Reinders, 2024-04-16 The downfall of Jean Vanier due to the history of sexual abuse that came to light in 2020 has shocked everyone familiar with

his life and work as the founder and leader of L'Arche. The authors in this book raise significant questions regarding his influential legacy and its relevance for theology and disability and for L'Arche in particular. Without any attempt to whitewash or downplay the seriousness of his transgressions, the question cannot be avoided to sort out the good and the bad in Vanier. It requires soul searching on the part of his theological heirs and those who have been influenced by him. Finally, his work with and influence upon L'Arche raises the question of sustainability and how its communities might or might not be shaped by his tarnished legacy.

Living Traditions Kimberlynn McNabb, Robert C. Fennell, 2019-05-01. How has the Christian movement grown and changed in the last five hundred years? From Luther to Tillich and the Virgin Mary from Protestant initiatives and Catholic dialogues from Charles Taylor to progressive Christianity, this book runs the gamut. The urgency of ecology, the sacramentality of foot washing, the complexities of biblical interpretation, the theology of the cross and the ongoing work of reformation are all under the microscope. A distinctively ecumenical project, this book presents a variety of perspectives on these pressing questions, drawing together authors from the Anglican, Baptist, Lutheran, Roman Catholic, United Church of Canada traditions and more. Each contributor provides unique insights into Christianity's ongoing processes of re-forming as contexts and circumstances change. Readers will find resonances of the familiar interwoven with new research about the project of ecumenical Christianity.

Church on the Way Nell Becker Sweeden, 2015-07-17. The practice of Christian hospitality reaches back to the early centuries of Christian life as well as deep into Jewish history, life and Scripture. This practice is alive today in Christian churches and in parachurch organizations within the United States, but new contextual realities in particular twenty-first century global migration patterns have altered the conditions under which hospitality is practiced. The reality of migration and its effect on human lives disrupts static conceptions of hospitality and challenges ecclesial communities toward contextual appropriation of hospitality practice. This volume explores Christian hospitality practice in light of twenty-first century U.S. Latino migration and it develops the notion of a journeying hospitality of accompaniment with and among persons migrating, which fosters deeper relationships and formation. The shifting identities of persons on the move challenge assumptions about what it means to welcome another in hospitality and ultimately what it means to be church from within these new relationships. In turn, the new conceptions and expressions of hospitality offered in this book press how the nature and mission of the church will be oriented toward new ecclesial patterns and alternative forms of residing on earth.

Welcome as a Way of Life Benjamin S. Wall, 2016-07-19. This book is about the theology of Jean Vanier. Drawing from Vanier's writings, it situates Vanier's theological thinking on community care and what it means to be and become human in the context of welcome. This book draws attention to how welcome for Vanier is a visible expression of genuine hospitality, friendship and human growth, offering an alternative way of conceiving and naming the social-forming dynamics within Christian community with special attention given to how welcome occurs within the communities of L'Arche. At a deeper level, this book assesses Vanier's thinking on the place and role both the self and

community play in welcoming the truth of reality as it is revealed and given within community in order to prepare the way for exploring how welcome is a sign of community life the visible expression of individual and communal trust in God's providence and a conduit of God's presence in the world

Theology and Down Syndrome Amos Yong, 2007 While the struggle for disability rights has transformed secular ethics and public policy traditional Christian teaching has been slow to account for disability in its theological imagination Amos Yong crafts both a theology of disability and a theology informed by disability The result is a Christian theology that not only connects with our present social medical and scientific understanding of disability but also one that empowers a set of best practices appropriate to our late modern context Publisher description

Alive in God Timothy Radcliffe, 2019-10-03 How can Christianity touch the imagination of our contemporaries when ever fewer people in the West identify as religious Timothy Radcliffe argues we must show how everything we believe is an invitation to live fully God says I put before you life and death choose life Anyone who understands the beauty and messiness of human life novelists poets filmmakers and so on can be our allies whether they believe or not The challenge is not today's secularism but its banality We accompany the disciples as they struggle to understand this strange man who heals casts out demons and offers endless forgiveness In the face of death he teaches them what it means to be alive in God Then he embraces all that afflicts and crushes humanity Finally Radcliffe explores what it means for us to be alive spiritually physically sacramentally justly and prayerfully The result is a compelling new understanding of the words of Jesus I came that they may have life and have it abundantly

Jean Vanier Michael W. Higgins, 2016 Winner of the 2015 Templeton Prize and numerous other international and prestigious honors Jean Vanier lives a radical poverty of surrender in a time of fanatical acquisitiveness economic disparity and mounting bellicosity among nations He is a philosopher of the heart icon of wholeness and justice activist Through such key notions as trust community relationship and humility Vanier has built up a network of service and nurturing growth spanning the globe the L'Arche Movement He has advocated for peace in a world that treasures its violence written extensively about the very meaning of human personhood and championed sensitivity to the diverse spiritual traditions that make up our world His remarkable life has included rich friendships with Blessed Mother Teresa St John Paul II and Henri Nouwen Jean Vanier is a man of complexity and formal philosophical training a scion of a family of national pedigree and one of the seminal religious and inspirational figures of our time In this volume Michael Higgins focuses on

