Our Bad Relationship With Relaxation Relaxing In A Stress World:

Parents, Relax! How Overthinking Makes Bad Parents Pasquale De Marco, 2025-03-08 In the age of helicopter parenting and overscheduled children it's easy to fall into the trap of overthinking every decision we make as parents We worry about everything from our children's screen time to their sleep schedules from their eating habits to their social interactions We read books consult experts and scroll through endless parenting blogs desperate for the answers that will guarantee our children's success and happiness But in our quest for perfection we've lost sight of the most important thing the relationship with our children We've become so focused on raising perfect children that we've forgotten how to simply enjoy being parents This book is a call to action for parents to break free from the overthinking trap and rediscover the joy of parenting Drawing on research and real life stories this book will help you Understand the roots of overthinking and its consequences for parents and children Challenge your assumptions about parenting Overcome perfectionism and anxiety Trust your instincts and make decisions with confidence Create a more relaxed and enjoyable parenting experience This book is not about telling you how to raise your children It's about helping you to trust yourself as a parent and to find your own unique parenting style It's about giving you the tools and strategies you need to raise happy healthy and resilient children without all the stress and anxiety If you're tired of feeling overwhelmed and exhausted by parenting if you're ready to let go of the need to be perfect and just enjoy your children then this book is for you If you like this book write a review **Relaxed &**

exercises and techniques as well as a Body IQ quiz this valuable book helps you end negative thinking develop intuition improve relationships boost creativity and personal power and much more Includes a foreword by Judith Aston Linderoth creator and director of Aston Kinetics Praise While we have learned during the past few decades the importance of emotions and beliefs in health the body has too often been neglected or regarded as a mechanical object that sooner or later is doomed to fail In *A Guide to Body Wisdom* Ann Brode gives the body its due by showing how it can function as a source of wisdom and strength in total harmony with the mind Brode's perspective is long overdue offering a holistic balanced view of what it means to be human Larry Dossey MD author of *One Mind* This book includes a myriad of everyday ways to awaken and experience the body's innate intelligence It is full of interesting facts intriguing exercises and useful strategies Risa Kaparo PhD somatic psychotherapist creator of Somatic Learning and author of *Awakening Somatic Intelligence* *Home* John S Allen, 2015-12-29 A leading anthropologist studies the science behind feeling at home to show us how home made us human Home is where the heart is Security comfort even love are all feelings that are centered on the humble abode But what if there is more to the feeling of being at home Neuroanthropologist John S Allen believes that the human habitat is one of the most important products of human cognitive technological and cultural evolution over the past two million years In *Home* Allen argues that to feel at home is more than just an expression but reflects a deep seated cognitive basis for the human desire to have use and enjoy a place of one's own Allen addresses the very basic question How did a place to sleep become a home Within human evolution he ranks house and home as a signature development of our species as it emerged alongside cooperative hunting language and other critical aspects of humanity Many animals burrow making permanent home bases but primates generally speaking do not most wander making nests at night wherever they might find themselves This is often in home territory but it isn't quite home Our hominid ancestors were wanderers too so how did we over the past several million years find our way home To tell that story Allen will take us through evolutionary anthropology neuroscience the study of emotion and modern sociology He examines the home from the inside of our heads out homes are built with our brains as much as with our hands and tools Allen argues that the thing that may have been most critical in our evolution is not the physical aspect of a home but developing a feeling of defining creating and being in a home whatever its physical form The result was an environment relatively secure against whatever horrors lurked outside that enabled the expensive but creative human mind to reach its full flowering Today with the threat of homelessness child foster care and foreclosure this idea of having a home is more powerful than ever In a clear and accessible writing style Allen sheds light on the deep cognitive sources of the pleasures of having a home the evolution of those behaviors and why the deep reasons why they matter *Home* is the story about how humans evolved to create a space not only for shelter but also for nurturing creativity innovation and culture and why feeling at home is a fundamental aspect of the human condition **Live Well Between Your Ears** Doug Spencer, 2019-05-16 Do you struggle to maintain good health Are you tired of the onslaught of new

