Bombs Away!, 2016-08-09
Prompted by recent challenges to and debates about the relative public silence concerning the effects of the Allied air war over Europe during World War II, this collection of essays examines literary, visual, film, and photography and institutional museums' representations of the bombing of civilian targets predominantly in Germany. The authors examine narrative strategies of both well-known and relatively little-known works as well as the moral and ideological presuppositions of the varied representations of the depredations of total war. The introduction and afterword by the editors invite the readers to expand the contours and historical context of the debates about the German public discourse on the bombing war beyond the narrow confines of perpetrators and victims. The volume will be of interest to literary scholars, historians, and the general reading public interested in warfare and its effects on civilian populations. **Bombs Away!** Wilfried Wilms, William Rasch, 2006

OFFICIAL GT NASM 1991 PB SMITHSONIAN, 1988-03-17 *How Outer Space Made America* Daniel Sage, 2016-04-29 In this innovative book Daniel Sage analyses how and why American space exploration reproduced and transformed American cultural and political imaginations by appealing to and to an extent organizing the transcendence of spatial and temporal frontiers In so doing he traces the development of a seductive and powerful yet complex and unstable American geographical imagination the transcendental state Historical and indeed contemporary space exploration is despite some recent notable exceptions worthy of more attention across the social sciences and humanities While largely engaging

with the historical development of space exploration it shows how contemporary cultural and social and indeed geographical research themes including national identity critical geopolitics gender technocracy trauma and memory can be informed by the study of space exploration *Official Guide to the Smithsonian, Third Ed* Smithsonian Institution,2009-11 Introduces the Smithsonian the world s largest museum complex providing floor plans for the various branches information on hours public transportation tours special attractions for children and highlights from some of its major exhibits **Department of the Interior and Related Agencies Appropriations for 1998** United States. blueprint for narrating horrific and traumatic histories Curating America's Painful Past contrasts these two museums to ask why America's painful memories were largely absent from the memorial landscape of the National Mall and argues that social injustices in the present cannot be addressed until the nation's painful past is fully acknowledged and remembered It was only with the opening of the NMAAHC in 2016 that a detailed account of atrocities committed against African Americans appeared on the National Mall Gruenewald focuses on the museum's narrative structure in the context of national discourse to provide a critical reading of the museum When the NMAI opened in 2004 it presented for the first time a detailed history from a Native American perspective that sought to undo conventional museum narratives However criticism led to more traditional exhibitions and national focus Nevertheless the museum still marginalizes memories of the vast numbers of Indigenous victims to European colonization and to US expansion In a final chapter Gruenewald offers a thought experiment imagining a memory site like the recently opened National Memorial for Peace and Justice Montgomery Alabama situated on the National Mall so the reader can assess how profound an effect projects of national memory can have on facing the past as a matter of present justice Air & Space Smithsonian ,2004-11 **Official Guide to the Smithsonian** Smithsonian Institution,1981 The official guide to 13 museums and the national zoo Complete with maps and floor plans and colorful photographs Covered in its pages are National Air and Space Museum National Museum of Natural History and National Museum of Man National Museum of American History Freer Gallery of Art Arts and Industries Building Hirshhorn Museum and Sculpture Garden National Gallery of Art National Museum of American Art National Portrait Gallery Renwick Gallery Museum of African Art Anacostia Neighborhood Museum Cooper Hewitt Museum National Zoological Park Back cover

Pan Am at War Mark Cotta Vaz,John H. Hill,2019-02-12 Filled with larger than life characters and revelations of the vision and technology it took to dominate the skies before and during World War II here is a gripping piece of aviation history

Pan Am at War chronicles the airline's historic role in advancing aviation and serving America's national interest before and during World War II. From its inception, Pan American Airways operated as the wings of democracy, spanning six continents and placing the country at the leading edge of international aviation. At the same time, it was clandestinely helping to fight America's wars. Utilizing government documents declassified under the Freedom of Information Act, material and company documents, the authors have uncovered stories of Pan Am's stunning role as an instrument of American might. The airline's role in building air bases in Latin America and countering Axis interests that threatened the Panama Canal. Creating transatlantic and trans-Africa supply lines for sending Lend Lease equipment to Britain. Cooperation with Chiang Kai-shek and the Chinese nationalist government to pioneer the dangerous Hump route over the Himalayas. The dangerous seventeen thousand mile journey that took President Roosevelt to the high stakes Casablanca Conference with Winston Churchill. The daring flight that delivered uranium for the atomic bomb. For anyone interested in aviation, business, or military history, here is an astonishing story filled with big ideas and the leaders who made them a reality.
