

Research Proposal Format Example

Following is a general outline of the material that should be included in your project proposal.

- I. Title Page
- II. Introduction and Literature Review (Chapters 2 and 3)
 - A. Identification of specific problem area (e.g., what is it, why it is important).
 - B. Prevalence, scope of problem.
 - C. An overview of what we know (literature review). What has previous research found out about the problem? What methods and samples did they use? What are your main variables of interest and what do we know about them from previous research (include conceptual definitions of terms)? Add critiques of other research (i.e., strengths and weaknesses of previous research).
 - D. An overview of what we don't know (i.e., gap/gaps in the literature that you plan to address in your project).
 - E. Statement of the purpose of your study and research question(s). Relate these to the gap in the literature you are addressing. Include hypotheses, if applicable.

Note: Be sure to organize and use subheadings as well as integrate the literature in a way that tells your story.

- III. Methodology
 - A. Design (Chapters 4, 5, and 6)
 - 1. Will this be a qualitative, quantitative, or mixed? What is your rationale?
 - 2. What type of specific design will be used? What is your rationale?
 - 3. What specific research methods will be used (e.g., control group, comparison group, survey, interviews, etc.)? What is your rationale?
 - B. Sample and Procedures (Chapter 7)
 - 1. Describe your study population and proposed sample (expected size, demographics, etc.)
 - 2. How will the sample be selected? Once they are selected what procedures will they follow as they participate in your study.

Project Management for Archaeology Rodrigo Vilanova, Timothy J.

Kloppenborg, Kathryn N. Wells, 2017-09-14 Archaeology the science in charge of studying ancient cultures is without a doubt one of the most alluring professions in today's academic world. It is a versatile and complex discipline requiring a lot of skill expertise from both students and specialists including the efficient management of team of coworkers, logistics, resources, etc. Project Management for Archaeology is a first approach to students and inexperienced archaeologists striving to better organize, lead and execute an archaeological project. It also offers great insight and strategies to experienced and old school researchers in order to improve efficiency, leadership and organizational skills following the most effective management techniques in the market. Presented with a flexible approach that accommodates all types of archaeological research from academic to rescue and salvage projects, Project Management for Archaeology is meant to be a practical handbook to be used all along the lifetime of any archaeological project. Enduring Enmity

Hubertus Buchstein, 2024-06-04 To date the relationship between Otto Kirchheimer and Carl Schmitt has invariably been described as friendly despite their political differences. Kirchheimer has even been attributed the role of the godfather of today's left Schmittianism. With reference to previously unknown archival materials, conversations with personal contacts and through a new reading of the theoretical works of both authors including an analysis of the Nazi vocabulary used by Schmitt, Hubertus Buchstein exposes this view as a politically motivated legend. Buchstein claims that the best way to characterize their relationship from their first meeting in Bonn in 1926 up until Kirchheimer's death in 1965 is as enduring enmity in a political, a theoretical and even a personal sense.
