Metro Behavior Assessment Study Guide:

Occupational Therapy Evaluation for Children : a Pocket Guide Shelley Mulligan,2014 In pediatrics occupational therapy practitioners are concerned most with positively impacting the extent to which children and their families are able to successfully and meaningfully go about their daily lives whether it be playing learning working caring for oneself or others or socializing Clinical decisions made throughout the evaluation process ultimately shape what and how occupational therapy practitioners deliver interventions perhaps making the evaluation process the most important and interesting part of the service delivery process It is the context where we first come to know and appreciate our clients their specific situations and discover what it is that we as occupational therapy practitioners can do to be of most help Provided by publisher
