100 Days in Photographs Nicholas Yapp, 2007 One hundred days have been identified by Getty and National Geographic to represent defining moments of the past 150 years These moments are crystallised in images that leap from the page revealing joy anger despair and triumph An insightful text by photography historian Nick Yapp supports these images which are accompanied by journals excerpts and on site notes that offer the backstory of the image and how it was captured Major events that have shaped our era captured in the book include from the Getty historic archive the 1848 9 revolution and riots in Europe President Lincoln's assassination in 1865 the construction of the Eiffel Tower in 1889 the Potemkin Mutiny 1905 that launched the Russians Revolution the Easter Rising in Dublin in 1916 the Wall Street crash of 1929 Kristallnacht in Germany in 1938 the British leaving India in 1947 through to the dawn of the new millennium in 2000 The National Geographic archives are used to illustrate cultural geography the changes in landscape contemporary conflicts Native America and the civil rights movement among others including the 1906 San Francisco earthquake Scott and Amundsen reaching the South Pole in 1911 the Lascaux cave paintings discovered in 1940 the first heart transplant in 1967 the Chernobyl disaster of 1986 the cloning of sheep in 1997 the Twin Towers attack of 2001 and the global warming debate of 2007 The wonder of this book is in illustrating how an entire event or age can be captured in a single image whether it be of a peasant's tears two heads of state sharing a secret or the triumph of an Olympic champion Politics war crime exploration fashion and fads all make up these one hundred days From the California Gold Rush of 1849 to the finished structure of the Three Gorges Dam in 2006

The World They Made Together Mechal Sobel, 2021-06-08 In the recent past enormous creative energy has gone into the study of American slavery with major explorations of the extent to which African culture affected the culture of black Americans and with an almost totally new assessment of slave culture as Afro American Accompanying this new awareness of the African values brought into America

however is an automatic assumption that white traditions influenced black ones In this view although the institution of slavery is seen as important blacks are not generally treated as actors nor is their divergent culture seen as having had a wide ranging effect on whites Historians working in this area generally assume two social systems in America one black and one white and cultural divergence between slaves and masters It is the thesis of this book that blacks Africans and Afro Americans deeply influenced white s perceptions values and identity and that although two world views existed there was a deep symbiotic relatedness that must be explored if we are to understand either or both of them This exploration raises many questions and suggests many possibilities and probabilities but it also establishes how thoroughly whites and blacks intermixed within the system of slavery and how extensive was the resulting cultural interaction History of Hertfordshire John Edwin Cussans,1881 *Cold Harbor to the Crater* Gary W.
