useful for those who want to learn the basics and dynamics of the Intellectual Property field and expand their horizons into a very good paying position *Information Security Management Handbook, Fifth Edition* Harold F. Tipton, Micki Krause, 2003-12-30 Since 1993 the Information Security Management Handbook has served not only as an everyday reference for information security practitioners but also as an important document for conducting the intense review necessary to prepare for the Certified Information System Security Professional CISSP examination Now completely revised and updated and in its fifth edition the handbook maps the ten domains of the Information Security Common Body of Knowledge and provides a complete understanding of all the items in it This is a must have book both for preparing for the CISSP exam and as a comprehensive up to date reference **Patent Professional's Handbook** Susan Stiles, 2014 **Patent Professional's Handbook** Susan Stiles, 2019-08-27 The Handbook contains 29 chapters and is arranged and indexed logically so that you can quickly access the information The Handbook starts with an explanation of patent basics and moves onto explain how to do business electronically with the U S Patent and Trademark Office PTO Sections on establishing user accounts and accessing the PTO s patent information website are included to help the reader understand how to navigate the PTO website The Handbook includes a section for each step in the patent process from preparing a patent application to filing and advancing the application through the PTO to issue as a patent The Handbook has numerous checklists that will serve as an invaluable aid to novices and a reinforcement of best practices for more experienced staff This Handbook includes information for filing in the Patent Cooperation Treaty Office and National Phase applications in the U S This Handbook is very useful for those who want to learn the basics and dynamics of the Intellectual Property field and expand their horizons into a very good paying position JOB INTERVIEW Offshore Oil & Gas Rigs Petrogav International Oil & Gas Training Center, 2020-07-01 The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil
