This second volume presents the work of another 50 artists and writers exploring the diverse ways that avant gardism develops reflexive and experimental combinations of aesthetic and political praxis. The manifest strategies, temporalities, and genealogies of avant garde art and politics are expressed through an international intergenerational and interdisciplinary convocation of ideas that covers the fields of film, video, architecture, visual art, art activism, literature, poetry, theatre, performance, intermedia, and music. **The Transformational Consumer** Tara-Nicholle Nelson, 2017-03 This book uses stories and case studies from several industries to show how companies can rethink their customers, products, and services, marketing, competition, and even their culture.
