For a long time volunteering lacked standardized data sets allowing methodologically robust comparative analyses and global policy making Starting from 2011 the International Labour Office ILO and the United Nations UN have provided global statistical standards for organization based and direct volunteering which offer path breaking opportunities The global statistical standards on volunteering are however only relatively known They also have to face difficult methodological and substantial challenges Can they really account for the local varieties of volunteering in the different areas of the world Does their adoption further develop our knowledge of volunteering both at national and international level Beyond illustrating which innovations these statistical standards bring and critically assessing the tensions between the global guidelines and the local differences the book shows how the ILO and the UN standards can be implemented into national statistics and which advancements in the understanding of characters antecedents and impacts of contemporary organization based and direct volunteering they allow The Volume takes Italy as an illustrative case that offers global value This multidisciplinary book demonstrates that a holistic approach to the implementation of the ILO and UN guidelines permits to virtuously balance international statistical standards and locally embedded cultures as well as to move knowledge of volunteering forward in a complexity driven agenda The book provides tools evidences and inspiration for scholars statistical agencies practitioners and policy makers *The Mexican Press and Civil Society, 1940-1976* Benjamin T. Smith, 2018-08-07 Mexico today is one of

the most dangerous places in the world to report the news and Mexicans have taken to the street to defend freedom of expression As Benjamin T Smith demonstrates in this history of the press and civil society the cycle of violent repression and protest over journalism is nothing new He traces it back to the growth in newspaper production and reading publics between 1940 and 1976 when a national thirst for tabloids crime sheets and magazines reached far beyond the middle class As Mexicans began to view local and national events through the prism of journalism everyday politics changed radically Even while lauding the liberty of the press the state developed an arsenal of methods to control what was printed including sophisticated spin and misdirection techniques covert financial payments and campaigns of threats imprisonment beatings and even murder The press was also pressured by media monopolists tacking between government demands and public expectations to maximize profits and by coalitions of ordinary citizens demanding that local newspapers publicize stories of corruption incompetence and state violence Since the Cold War both in Mexico City and in the provinces a robust radical journalism has posed challenges to government forces
