Schrag,2006-03-15 As Metro stretches to Tysons Corner and beyond this paperback edition features a new preface from the author Drivers in the nation's capital face a host of hazards high speed traffic circles presidential motorcades jaywalking tourists and bewildering signs that send unsuspecting motorists from the Lincoln Memorial into suburban Virginia in less than two minutes And parking Don't bet on it unless you're in the fast lane of the Capital Beltway during rush hour Little wonder then that so many residents and visitors rely on the Washington Metro the 106 mile rapid transit system that serves the District of Columbia and its inner suburbs In the first comprehensive history of the Metro Zachary M Schrag tells the story of the Great Society Subway from its earliest rumblings to the present day from Arlington to College Park Eisenhower to Marion Barry Unlike the pre World War II rail systems of New York Chicago and Philadelphia the Metro was built at a time when most American families already owned cars and when most American cities had dedicated themselves to freeways not subways Why did the nation's capital take a different path What were the consequences of that decision Using extensive archival research as well as oral history Schrag argues that the Metro can be understood only in the political context from which it was born the Great Society liberalism of the Kennedy Johnson and Nixon administrations The Metro emerged from a period when Americans believed in public investments suited to the grandeur and dignity of the world's richest nation The Metro was built not merely to move commuters but in the words of Lyndon Johnson to create a place where the city of man serves not only the needs of the body and the demands of commerce but the desire for beauty and the hunger for community Schrag scrutinizes the project from its earliest days including general planning routes station architecture funding decisions

land use impacts and the behavior of Metro riders The story of the Great Society Subway sheds light on the development of metropolitan Washington postwar urban policy and the promises and limits of rail transit in American cities *The American Architect* ,1935 **New York State Contract Reporter** ,1995-12-25 *Practical Firemanship* Great Britain. Fire Department,1981 Explorations in the History and Heritage of Machines and Mechanisms Marco Ceccarelli,Irem Aslan Seyhan,2024-02-28 This book gathers the latest advances in the field of history of science and technology as presented by leading international researchers at the 8th International Symposium on History of Machines and Mechanisms HMM held in Ankara Turkey on April 18 20 2024 The Symposium which was promoted by the permanent commission for the History of Machine and Mechanism Science MMS of IFToMM provided an international forum to present and discuss historical developments in the field of MMS The contents cover all aspects of the development of MMS from antiquity until the present era and its historiography modern reviews of past works engineers in history and their works the development of theories history of the design of machines and mechanisms historical developments of mechanical design and automation historical developments of teaching the history of schools of engineering the education of engineers The contributions which were selected by means of a rigorous international peer review process highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations **Journal, Royal Architectural Institute of Canada** ,1952 **The Electrical Journal** ,1912 *The American Architect and Building News* ,1908 **American Architect** ,1908 **American Architect and the Architectural Review** ,1908 *Encyclopaedia of Occupational Health and Safety* Jeanne Mager Stellman,1998
