Courage,2014-11-25 A pleasant chatty book on a fascinating subject Kirkus Reviews Octopuses have been captivating humans for as long as we have been catching them Yet for all of our ancient fascination and modern research we still have not been able to get a firm grasp on these enigmatic creatures Katherine Harmon Courage dives into the mystifying underwater world of the octopus and reports on her research around the world She reveals for instance that the oldest known octopus lived before the first dinosaurs that two thirds of an octopus s brain capacity is spread throughout its arms meaning each literally has a mind of its own and that it can change colors within milliseconds to camouflage itself yet appears to be colorblind *Octopuses, Squid & Cuttlefish* Ole G. Mouritsen,Klavs Styrbæk,2021-05-06 Humans everywhere have always been fascinated by octopuses squid and cuttlefish known biologically as cephalopods They evolved hundreds of millions of years ago and are related to molluscs such as mussels and snails They can grow to an enormous size with eyes as big as footballs but they still live for only a couple of years They mate once in their lifetime and die shortly after They have blue blood and three hearts and they can shoot out jet black ink They have a brain and have behaviours that could be interpreted as signs of intelligence even though more than half of their brain is distributed in their arms They are colour blind but they can change the colour of their skin in a flash They are masters of disguise and are able to alter the texture of their skin and the patterns displayed on it at lighting speed They can also taste using the suckers on their arms They can move extremely fast thanks to a jet propulsion system built into their body cavity Although they are soft bodied and look vulnerable cephalopods are formidable predators Octopuses have arms that are so strong that they can exert a force equal to hundreds of times their own body weight Squid and cuttlefish can shoot out a tentacle to capture prey at the speed of a javelin thrown by an expert athlete Cephalopods are however so much more than just fascinating creatures with strange physical characteristics They are a nutritious delicious protein source that has found a place for thousands of years in many food cultures around the world As squid cuttlefish and octopuses are native to virtually all parts of the ocean they are an excellent and available alternative to meat from terrestrial animals This book is written to promote the overall place of cephalopods in home kitchens and to inspire the uninitiated to add them to their diet It describes the many facets of their anatomy that play a central role in their potential use as healthy diverse and interesting food sources with a particular emphasis on their taste and texture By way of an assortment of recipes the authors hope to dispel the myth that it is difficult to prepare delicious dishes using squid cuttlefish and octopuses In addition there are contributions to the on going discussions about how marine resources can be exploited more responsibly in a sustainable manner Ole G Mouritsen is a professor of gasrophysics and culinary food innovation at the University of Copenhagen president of the Danish Gastronomical Academy and director of the Danish national research and communication centre Taste for Life Klavs Styrbæk is a chef and leader of the gastronomic enterprise STYRB K which includes a gourmet restaurant a cooking school a catering service and a product development branch **Octopus Ocean** Mark Leiren-Young,2025-02-11 Key Selling Points
