Do Rüdiger Bittner, 2023 Rüdiger Bittner argues that the aim of thinking about what to do of practical reason is to find not what we ought to do but what it is good to do under the circumstances Neither under prudence nor under morality are there things we ought to do There is no warrant for the idea of our being required by natural law or by our rationality to do either what helps us attain our ends or what is right for moral reasons While common moral understanding is committed to there being things we ought to do and to our being guilty and deserving blame if we fail to do them we can lay aside these notions without loss indeed with benefit The volume also explains what it is for something to be good to do under the circumstances and argues for understanding practical reason in these terms What is good to do we find by experience what we go through teaches us what helps and what hinders and helps us figure out what is prudentially useful and what is morally right to do although ultimately this difference itself gives way and morality turns out to be a part of prudence **As Good as the First Time** K.M. Aladdin Industries, Incorporated, 1941 **The Art of Doing Good** Joanna Handlin Smith, 2009-03-11 An unprecedented passion for saving lives swept through late Ming society giving rise to charitable institutions that transcended family class and religious boundaries Analyzing lecture transcripts administrative guidelines didactic tales and diaries Joanna Handlin Smith abandons the facile explanation that charity was a response to poverty and social unrest and examines the social and economic changes that stimulated the fervor for doing good With an eye for telling details and a finesse in weaving the voices of her subjects into her narrative Smith brings to life the hard choices that five men faced when deciding whom to help how to organize charitable distributions and how to balance their communities needs against the interests of family and self She thus shifts attention from tired questions about whether the Chinese had a tradition of charity they did to analyzing the nature of charity itself Skillfully organized and engaging The Art of Doing Good moves from discussions about moral

leadership and beliefs to scrutiny of the daily operation of soup kitchens and medical dispensaries and from examining local society to generalizing about the just use of resources and the role of social networks in charitable giving Smith's work will transform our thinking about the boundaries between social classes in late imperial China and about charity in general
