*The Light That Illuminates the Flame* Gary Tim Collins, 2011-05 December 2 2004 started out like any other day for Gary Tim Collins As a University of Toledo alumnus Gary was looking forward to the Mid American Conference championship game at Ford Field against the University of Miami with his friends But he wouldn't see or remember the game Just as he was about to sit down to enjoy the game he was struck with seizures that landed him in Henry Ford's Intensive Care Unit in a coma for two weeks It was the prayers of friends and loved ones that helped bring him back This traumatic experience brought Gary closer to God when he had previously struggled with finding his purpose and really felt God had something else in mind for him That something else turned out to be this book *The Light That Illuminates the Flame* In this book Gary explores common themes of Christianity like who God is what he does in our lives the importance of his Word the life of Jesus Christ and in turn the way we should live our lives as his faithful followers to draw near to him It is a thank you to the Almighty God who gave all and saved a man from losing it all Marty Pennington Lead Pastor Mainstreet Church Walbridge Ohio Gary Tim Collins taught for over twenty four years in the Toledo public school system working with handicapped and disadvantaged high school students He lives in Ohio and is actively involved in his church This is his first book This is a book that would be good for any growing Christian to read Gary takes much of his personal life experiences and puts them into layman's terms so that all can learn and grow As you like all of us struggle with life's issues this book will certainly help you work with your own struggles as well as prepare you to help others on their journey of life Terry R Smith Congregational Care Pastor Mainstreet Church *Hispanic Business*, 1981 *Anatomy of Science Fiction* Donald E. Morse, 2009-03-26 This wide ranging collection of essays re opens the connection between science fiction and the increasingly science fictional world Kevin Alexander Boon reminds us of the degree to which the epistemology of science fiction infects modern political discourse K roly Pint r explores the narrative structures of utopian estrangement and Tam s B nyei and Brian Attebery take us deeper into the cultural exchanges between science fiction and the literary and political worlds In the second half Donald Morse Nicholas Ruddick and va Federmayer look at the way in which science fiction has tackled major ethical issues while Amy Novak and K lm n Matolcsy consider memory and evolution as cultural batteries The book ends with important discussions of East German and Hungarian science fiction by Usch Kiausch and Donald Morse respectively I envisage that the book will find a market both among academics and as a recommended text to undergraduates as it offers interesting essays on important readers The tendency for science fiction to be offered as a literature class to science majors is not usually considered but this book would be particularly appropriate for such a market Dr Farah Mendelsohn Middlesex University **Water is Everybody's Business** Abraham S.
