his choices And what happens when Deadpool breaks into the real world to kill the writers What kind of existence do literary characters have How can we call him a moral agent for good when he still commits murder left and right and then left again and then right Since Deadpool gets paid for his good deeds can they be truly heroic And which of the many Deadpool personalities are the real Deadpool And of course why does Deadpool love to annoy Wolverine so much Deadpool challenges us to think outside the box Deadpool and Philosophy shows us the profound implications of this most contradictory and perplexing comic book character
