Nigerian Romantic Message With Pidgin English:

Current Trends in Nigerian Pidgin English Akinmade T. Akande, Oladipo Salami, 2021-10-25 This book focuses on the structure and sociolinguistics of Nigerian Pidgin English. Its major aim is to serve as a compendium which touches different major aspects of NPE as it has been observed that earlier works in this area have focused only on one aspect or the other. It will offer a broad survey of the form and functions of Nigerian Pidgin NP in different domains. The book promises to investigate the use of NP in such domains as popular culture, advertisement, social media, and online discussion fora. One major strong point of this volume is the fact that it will direct attention to different fertile areas of NP by focusing inter alia on its social functions, its morphology and syntax, its regional varieties, its possible use as a viable medium of instruction in school, the changing attitudes of people towards its use, the place of NP in relation to language planning and policy in Nigeria, as well as sociolinguistic variation within NP. The book will make a significant contribution to the existing literature on NP as unlike earlier studies in this area it will explore the grammatical, sociolinguistic, and perceptual aspects of the language. By bringing together the expertise of renowned Nigerian and international scholars who have conducted research in this area, the volume will be an essential resource for researchers, graduate and undergraduate students interested not only in Nigerian Pidgin but also on contact linguistics.

Manual of Romance Forensic Linguistics Victoria Guillén-Nieto, Dieter Stein, 2025-06-02 It is evident that published serious science-based work in Forensic Linguistics is predominantly written in English and focuses on casework from the English-speaking world. While the first aspect is understandable given that English serves as an international lingua franca in scientific discourse, the second aspect presents a significant limitation for the field. Should researchers assume that there is simply less crime in non-English speaking areas of the world? A more pertinent question might be: What cultural, disciplinary, legal, or legal-cultural factors contribute to the lack of research in and on languages other than English? In addition to addressing the underrepresentation of Romance languages in scientific publications related to forensic work, the chapters in this handbook will also explore the reasons behind this unfortunate situation. Designed to engage readers whether they are linguists, legal professionals, or simply interested individuals and to spark interest in Romance Forensic Linguistics, this handbook follows three key objectives. First, we are committed to providing a comprehensive overview of the casework and research conducted in and on several Romance languages including Peninsular Spanish, Catalan, Brazilian Portuguese, French, Canadian French, Italian, and Romanian. Second, the chapters in this volume seek to understand why Forensic Linguistics has thrived more in some Romance-speaking countries than in others. Finally, we aim to uncover the reasons for the slower development of Forensic Linguistics in regions where Romance languages are predominantly spoken.
