Advancing the STEM Agenda Cindy P. Veenstra, Fernando F. Padró, Julie A. Furst-Bowe, 2012-05-15 In July 2011 the ASQ Education Division held its first Advancing the STEM Science Technology Engineering and Mathematics Agenda in Education the Workplace and Society Conference at the University of Wisconsin Stout This publication is a selection of papers and workshops from this groundbreaking conference The ideas presented here will help other educators and policy makers to develop their own innovative high impact ideas for inspiring student interest in STEM careers improving the delivery of STEM education at their schools and colleges and helping STEM college graduates transition to the workplace The chapters in this book reflect research and best practices integrating the ideas of continuous improvement in combination with a can do attitude to provide a valuable resource that will lead others to consider similar innovative and collaborative educational structures that will drive more interest in STEM majors in college and provide for our next generation of scientists technicians and engineers Prior to reviewing *Advancing the STEM Agenda* I had a list in my mind of topics that I hoped would be addressed I m very pleased with how many are covered and covered well This project succeeds at the challenge of providing not only beneficial breadth but also important depth Because our public private partnership has been committed explicitly to continuous improvement for more than a decade I couldn t help but notice as the editors also point out in their conclusion the extent to which continuous improvement is a common thread throughout the book That speaks to the book s practical utility in many settings and on a long term basis No less valuable is the discussion of student motivation by many of the authors which STEM teachers in our area have identified as a major issue of interest to them in recent surveys Richard Bogovich Executive Director Rochester Area Math Science Partnership Minnesota Veenstra Padr and Furst Bowe provide a huge contribution to the field of STEM education We all know the statistics and of the huge need in the area of STEM students and education but what has been missing are application and success stories backed by research and modeling The editors have successfully contributed to our need by focusing on collaborative models building the K 12 pipeline showing what works at the collegiate level connecting across gender issues and illustrating workforce and innovative ideas John J Jasinski President Northwest Missouri State University *Advancing the STEM Agenda* provides a broad set of current perspectives that will contribute in many ways to advancing the understanding and enhancement of education in science education and engineering This work is packed with insights and perspectives from experienced educators and bridges the transition from education to workplace John Dew Senior Vice Chancellor Troy University *Minding the Gap* Nancy Hoffman, Joel Vargas, Andrea Venezia, 2007 *Minding the Gap* argues that in today s highly competitive global economy all young people need a postsecondary education Yet only one in ten students from the lowest economic quintile in the United States currently earns a postsecondary credential This timely and instructive book from *Jobs for the Future* explores policies and practices that would quickly enable a larger number of low income and first generation college students to earn

postsecondary degrees In doing so *Minding the Gap* calls for a system that thoroughly integrates secondary and postsecondary education a system in which a college degree is the goal for all students *Minding the Gap* is an invaluable resource for policymakers and practitioners interested in eliminating the gap between secondary and postsecondary education It focuses on those factors that must be addressed if the gap is to be eliminated the lack of coordination between secondary and college curricula dramatically different approaches to funding for public schools and higher education and the lack of coordinated data systems spanning the educational continuum from kindergarten through college This is a mustread for all those interested in increasing the number of American college graduates Freeman A Hrabowski III President University of Maryland Baltimore County This comprehensive collection offers a bracing examination of the anachronistic divide that separates K 12 schooling and higher education to the detriment of both It explains how this state of affairs came about why it s a problem and what can be done about it The contributors provide concrete and concise guidance on implementation promising models policy data systems and financial aid This is an important book for educators and reformers serious about reinventing high school and tearing down the barriers to college access Frederick M Hess Director of Education Policy Studies American Enterprise Institute In today s economy a college education is a must for every citizen *Minding the Gap* shares innovative strategies for improving the delivery system of college so it is affordable and attainable for every child in America Mike Easley Governor of North Carolina *Minding the Gap* highlights the importance of raising the bar for high school and postsecondary education in the United States Most important it acknowledges that we must do a better job of reaching out to underserved and low income communities to raise the educational level of their students and to provide them with the critical skills needed for the future global workforce Charles B Reed Chancellor California State University Edited by Nancy Hoffman Joel Vargas Andrea Venezia and Marc S Miller **Resources in Education** ,2001
