Jewell, 2007-03-21 Moral reform movements targeting racial minorities have long been central in negotiating the relationship between race and class in the United States particularly in periods of large scale social change Over a century ago when the abolition of racial slavery Southern Reconstruction industrialization and urban migration presented challenges to both race and class hierarchies in the South postbellum missionary reform organizations like the American Missionary Association crusaded to establish schools colleges and churches for Blacks in Southern cities like Atlanta that would aggressively erode cultural differences among former slaves and assimilate them into a civic order defined by Anglo Protestant culture While the AMA's missionary institutions in Atlanta sought to shift racial dynamics between Blacks and Whites they also fueled struggles over the social and cultural boundaries of middle class belonging in a region beset by social change Drawing upon late nineteenth century accounts of AMA missionary activity in Atlanta Black attempts to define and maintain a middle class identity and Atlanta Whites concerns about Black attempts at upward mobility the author argue that the rhetoric about the implications of increased minority access to middle class resources like education and cultural knowledge speaks to links between anxieties about class position and racial status in societies stratified by both class and race *Color Stories* JeffriAnne Wilder, 2015-10-26 This book offers an in depth sociological exploration of present day colorism in the lives of black women investigating the lived experiences of a phenomenon that continues to affect women of African descent Race still matters And for black women the related issues of skin tone are just as important today as in decades past Part cultural commentary part empirical analysis this book offers a compelling study and discussion of colorism a widely discussed but understudied issue in post racial America that demonstrates how powerful a factor skin color remains in the everyday lives of young black women Author JeffriAnne Wilder

Black and White Winkfield Twyman, Jr.,Jennifer Richmond,2023-05-23 Unsatisfied with the relentless pace and narrow constraints of social media two Americans Winkfield Twyman Jr and Jennifer Richmond a black man and a white woman rediscovered the art of letter writing and maintained a years long correspondence about race in the United States In Letters in Black and White they share for the first time their exchange in full charting their journey from wary strangers to trusted confidants At a time when many Americans are dazed confused and angered by the country s current state of race relations they offer a model not only for having needed but difficult conversations but also for a better way forward Marked by well crafted turns of phrase sharp wit and sober reflection they do not rely on those fashionable words and phrases that have been drained of real meaning or are hopelessly saddled with excessive baggage such as antiracism white fragility and allyship Rather on topics ranging from the murder of George Floyd and the launch of the 1619 Project to the debate over reparations and the nature of elite black organizations like Jack and Jill of America they tell the truth as they see it in their own uncorrupted language speaking for no one but themselves Particularly critical of both the ideological battles that fuel media programming and entrench political rivalries and the noble sounding social and cultural projects that fail time and again to offer any meaningful solutions they identify productive ways to unify across our differences ways to find our common humanity and to mend America s divided soul Ultimately they offer an inspirational message of hope and optimism for all one that does not allow the past to define our present or predetermine our future Culturally Diverse Counseling Elsie

Powery, 2024-10-22 True to Our Native Land is a pioneering commentary on the New Testament that sets biblical interpretation firmly in the context of African American experience and concern In this second edition the scholarship is cutting edge updated and expanded to be in tune with African American culture education and churches The book calls into question many canons of traditional biblical research and highlights the role of the Bible in African American history accenting themes of ethnicity class slavery and African heritage as these play a role in Christian Scripture and the Christian odyssey of an emancipated people The Triple Package Amy Chua, Jed Rubenfeld, 2014-02-04 That certain groups do much better in America than others as measured by income occupational status test scores and so on is difficult to talk about In large part this is because the topic feels racially charged The irony is that the facts actually debunk racial stereotypes There are black and Hispanic subgroups in the United States far outperforming many white and Asian subgroups Moreover there is a demonstrable arc to group success in immigrant groups it typically dissipates by the third generation puncturing the notion of innate group differences and undermining the whole concept of model minorities Mormons have recently risen to astonishing business success Cubans in Miami climbed from poverty to prosperity in a generation Nigerians earn doctorates at stunningly high rates Indian and Chinese Americans have much higher incomes than other Americans Jews may have the highest of all Why do some groups rise Drawing on groundbreaking original research and startling statistics The Triple Package uncovers the secret to their success A superiority complex insecurity impulse control these are the elements of the Triple Package the rare and potent cultural constellation that drives disproportionate group success The Triple Package is open to anyone America itself was once a Triple Package culture It's been losing that edge for a long time now Even as headlines proclaim the death of upward mobility in America the truth is that the old fashioned American Dream is very much alive but some groups have a cultural edge which enables them to take advantage of opportunity far more than others Americans are taught that everyone is equal that no group is superior to another But remarkably all of America's most successful groups believe even if they don't say so aloud that they're exceptional chosen superior in some way Americans are taught that self esteem feeling good about yourself is the key to a successful life But in all of America's most successful groups people tend to feel insecure inadequate that they have to prove themselves America today spreads a message of immediate gratification living for the moment But all of America's most successful groups cultivate heightened discipline and impulse control But the Triple Package has a dark underside too Each of its elements carries distinctive pathologies when taken to an extreme they can have truly toxic effects Should people strive for the Triple Package Should America Ultimately the authors conclude that the Triple Package is a ladder that should be climbed and then kicked away drawing on its power but breaking free from its constraints Provocative and profound The Triple Package will transform the way we think about

success and achievement *Diversity and Philanthropy at African American Museums* Patricia A. Banks, 2019-04-30

Diversity and Philanthropy at African American Museums is the first scholarly book to analyze contemporary African American museums from a multifaceted perspective. While it puts a spotlight on the issues and challenges related to racial politics that black museums collectively face in the 21st century, it also shines a light on how they intersect with corporate culture, youth culture, and the broader cultural world. Turning the lens to philanthropy in the contemporary era, Banks throws light on the establishment side of African American museums and demonstrates how this contrasts with their grassroots foundations. Drawing on over 80 in-depth interviews with trustees and other supporters of African American museums across the United States, this book offers an inside look at the world of cultural philanthropy. While patrons are bound together by being among the distinct group of cultural philanthropists who support black museums, the motivations and meanings underlying their giving depart in both subtle and considerable ways depending on race and ethnicity, profession, generation, and lifestyle. Revealing not only why black museums matter in the eyes of supporters, the book also complicates the conventional view that social class drives giving to cultural nonprofits. It also paints a vivid portrait of how diversity colors cultural philanthropy and philanthropy more broadly in the 21st century. *Diversity and Philanthropy at African American Museums* will be a valuable resource for scholars and practitioners engaged with African American heritage. It will also offer important insights for academics as well as cultural administrators, nonprofit leaders, and fundraisers who are concerned with philanthropy and diversity.

The World of Jim Crow America Steven A. Reich, 2019-06-24

This two-volume set is a thematically arranged encyclopedia covering the social, political, and material culture of America during the Jim Crow Era. What was daily life really like for ordinary African American people in Jim Crow America, the hundred-year period of enforced legal segregation that began immediately after the Civil War and continued until the passage of the Civil Rights Act of 1964 and Voting Rights Act of 1965? What did they eat, wear, believe, and think? How did they raise their children? How did they interact with government? What did they value? What did they do for fun? This *Daily Life* encyclopedia explores the lives of average people through the examination of social, cultural, and material history. Supported by the most current research, the multivolume set examines social history topics including family, political, religious, and economic life as it illuminates elements of a society's emotional life, interactions, opinions, views, beliefs, intimate relationships, and connections between individuals and the greater world. It is broken up into topical sections, each dealing with a different aspect of cultural life. Each section opens with an introductory essay followed by A-Z entries on various aspects of that topic.