Vanier's many interconnections personal and conceptual with the mighty and the humble the pious and the secular as well as the young and the seasoned People of God is a series of inspiring biographies for the general reader Each volume offers a compelling and honest narrative of the life of an important twentieth or twenty first century Catholic Some living and some now deceased each of these women and men has known challenges and weaknesses familiar to most of us but responded to them in ways that call us to our own forms of heroism Each offers a credible and concrete witness of faith hope and love to people of our own day *Theology, Disability, and Spiritual Transformation* Michael Hryniuk, 2010 In this study Michael Hryniuk develops a full phenomenological psychological and theological account of spiritual transformation in the context of L'Arche a federation of Christian communities that welcome persons with learning disabilities The book begins with a critical examination of current perspectives on spiritual transformation in theology and Christian spirituality and constructs a new foundational formulation of transformation as a shift in consciousness identity and behavior Through extensive analysis of the narratives of the caregiver assistants who share life with those who are disabled this case study reveals an alternative vision of the three fold way that unfolds through a series of profound awakenings in relationships of mutual care and presence an awakening to the capacity to love to bear inner anguish and darkness and to experience radical human and divine acceptance The book examines the psychological dimensions of spiritual transformation through the lens of contemporary affect theory and explores how care givers experience a profound healing of shame in their felt sense of identity and self worth

Hospitable Witnessing Priscilla Sun Kyung Oh, 2018-06-18 Drawing on her own experience of befriending a person suffering from a long term mental health challenge Priscilla Oh reflects on the meaning of care and friendship theologically Using autoethnography she goes beyond the personal experience and examines various issues surrounding mental health Hospitable Witnessing candidly takes readers into the everyday life of being with a mentally ill person There are emotional challenges and contingencies in sustaining friendship and caring for a person with a long term mental health problem Oh points out that those who care for a loved one during a long term illness inevitably experience burnout resulting from the constant care requirements Under such an enormous disruption we need to be compassionate toward another's suffering and be willing to be present and available for them This book suggests our need of one another and identifies three important Christian practices caring as we are being made in the image of God compassion as being present with the sufferer and lament as to revitalize our faith and hope *The Practices of Happiness* Ian Steedman, John R Atherton, Elaine Graham, 2010-08-03 A PDF version of this book is available for free in open access via www.tandfebooks.com as well as the OAPEN Library platform www.oapen.org It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license and is part of the OAPEN UK research project There is growing evidence that rising levels of prosperity in Western economies since 1945 have not been matched by greater incidences of reported well being and happiness Indeed material affluence is often accompanied instead by greater social and individual distress A growing

literature within the humanities and social sciences is increasingly concerned to chart not only the underlying trends in recorded levels of happiness but to consider what factors if any contribute to positive and sustainable experiences of well being and quality of life Increasingly such research is focusing on the importance of values and beliefs in human satisfaction or quality of life but the specific contribution of religion to these trends is relatively under examined This unique collection of essays seeks to rectify that omission by identifying the nature and role of the religious contribution to wellbeing A unique collection of nineteen leading scholars from the field of economics psychology public theology and social policy have been brought together in this volume to explore the religious contribution to the debate about happiness and well being These essays explore the religious dimensions to a number of key features of well being including marriage crime and rehabilitation work inequality mental health environment participation institutional theory business and trade They engage particularly closely with current trends in economics in identifying alternative models of economic growth which focus on its qualitative as well as quantitative dimensions This unique volume brings to public notice the nature and role of religion s contribution to wellbeing including new ways of measurement and evaluation As such it represents a valuable and unprecedented resource for the development of a broad based religious contribution to the field It will be of particular relevance for those who are concerned about the continuing debate about personal and societal well being as well as those who are interested in the continuing significance of religion for the future of public policy

Reconsidering Intellectual Disability Jason Reimer Greig, 2015-11-02 Drawing on the controversial case of Ashley X a girl with severe developmental disabilities who received interventionist medical treatment to limit her growth and keep her body forever small a procedure now known as the Ashley Treatment *Reconsidering Intellectual Disability* explores important questions at the intersection of disability theory Christian moral theology and bioethics What are the biomedical boundaries of acceptable treatment for those not able to give informed consent Who gets to decide when a patient cannot communicate their desires and needs Should we accept the dominance of a form of medicine that identifies those with intellectual impairments as pathological objects in need of the normalizing bodily manipulations of technological medicine In a critical exploration of contemporary disability theory Jason Reimer Greig contends that L Arche a federation of faith communities made up of people with and without intellectual disabilities provides an alternative response to the predominant bioethical worldview that sees disability as a problem to be solved *Reconsidering Intellectual Disability* shows how a focus on Christian theological tradition s moral thinking and practice of friendship with God offers a way to free not only people with intellectual disabilities but all people from the objectifying gaze of modern

medicine L Arche draws inspiration from Jesus's solidarity with the least of these and a commitment to Christian friendship that sees people with profound cognitive disabilities not as anomalous objects of pity but as fellow friends of God This vital act of social recognition opens the way to understanding the disabled not as objects to be fixed but as teachers whose lives can transform others and open a new way of being human

Saint Vincent De Paul: His Perceived Christological Thought Pattern on Charity and Christ in the Poor Michael I. Edem CM,2019-02-14 The entire work is divided into three parts Each part has its accompanying chapters with corresponding introductions and conclusions It is the incarnation that necessitated the self emptying and self abasement of Christ It is the same mystery that underlies his passion and crucifixion and eventual resurrection The mystery of incarnation capped with experiential events forms the tap root of this global vision of Christ in the poor It is central to his theology of the poor Christ in the poor and the poor in Christ The incarnation and experiential events furnish the inclination and orientation Vincent's thought pattern possesses Such penetration and globalization process concerning the word incarnate are in line with the Church's permanent need of theological reflection The special inclination acts as a veneer that links other aspects It forms a continuum permeating and illumining the mystical link of the Vincentian Christ in the poor and the poor in Christ