technology invading your life Do you long for the simplicity of the good old days Are you troubled by social unrest in the world And perhaps most importantly has the explosion of political and corporate lying made you distrustful and angry You are not alone many people feel the same way The good news is some of the problems are not that difficult In fact it's quite likely that you and a friend have sat at the kitchen table and solved most of them The bad news is many of your solutions are only opinions and they count for precious little This book offers scientific facts to replace rumors lies and opinions Each short chapter shines a clear mind stretching light on today's mess of important topics that keep the reader turning the page Here are a few of the ninety two chapter headings The rise of women and decline of men Are you old yet Big data Music as medicine Home made anxiety relief Wonderful sleep Approach to death Optimal health and PH level How to make yourself happier Empty memories Conspiracy theorists Lies and face management The beauty of being alone Your body home to trillions of microbes *Authentic Leadership* Dr. Ronald Tan Lian Huat, Dr. Hubert Rampersad, 2017-02-27 The dissertation is partly based on my experience as a leader where I have learnt the necessary skills and attributes through various leadership courses I have attended I was a leader for thirty years starting my career from a position of production technician to production manager and from a sales executive to sales manager and general manager and lately as CEO of a listed company I have also learned a lot from management gurus like Stephan Covey Dr Hubert Rampersad Dr Ken Keis Anthony Robins John C Maxwell Dr Pat Williams and others *Employees and Employers in Service Organizations* Arvind K. Birdie, 2017-04-21 With the increasing globalization and fast paced technological advances in business today service organizations must respond to the changing business dynamic between employers and employees The service industry has metamorphosed into a revolution not only in United States but in developed and developing countries also Highly industrialized countries have become service economies at least when measured in terms of share of the workforce employed in service industries This new book *Employees and Employers in Service Organizations Emerging Challenges and Opportunities* the first volume in the 21st Century Business Management book series provides an in depth exploration of recent concepts and trends in business management in the service industries It looks at the changing expectations and loyalties of young workers and others and the challenges and opportunities presented for service employers The book considers theory and research findings providing a plethora of practical implications and applications for these new workplace behavior dynamics Exploring the different perspectives and concepts from the book's researchers and authors *Employees and Employers in Service Organizations Emerging Challenges and Opportunities* cover themes such as work life balance spirituality in the workplace emerging positive psychology concepts such as psychological capital knowledge management and mindfulness expectations motivation and behavior of different generations such as Generation Y This informative volume will be valuable for faculty teaching courses in management and self improvement for leaders and executives as well as for those in service industries **Calm Mind** Liam Sharma, AI, 2025-03-14 Calm Mind offers a practical

guide to achieving inner peace and managing stress through proven techniques like deep breathing meditation and mindfulness The book emphasizes that cultivating a calm mind is an attainable skill not just a fleeting feeling providing actionable strategies for stress relief and enhanced well being Readers will discover how incorporating these practices can positively impact their nervous system hormonal balance and overall mental health leading to improved focus and emotional regulation The book uniquely blends ancient wisdom with modern research presenting evidence based approaches in an accessible manner It explores the history of meditation and its applications in contemporary psychology offering step by step instructions suitable for beginners Calm Mind stresses the importance of consistent practice empowering individuals to take proactive steps toward reducing anxiety and fostering a more centered state of mind Structured as a progressive learning experience the book initially focuses on the fundamentals of deep breathing then transitions into various meditation techniques and concludes with broader stress management strategies Readers learn to integrate these practices into their daily lives ensuring lasting benefits and a greater sense of inner peace

Biomedicine Examined M. Lock,D.

Gordon,2012-12-06 The culture of contemporary medicine is the object of investigation in this book the meanings and values implicit in biomedical knowledge and practice and the social processes through which they are produced are examined through the use of specific case studies The essays provide examples of how various facets of 20th century medicine including education research the creation of medical knowledge the development and application of technology and day to day medical practice are pervaded by a value system characteristic of an industrial capitalistic view of the world in which the idea that science represents an objective and value free body of knowledge is dominant The authors of the essays are sociologists and anthropologists in almost equal numbers also included are papers by a social historian and by three physicians all of whom have steeped themselves in the social sciences and humanities This cooperative endeavor which has necessitated the breaking down of disciplinary barriers to some extent is perhaps indicative of a larger movement in the social sciences one in which there is a searching for a middle ground between grand theory and attempts at universal explanations on the one hand and the context specific empiricism and relativistic accounts characteristic of many historical and anthropological analyses on the other
