*Labor of Love* Heather Jacobson, 2016-03-15 While the practice of surrogacy has existed for millennia new fertility technologies have allowed women to act as gestational surrogates carrying children that are not genetically their own While some women volunteer to act as gestational surrogates for friends or family members others get paid for performing this service The first ethnographic study of gestational surrogacy in the United States *Labor of Love* examines the

conflicted attitudes that emerge when the ostensibly priceless act of bringing a child into the world becomes a paid occupation Heather Jacobson interviews not only surrogate mothers but also their family members the intended parents who employ surrogates and the various professionals who work to facilitate the process Seeking to understand how gestational surrogates perceive their vocation she discovers that many regard surrogacy as a calling but are reluctant to describe it as a job In the process Jacobson dissects the complex set of social attitudes underlying this resistance toward conceiving of pregnancy as a form of employment Through her extensive field research Jacobson gives readers a firsthand look at the many challenges faced by gestational surrogates who deal with complicated medical procedures delicate work family balances and tricky social dynamics Yet Labor of Love also demonstrates the extent to which advances in reproductive technology are affecting all Americans changing how we think about maternity family and the labor involved in giving birth For more visit <http://www.heatherjacobsononline.com>      Baking a Baby Lauren Knight,2020-01-10      Labour of Love Shannon

**What I Didn't Know** Lee Gutkind,2016-09-28 Teachers delve into the most difficult rewarding and transformative moments of their careers as they discover that succeeding at

teaching is a test not just of training or of subject matter but of resolve, dedication, faith, and character. Whether in a New England prep school or a public school in South Central LA, a preschool in Malawi or a high school in China, the fundamental challenges of becoming a teacher are the same: finding authority, forging an authentic connection with students, and making a space where learning can occur. *The Waiting* Cathy LaGrow, 2014 In 1928, 16-year-old Minka was on a picnic in the woods when she was assaulted and raped and became pregnant. The baby was secretly born, named Betty Jane, and given up for adoption. For decades, Minka wrote letters trying to get news of her daughter; she kept loving and praying for her even though she never dared believe they would meet again. Until nearly eighty years later, when Minka whispered a secret, impossible prayer for the first time. Unbeknownst to Minka, that very same day a judge was releasing the sealed adoption records to her 77-year-old daughter. And soon, Minka's phone would ring.

*Adoption Is Not a Bad Word* Robin Waltrip, 2013-09-26 I write this book in hopes of showing how adoption can be a positive thing. Today in our society, we have come to accept children and their birth moms in a different light. While this is fantastic, I still believe that the child needs to have the option when they are older to meet their birth parents. I searched my birth mom out first because I wanted to know of medical problems my children may face. I then realized what a blessing I have as I found a best friend in my birth mom. Our relationship is different than the one with my mom, and to me, it is a blessing in disguise.

Peter Behrens expresses a father's feeling of utter helplessness and incomparable joy during the birth of his first child. Afua Cooper reflects upon giving birth in a new land with evolving customs. Anne Fleming describes the process of choosing a male donor with her same-sex partner, and Jaclyn Moriarty transcribes her grandmother's and her mother's birth stories along with her own to create a tender oral history spanning three generations.
