Which OSHA Card Do I Need?

Construction

Designed for workers in construction, demolition, building development and other fields in the construction industry.

General Industry

Designed for workers in health care, factory operations, warehousing, manufacturing, storage and more.

The best way to make sure you get the right OSHA card is to ask your employer which card is required for your position and work responsibilities. That way you will know which OSHA 10 online course is best for you.

What Is OSHA 10-Hour Training?

OSHA 10-hour training teaches basic safety and health information to entry-level workers in construction and general industry. It is part of the OSHA Outreach Training Program, which explains serious workplace hazards, workers' rights, employer responsibilities and how to file an OSHA complaint.

Train at your own pace with OSHA Education Center and earn an official OSHA 10 card from the U.S. Department of Labor (DOL) — a common requirement for employment in construction and other industries.

OSHA 10 Card Benefits

The OSHA 10 card proves to employers that you completed 10 hours of OSHA-authorized training on critical workplace safety topics. Entry-level workers with this credential have industry-specific knowledge and skills that help prevent injuries and keep workplaces safe and productive.

Does the OSHA 10 Card Expire?

Your OSHA 10 card will never expire. But some employers, states, unions or local jurisdictions may require workers to retake the 10-hour course after a certain period of time, such as every five years.
