**Consuming Painting** Allison Deutsch,2021-02-01 In *Consuming Painting* Allison Deutsch challenges the pervasive view that Impressionism was above all about visual experience Focusing on the language of food and consumption as they were used by such prominent critics as Baudelaire and Zola she writes new histories for familiar works by Manet Monet Caillebotte and Pissarro and creates fresh possibilities for experiencing and interpreting them Examining the culinary metaphors that the most influential critics used to express their attraction or disgust toward painting Deutsch rethinks French modern life painting in relation to the visceral reactions that these works evoked in their earliest publics Writers posed viewing as analogous to ingestion and used comparisons to food to describe the appearance of paint and the painter s process The food metaphors they chose were aligned with specific female types such as red meat for sexualized female flesh confections for fashionably made up women and hearty vegetables for agricultural laborers These culinary figures of speech Deutsch argues provide important insights into both the fabrication of the feminine and the construction of masculinity in nineteenth century France *Consuming Painting* exposes the social politics at stake in the deeply gendered metaphors of sense and sensation Original and convincing *Consuming Painting* upends traditional narratives of the sensory reception of modern painting This trailblazing book is essential reading for specialists in nineteenth century art and criticism gender studies and modernism

*Cosmopolitan Canvases* Olav Velthuis,Stefano Baia Curioni,2015-03-12 Since the late 1990s contemporary art markets have emerged rapidly outside of Europe and the United States China is r s1the world s second largest art market In counties as diverse as Brazil Turkey and India modern and contemporary art has been recognized as a source of status or a potential investment tool among the new middle classes At art auctions in the US London and Hong Kong new buyers from emerging economies have driven up prices to record levels The result of these changes has been an increase in complexity interconnectedness stratification and differentiation of contemporary art markets Our understanding of them is still in its early stages and empirical research in the field of globalization of high arts is still scarce This book brings together recent multidisciplinary cutting edge research on the globalization of art markets Focusing on different regions including China Russia India and Japan as well as different institutions and organizations the chapters in this volume study the extent to which art markets indeed become global They show the various barriers to and

the effects of globalization on the art market's organizational dynamics and the everyday narratives of people working within the art industry. In doing so they recognize the coexistence of various ecologies of contemporary art exchange and sketch the presence of resilient local networks of actors and organizations. Some chapters show Europe and the US continue to dominate especially when taking art market rankings and the most powerful events such as Art Basel into account. However other chapters argue that things such as art fairs are truly global events and that the architecture of the art market which has originally been developed in Europe and the US from the 19th century onwards is increasingly adopted across the world.

### **Why Do My Ellipses Look Like Doughnuts? Plus 25 Solutions to Other Still Life Painting Peeves** Rachel

Shirley, 2011-02-28 Producing still life artwork can be a satisfying experience as the artist is easily able to paint from life without the pressures of the shifting light or inclement weather. Not only that any object can be selected, shifted about or the light source modified at will meaning the artist has complete control over what lies in front. But challenges are certain to present themselves during the journey. Examples might be why ellipses end up looking like doughnuts, why porcelain looks more like clay or why fruit looks plastic. Some of these challenges may prove more difficult than others and unchecked might cause a creative block. This is where this book comes in. With down to earth advice on common practices at fault each issue is tackled in depth, a diagnostic of the problem, suggested solutions in the form of recommended art materials and remedial painting exercises. In total twenty six common 'Speeves' associated with still life painting are tackled within this book. In six clear sections a myriad of other matters relating to still life painting are explained such as how to paint textures in food, composing a still life, colour mixing, lighting an arrangement and a section on the essentials of oil painting in total with over 100 full colour illustrations and twenty diagrams. If the problem sought after is not in this book it might be in one of my other Oil Painting Medic books within this series due to come out in 2011 and 2012.
