Review Notes and Study Guide to Shakespeare's Measure for Measure Unicio J. Violi,1964 Sartre on Sin Kate Kirkpatrick,2017-10-20 Sartre on Sin Between Being and Nothingness argues that Jean Paul Sartre s early anti humanist philosophy is indebted to the Christian doctrine of original sin On the standard reading Sartre s most fundamental and attractive idea is freedom he wished to demonstrate the existence of human freedom and did so by connecting consciousness with nothingness Focusing on Being and Nothingness Kate Kirkpatrick demonstrates that Sartre s concept of nothingness le n ant has a Christian genealogy which has been overlooked in philosophical and theological discussions of his work Previous scholars have noted the resemblance between Sartre s and Augustine s ontologies to name but one shared theme both thinkers describe the human as the being through which nothingness enters the world However there has been no previous in depth examination of this resemblance Using historical exegetical and conceptual methods Kirkpatrick demonstrates that Sartre s intellectual formation prior to his discovery of phenomenology included theological elements especially concerning the compatibility of freedom with sin and grace After outlining the French Augustinianisms by which Sartre s account of the human as between being and nothingness was informed Kirkpatrick offers a close reading of Being and Nothingness which shows that the psychological epistemological and ethical consequences of Sartre s le n ant closely resemble the consequences of its theological predecessor and that his account of freedom can be read as an anti theodicy Sartre on Sin illustrates that Sartre s insights are valuable resources for contemporary hamartiology
