Out of the Blue Mary Terhune, 2015-11-17 In this fascinating book Mary Terhune shares her personal journey of spiritual awakening mystical encounters and visions as well as the universal truths revealed to her in the process During a life crisis she spontaneously received revelations from Jesus that transformed her conscious awareness changing her life forever A profound experience of self realization brought her the message that divinity is humankind's natural state one we need to reclaim She then had an encounter during meditation that showed her beyond any shadow of doubt that birth and dying are actually illusions Mary went on to have an amazing introduction to homeopathy which expanded her training as a registered nurse into a different understanding and approach to disease prevention curing and healing Mary urges us all to become mindful of our omniscient essence and embrace paradigm shifts in preventive and curative medicine as we awaken to consciousness as the primary force of life Out of the Blue inspires every reader to live as an awakened being and a knowledgeable master of one's own destiny and well being

**Living an Inspired Life** Dr. Wayne W. Dyer, 2016-03-01 What I'm offering in this book is the awareness that we can return to a full time position of inspiration which is the true meaning of our life Dr Wayne W Dyer There's a voice in the Universe entreating us to remember our purpose our reason for being here now in this world of impermanence The voice whispers shouts and sings to us that this experience of being in form in space and time has meaning That voice belongs to inspiration which is within each and every one of us The feelings of emptiness the idea that there must be something more wondering Is this all there is and trying to determine the meaning of life this is all evidence of a yearning to reconnect with our soul space We're aching for our calling to be felt and expressed In Living an Inspired Life previously published under the title Inspiration Dr Wayne W Dyer explains how we've chosen to enter this world of particles and form From our place of origin in ways that we don't readily comprehend now we knew what we were coming here to accomplish and we participated in setting this life process in motion So why not think along these same lines Why put the responsibility or blame on any one or any thing that's not a part of us On Earth we have the capacity of volition we can choose so let's assume that we had the same capacity when we resided in the spiritual realm We chose our physical body and we chose the parents we needed for the trip It doesn't seem too great a stretch to move into the idea that we chose this life in concert with our Source Inspiration can be cultivated and be a driving force throughout life rather than showing up every now and then and just as mysteriously disappearing seemingly independent of our desires Inspiration is for everyone It isn't reserved for high profile creative geniuses in the arts and sciences it's inherent in our Divine birthright The problem is that as children we're gradually taught to believe exclusively in the world of phenomena where ego is dominant and inspiration diminished As you read each chapter in this book you'll find specific suggestions for living in Spirit From a very personal viewpoint Wayne offers a blueprint through the world of
