## **Out There In The Wild In A Wired Age:**

**Out There** Ted Kerasote, 2004 WINNER 2004 NATIONAL OUTDOOR BOOK AWARD Outdoor Literature Who hasn't wanted to get away from cell phones e mail roads and traffic And what better place to escape our wired world than the far northwestern corner of Canadas Northwest Territories and a river that flows through uninhabited country 400 miles to the Arctic Ocean But what if your canoeing partner brings along a satellite phone to use in case of an emergency And struck by the novelty of anywhere on earth communication he proceeds to use the phone to check in with his law office his wife kids sisters father and friends Noted wilderness traveler and author Ted Kerasote deals with just such a situation as he journeys along the Horton River through the largest ice free roadless area left on Earth a stunning wilderness of grizzly bears caribou and migrating birds Between navigating rapids slipping around musk ox and grizzlies and being pinned down by Arctic storms the two friends prod each other into a finer understanding of love marriage parenting and the meaning of solitude in an increasingly wired world Contrasting his own experiences with those of the regions earliest explorers Sir John Franklin and Vilhjalmur Stefansson Kerasote provides a compelling and humorous take on how travelers from any age adjust to being away from their civilizations and how getting out there has inevitably changed but has also remained the same especially if you shut off the phone

Wild Games Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of *Wild Games* a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don't see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket

[Listening to Cougar](#) Cara Blessley Lowe, Marc Bekoff, 2018-07-09. Awe! It's the overwhelming emotion 20 authors express for the cougar or mountain lion or panther or puma in this beautiful literary anthology. The Durango Herald Foreword by Jane Goodall. This spellbinding tribute to Puma concolor honors the big cat's presence on the land and in our psyches. In some essays, the puma appears front and center: a lion leaps over Rick Bass's feet, hurtles off a cliff in front of J. Frank Dobie, gazes at Julia Corbett when she opens her eyes after an outdoor meditation, emerges from the fog close enough for poet Gary Gildner to touch. Marc Bekoff opens his car door for a dog that turns out to be a lion. Other works evoke lions indirectly. Biologists describe aspects of cougar ecology, such as its rugged habitat and how males struggle to claim territory. Conservationists relate the political history of America's greatest cat. Short stories and essays consider lions' significance to people, reflecting on accidental encounters, dreams, Navajo beliefs, guided hunts, and how vital mountain lions are to people as symbols of power and wildness. Contributors include Rick Bass, Marc Bekoff, Janay Brun, Julia B. Corbett, Deanna Dawn, J. Frank Dobie, Suzanne Duarte, Steve Edwards, Joan Fox, Gary
