Freedom and protection Kriston R. Rennie, 2018-07-05 This book examines the history of monastic exemption in France It reveals an institutional story of monastic freedom and protection deeply rooted in the religious political social and legal culture of the early Middle Ages Traversing many geo political boundaries and fields of historical specialisation the book defines the meaning and value of exemption to French monasteries between the sixth and eleventh centuries It demonstrates how enduring relationships with the apostolic see in Rome ultimately contributed to an emerging identity of papal authority the growth of early monasticism Frankish politics and governance church reform and canon law

Byzantium in Dialogue with the Mediterranean, 2019-03-25 In thirteen contributions *Byzantium in Dialogue with the Mediterranean History and Heritage* shows that throughout the centuries of its existence Byzantium continuously communicated with other cultures and societies on the European continent as well as North Africa and in the East In this volume History represents not only the chronological geographical and narrative background of the historical reality of Byzantium but it also stands for an all inclusive scholarly

approach to the Byzantine world that transcends the boundaries of traditionally separate disciplines such as history art history or archaeology The second notion Heritage refers to both material remains and immaterial traditions and traces that have survived or have been appropriated Contributors are Hans Bloemsma Elena Boeck Averil Cameron Elsa Fernandes Cardoso Cristian Caselli Evangelos Chrysos Konstantinos Chrysosgelos Penelope Mougoyianni Daphne Penna Marko Petrak Matthew Savage Dani Ile Slootjes Karen Stock Alex Rodriguez Suarez and Mari tte Verhoeven *The Visigoths in Gaul and Spain A.D. 418-711* Alberto Ferreiro,2023-11-27 Papal Letters in the Early Middle Ages Detlev Jasper,Horst Fuhrmann,2001 An examination of the transmission and spread of papal documents in the Latin West between the 4th and 9th centuries These documents which were collected from the 5th century onwards became the basis of canon law The second part of the volume discusses the prevalence of forged decrees which were attributed to the earliest popes **A Short History of the Papacy in the Middle Ages** Walter Ullmann,2003-09-02 This classic text outlines the development of the Papacy as an institution in the Middle Ages With profound knowledge insight and sophistication Walter Ullmann traces the course of papal history from the late Roman Empire to its eventual decline in the Renaissance The focus of this survey is on the institution and the idea of papacy rather than individual figures recognizing the shaping power of the popes roles that made them outstanding personalities The transpersonal idea Ullmann argues sprang from Christianity itself and led to the Papacy as an institution sui generis The Divorce of Lothar II Karl Heidecker,2010 She declares so the bishops will write in their report on the council that she is unworthy to continue as a married woman Before God and his angels she bares her heart and confesses to them every secret relating to the rumor that had arisen The rumor as will become apparent concerns her sexual relations with her brother True the inner wound which she confesses to God and the bishops was not dealt her of her own volition but under duress but it is in any event so terrible that she no longer feels herself worthy to share a royal or a marital bed or to marry anyone at all The bishops and abbots allow her as she had supposedly requested to enter a convent from The Divorce of Lothar II The Divorce of Lothar II illuminates the origin and development of Western notions of marriage and divorce and the separation of church and state in the context of a notorious royal divorce in late Carolingian Europe In 857 Lothar II king of Lotharingia decided to divorce Theutberga either because she had allegedly engaged in an incestuous liaison with her brother or simply because Lothar had wished to marry his concubine Waldrada Karl Heidecker s dramatic and engaging narrative untangles the chaos that resulted two popes a host of often quarreling bishops and Lothar s conniving uncles soon became involved in an epic struggle that did not end even with the death of Lothar The extraordinary series of events sheds light on the fact that the laws on marriage and divorce were still uncertain The Church itself was hardly unified in its approach and its efforts to formulate and impose rules repeatedly foundered against the political machinations characteristic of the Carolingian world In The Divorce of Lothar II Heidecker not only discusses the legal aspects of the case but also pays much attention to the often heavy handed ways in which the players of the story achieved

their goals This ninth century scandal becomes a study of family dynamics changing values and the tenuous relationships between kings nobles and bishops around the topic of royal marriage Though the drama ended with no clear resolution of the Church s position Lothar s quest is revealed as an early chapter in the emergence of the belief that marriage rests on the personal will of the partners is monogamous and should not be dissolved

Canon Law and the Letters of Ivo of Chartres Christof Rolker,2010-01-28 Ivo of Chartres was one of the most learned scholars of his time a powerful bishop and a major figure in the so called Investiture Contest Christof Rolker here offers a major new study of Ivo his works and the role he played in the intellectual religious and political culture of medieval Europe around 1100 AD Comparing Ivo s extensive correspondence to the contemporary canon law collections attributed to him Dr Rolker provides a new interpretation of their authorship Contrary to current assumptions he reveals that Ivo did not compile the Panormia showing that its compiler worked in a distinctly different mental framework from Ivo These findings call for a reassessment of the relationship between Church reform and scholasticism and shed new light on Ivo as both a scholar and bishop

Calvin: Institutes of the Christian Religion John Calvin, This is the definitive English language edition of one of the monumental works of the Christian church All previous editions in Latin French German and English have been collated references and notes have been verified corrected and expanded and new bibliographies have been added The translation preserves the rugged strength and vividness of Calvin s writing but also conforms to modern English and renders heavy theological terms in simple language The result is a translation that achieves a high degree of accuracy and at the same time is eminently readable Long recognized for the quality of its translations introductions explanatory notes and indexes the Library of Christian Classics provides scholars and students with modern English translations of some of the most significant Christian theological texts in history Through these works each written prior to the end of the sixteenth century contemporary readers are able to engage the ideas that have shaped Christian theology and the church through the centuries
