**Momfluenced** Sara Petersen, 2023-04-25

How momfluencer culture impacts women psychologically as consumers, as performers of their stories, and as mothers. On Instagram, the private work of mothering is turned into a public performance, generating billions of dollars. The message is simple: we're all just a couple of clicks away from a better, more beautiful experience of motherhood. Linen-clad momfluencers hawking essential oils, parenting manuals, baby slings, and sponsored content for Away suitcases make us want to forget that the reality of mothering in America is an isolating, exhausting, almost wholly unsupported endeavor. In a culture which denies mothers basic human rights, it feels good to click "purchase now" on whatever a momfluencer might be selling. It feels good to hope. Momfluencers are just like us, except they aren't. They are mothers, yes. They are also marketing strategists, content creators, lighting experts, advertising executives, and artists. They are businesswomen. The most successful momfluencers offer content that differs very little from what we used to find in glossy women's magazines like *Glamour* and *Real Simple*: only they're churning it out daily, and that content is their lives. We flock to momfluencers to learn about fashion, wellness, parenting, politics, and to find Brooklyn-designed crib sheets printed with radishes. Chances are, if you're a mother reading this, and maybe even if you're not, you are an arm's length away from something you've purchased because a momfluencer made it look good. Drawing on her own fraught relationship to momfluencer culture, Sara Petersen incorporates pop culture analysis and interviews with prominent momfluencers and experts, psychologists, academics, technologists, to explore the glorification of the ideal mama online, with both humor and empathy. At home on a bookshelf with Lyz Lenz's *Belabored* and Jia Tolentino's *Trick Mirror*, *Momfluenced* argues that momfluencers don't simply sell mothers on the benefits of bamboo diapers; they sell us the dream of motherhood itself, a dream tangled up in whiteness, capitalism, and the heteronormative nuclear family. *Momfluenced* considers what it means to define motherhood for ourselves when society is determined to define motherhood for us.

**Black Women, Agency, and the New Black Feminism** Maria del Guadalupe Davidson, 2017-02-17

The powerful Beyoncé, formidable Rihanna, and the incalculable Nikki Minaj. Their images lead one to wonder: are they a new incarnation of black feminism and black women's agency, or are they only pure fantasy in which, instead of having agency, they are in fact the products of the forces of patriarchy and commercialism? More broadly, one can ask whether black women in general are

only being led to believe that they have power but are really being drawn back into more complicated systems of exploitation and oppression Or are black women subverting patriarchy by challenging notions of their subordinate and exploitable sexuality In other words who is playing who Black Women Agency and the New Black Feminism identifies a generational divide between traditional black feminists and younger black women While traditional black feminists may see for example sexualized images of black women negatively and as an impediment to progress younger black women tend to embrace these new images and see them in a positive light After carefully setting up this divide this enlightening book will suggest that a more complex understanding of black feminist agency needs to be developed one that is adapted to the complexities faced by the younger generation in today s world Arguing the concept of agency as an important theme for black feminism this innovative title will appeal to scholars teachers and students interested in black feminist and feminist philosophy identity construction subjectivity and agency race gender and class

*Moms in Chief* Tammy R. Vigil, 2019-01-23 In 1776 when Abigail Adams implored her husband to Remember the Ladies John Adams scoffed declaring We know better than to repeal our masculine system More than two hundred years later American women continue to struggle against the idea that they are simply vassal extensions of their husbands a notion that is acutely enacted in presidential campaigns An examination of how the spouses of recent presidential candidates have presented themselves and been perceived on the campaign trail *Moms in Chief* reveals the ways in which the age old rhetoric of republican motherhood maintains its hold on the public portrayal of womanhood in American politics and constrains American women s status as empowered autonomous citizens The rhetoric of republican motherhood describes the ostensibly ideal female patriot as domestically focused self sacrificial deferential and defined by her relationship to others particularly her husband *Moms in Chief* combines the study of history gender communication and politics to show how the spouses of the major parties presidential nominees from 1992 to 2016 at times fulfilled at other times flouted but at all times were handicapped by this stereotype From Barbara Bush as dynastic mother to Michelle Obama as Mom in Chief from Laura Bush as all American wife to Melania Trump as model immigrant from Teresa Heinz Kerry as assertive heiress to Bill Clinton as past president and prospective first gentleman Tammy R Vigil explores the function of presidential consorts in their spouses campaigns and she scrutinizes how their portrayal by opponents the press and themselves has challenged or reinforced perceptions of the role of gender and the place of women in American political life In the unofficial contest between candidates spouses there are winners and losers What is at stake Vigil s research suggests is the very definition of women as American citizens and political actors
