Program Mission

The Mission of the Public Administration Program is to energize public institutions and organizations doing public work, enrich and deepen civic culture, and increase leadership capacity for those with public and community responsibilities in Hawaii, the rest of the U.S., and the Asia-Pacific Region. We do this through teaching, research, and service activities that give current and future public service professionals the knowledge and skills they need to be more effective in their work and to improve our communities.

Program Objectives

The MPA program aims to equip you as high functioning public servants. The program has several goals for your training that are related to organizational theory and change:

- Students will Appraise the organizational environment, both internal and external, as well as the culture, politics, and institutional setting.
- Students will Regularly employ a coherent framework to think critically about an issue in order to decide what, if any, action to take
- Students will Communicate effectively orally and in written form, by tailoring the mode of communication to different audiences.
- Students will Value the responsibilities of public service by demonstrating responsiveness to their publics, and recognizing the legal and ethical responsibilities and engaging in professional behavior.

Course Objectives

The course will introduce students to foundational and current perspectives on organizational design. After successful completion of the course, students should be able to:

- Use multiple frames to define and diagnose organizations
- Differentiate between various organizational forms and the impact of the context
- Assess the drivers of human behavior in organizations
- Evaluate the organization and apply organizational change strategies
- Apply their knowledge to "real life" situations

Course Description

The course will systematically explore the characteristics of organizations from the perspective of the structural, human resources, political, and cultural frames of organizational theory. The course then focuses on organizational change strategies and theories. The course concludes with discussions of how these frames and theories can be used in everyday management of public service organizations.
