Nihongo Roy Andrew Miller, 2015-12-17 The Japanese language is often under attack by linguists translators and even amateurs for having a seemingly vague set of rules making it near impossible to ever fully grasp all of the language's facets Roy Andrew Miller guides the reader through these often contradictory allegations by evaluating Japanese in the light of linguistic science He also pays particular attention to the problems inherent in certain systems for describing the language and to questions posed by published translations from Japanese literature

The Body in Language Horst Ruthrof, 2015-12-17 This book opposes the position that meanings can be explained by way of intralinguistic relations as in structural linguistics and its successors and rejects definitional descriptions of meaning as well as naturalistic accounts The idea that we are able to live by strings of mere signifiers is shown to rest on a misconception Ruthrof also attempts an explanation of why arguments grounded in a post Saussurean view of language as for instance certain feminist theories find it so difficult to show how precisely the body can be reclaimed as an integral part of linguistic signs In reinstating the body in language Ruthrof draws on Peirce Husserl Heidegger Wittgenstein and Derrida cognitive linguistics and rhetoric as well as on the writings of Helen Keller

The Communicative Syllabus Robin Melrose, 2015-12-17 Beginning with a thorough survey of approaches to communicative syllabus design Melrose deals with the early 1970s functional approach and subsequent criticism of it as well as the contemporary search for a process approach to language learning It proposes a meaning negation model which draws upon the seminal work of Halliday Martin Fawcett and Lemke and is illustrated through their analysis of a unit from a communicative course book Its topical interactional approach is placed within the context of the current debate on language teaching and learning

Prisoners of War Philip Towle, Margaret Kosuge, Yoichi Kibata, 2000-01-01 During the Second World War the Japanese were stereotyped in the European and American imagination as fanatical cruel and almost inhuman This view is unhistorical and simplistic It fails to recognise that the Japanese were acting at a time of supreme national crisis and it fails to take account of their own historical tradition The essays in Japanese Prisoners of War by both Western and Japanese scholars explore the question from a balanced viewpoint looking at it in the light of longer term influences notably the Japanese attempt to establish themselves as an honorary white race The book also addresses the other side of the question looking at the treatment of Japanese prisoners in Allied captivity
