,2003 **Hombres y documentos de la filosof a espaola** Gonzalo Díaz Díaz,1995 FILOSOF A 1º (LOMLOE)

BUGARÍN LAGO, ALEJANDRO,2022-05-24 Los contenidos de este libro han sido desarrollados seg n lo establecido en el Real

Decreto 243/2022 de 5 de abril por el que se establecen la ordenación y las enseñanzas del Bachillerato. Este libro ha sido pensado como manual de consulta y trabajo para los alumnos que cursen la asignatura de Filosofía de 1º de Bachillerato. En él se han recogido los contenidos del currículo establecidos en la legislación vigente. Para ello hemos estructurado el manual en tres bloques temáticos: 1. La filosofía y el ser humano; 2. El conocimiento y la realidad; 3. Acción y creación. Cada uno de estos bloques temáticos que va introducido por una ilustración y un texto pertinentes incluye varias unidades hasta completar un total de once. Las unidades didácticas están organizadas de la siguiente manera: Al inicio de cada una aparece un texto representativo del contenido de esa unidad y que puede servir como introducción al tema. A continuación aparece un apartado que hemos titulado «Reflexiones previas», cuya función es sumergir al alumnado en los problemas que deben tratarse al mismo tiempo que puede servir de orientación al profesor para conocer lo que el alumno sabe o cree acerca de la materia. Seguidamente se desarrollan los contenidos organizados en varios subapartados. Hemos tratado de hacer una exposición amplia y sistemática de los mismos. Aún cuando con frecuencia recurramos a los grandes filósofos del pasado o actuales para presentarlos de este modo, el alumno se introduce simultáneamente en la historia de la filosofía. Para facilitar la asimilación de dichos contenidos hemos optado por varios tipos de información: Exposiciones de los contenidos propiamente dichos que el alumnado debe asimilar; Cuadros con informaciones curiosas cuyo objetivo es una mayor motivación del alumnado; y otras informaciones orientadas a la ampliación de conocimientos. Textos de filósofos o científicos relacionados con el tema. Se ha procurado recoger una muestra representativa de las diversas posiciones cuando se trata de un tema problemático o cuando se expone su desarrollo histórico. Biografías de filósofos o científicos importantes; Esquemas, definiciones, actividades de reflexión. Un último apartado de ideas fundamentales ofrece una recapitulación de los contenidos de la unidad. Al final de cada unidad aparecen varias páginas con actividades diversas: videoteca, conceptos para definir, textos para leer y comentar, temas para debatir y cuestiones para responder que ayudan a los alumnos a desarrollar ciertas actitudes y capacidades y a asimilar los contenidos propuestos de un modo más activo. Se ha dado una orientación sistemática a todo el libro usando para ello como hilo conductor la reflexión sobre el ser humano entendido como un ser libre que se constituye en relación a veces conflictiva con el mundo y los otros seres humanos y presentando a la filosofía como un saber que trata de construir un proyecto global de vida humana. Intentamos igualmente familiarizar al alumnado con la historia de la filosofía recogiendo en las unidades didácticas que era pertinente hacerlo aquellas propuestas que esta disciplina ha elaborado a lo largo de la historia para dar solución a los problemas que se le han ido presentando.

Reflexiones sobre cuestiones epistemológicas relacionadas con la investigación sobre los fenómenos migratorios en España. Se critica el tratamiento prioritariamente criminalizador que las leyes de extranjería otorgan a la inmigración no europea en España y se considera imprescindible asumir los denominados flujos migratorios como manifestaciones propias al sistema económico.

globalizado removiendo cualquier consideración de control punitivo sobre ellos. Para ello se considera que se debe comenzar por purificar y homogeneizar el lenguaje con que se discute sobre los flujos migratorios sobre bases no criminalizantes.

**Clásicos modernos** María Teresa Caro Valverde, 2023-04-01  
Los clásicos modernos es una monografía científica vinculada al proyecto I+D+i PGC2018 101457 B100 que interesa a todo educador persuadido de la autenticidad formadora de la literatura clásica para cualquier edad y disciplina. Su clave es la reflexión inventiva que parte de la argumentación del comentarista capaz de idear teoría original sobre la práctica fenoménica de su lectura significativa y que se expande en el mundo educativo con proyectos de investigación que renuevan el enfoque de la Institución Libre de Enseñanza en el siglo XXI. Ello da un giro innovador al humanismo literario en los escenarios democráticos donde el desarrollo integrado de competencias implica la emancipación de cada persona que aprende pensando libremente con discursos de acción social. Frente al vacío consumo de artefactos y modas triviales los clásicos nos llaman con sinergias íntimas y perdurables donde nace su modernidad. Obras como La Celestina arden en las pupilas de los lectores que las reinventan hoy enamorados de su verdad y su misterio. No es el canon impuesto sino el hipertexto crítico y creativo el que las romantiza en las aulas pues en palabras de Azorín: «No han escrito las obras clásicas sus autores. Las va escribiendo la posteridad».

**La Casa Del Pensamiento** Plaza y Valdés, 1998-01-01  
De la literatura latinoamericana a la literatura (latinoamericana) mundial Jorge J. Locane, 2019-03-18  
El debate en torno al concepto de literatura mundial acompaña el proceso de reconfiguración del diseño global desde la Caída del Muro de Berlín y el desmantelamiento del orden bipolar en adelante. Las literaturas nacionales e incluso los constructos regionales están desde entonces en crisis. Formulas técnicas divergentes y también complementarias buscan resituar las literaturas latinoamericanas en dinámicas globales y superar así los marcos que se han revelado como obsoletos. En discusión con postulados idealistas y normativos De la literatura latinoamericana a la literatura latinoamericana mundial propone un examen de las condiciones materiales, procesos y actores que hoy permiten o impiden que la literatura latinoamericana entre en circulación internacional y devenga literatura latinoamericana mundial. En un segundo momento, bajo la premisa de que las instancias de mediación dejan huellas, el estudio se aparta de la sociología de la literatura para examinar de cerca las configuraciones textuales. Intenta finalmente y en respuesta al énfasis en la circulación de ciertos modelos hegemónicos otorgarle visibilidad y valor como literatura del mundo a expresiones que permanecen inscriptas en dominios locales.
