potential is still unclear Finally the immune modifiers including IL 10 and TNF antibodies have been successfully subjected to controlled trials Other experimental drugs discussed in this book are on the horizon This volume is the Proceedings of Falk Symposium 119 held in Freiburg im Breisgau Germany October 3 4 2000 and covers systematically the field of immunosuppression in inflammatory bowel diseases It is hoped that it will further the prudent use of these drugs in the proper clinical situations by increasing our understanding of both the mechanisms of action and the clinical benefit to the patient
