Hamada, 2020-09-24 This informative book reviews the challenges of agribusiness in the Southeast Mediterranean The author focuses on sugarcane cultivation in Egypt to illustrate the impact of climate change on agribusiness and his method and findings may be helpful for other studies in other regions as well As climate change creates new risks to human populations and food security a better analysis is needed to understand this new level of uncertainty and to understand how it will impact agriculture and its relationship with economies livelihoods and development Africa emits low greenhouse gases but is hit the hardest by global warming posing a serious challenge to increasing agricultural productivity in the Southeast Mediterranean Sugarcane in Egypt is used as a local food source for international trade for the balance of payments for land and water use and as a basic product for food and fiber manufacturing Hence every aspect of the economic structure of Egypt relates to agriculture The book examines the causes and effects of climate change on agribusiness in the Southeast Mediterranean region such as its effect on prosperity and net farm incomes crop yields It considers how to promote agribusiness development in the area and the potential to alleviate poverty in rural areas It looks at the future of the sugarcane industry in Upper Egypt as a case study of agribusiness with implications that can be applied globally **The Right Skills for the Job?** Rita Almeida, Jere Behrman, David Robalino, 2012-07-13 This book revisits skills development policies and points to new directions for making training programs more effective and responsive in increasingly competitive labor market [Environmental Taxation in China and Asia-Pacific](#) Hope Ashiabor, Larry Kreiser, Julsuchada Sirisom, J E Milne, 2011 Environmental Taxation in China and Asia Pacific contains a rich collection of papers addressing issues of vital importance to policy formulation in a spectrum of environmental areas While not everyone would agree to all that is said in each of the papers the book will certainly trigger fruitful debates It is also a great source of information on environmental policy developments in major economies that will need to play an increasing role in addressing major issues such as climate change mitigation Nils Axel Braathen Principal Administrator OECD Environment Directorate Another outstanding volume on environmental taxation this time with focus on China and the Asia Pacific Legal economic and policy contributions offer great insight in the present situation and future developments in this fascinating part of the world

Kurt Deketelaere K U Leuven Belgium University of Dundee UK and University of Qatar Environmental Taxation in China and Asia Pacific contains an integrated set of detailed chapters providing insights and analysis on how fiscal policy can be used to achieve environmental sustainability Highly topical chapters include energy tax policy in China environmental fiscal reform carbon tax policy in northeast Asia and environmental taxation strategies in China Asia and Australia as well as many other relevant topics Written by distinguished environmental taxation scholars from around the world the emphasis of this book is on finding solutions to environmental problems which merit serious consideration by policy makers as well as academics in environmental law and other academic disciplines Future Bioenergy and Sustainable Land Use Renate Schubert, German

Advisory Council on Global Change, 2009-12 Because of the major opportunities and risks associated with it and the complexity of the subject bioenergy policy has in a short time become a challenging political task for regulators and planners a task that can only be accomplished through worldwide cooperation and the creation of an international framework This book's central message is that the sustainable potential of bioenergy which can be tapped all over the world should be utilized provided that threats to sustainability are avoided In particular the use of bioenergy must not endanger food security or the goals of nature conservation and climate change mitigation

Loyalty cards in the apparel industry in Germany and Spain: Is the implementation of a global marketing approach reasonable when operating both in a Southern and a Northern European country? Sarah-Mailin Janotta, 2014-02-01 Internationally operating apparel retailers are expanding throughout Europe Noordhoff et al 2004 Seock and Lin 2011 To be able to cope with the fierce competition in the apparel retail industry many retailers have implemented loyalty cards in order to keep current customers Several retailers have opted for a global marketing strategy which includes implementing loyalty cards with the same features in several countries e.g. Hunkemöller Promod Esprit This research is a comparative analysis of young adults aged between 18 and 30 from a Northern European country Germany and a Southern European country Spain The objective is to determine if there are significant differences in attitudinal and behavioural patterns as well as in preferences regarding the features of loyalty cards in the consumers of the two countries to find potential success factors for retailers In the first place international apparel retailers have to decide which marketing approach they intend to follow This may be either a standardised etic marketing approach which aims to have one overall marketing strategy for all countries or a non standardised emic marketing approach which aims to adapt the marketing strategy in every country to the local culture Trommsdorff 2009 Solomon et al 2002 Research of consumer behaviour has shown that consumers are influenced by external stimuli political economic social technological and consumer characteristics cultural social personal Foscht and Swoboda 2005 Kotler et al 2009 Marketers have to be aware of these external influences in order to develop marketing strategies that appeal to the target market's By making use of the right marketing instruments customer satisfaction and loyalty and subsequently long term profitability can be established Seock and Lin 2011 Loyal customers have been shown to be more profitable to the

company than continuously acquired new customers Reichheld and Teal 2001 In the literature the distinction between attitudinal and behavioural loyalty is widely spread and it will also be upheld in this research One instrument often used in relationship marketing is the promotional tool of loyalty cards A mann et al 2008 There are different forms of loyalty cards which differ in loyalty card type in loyalty card functions and in target groups Steffens 2010 The image and efficacy of loyalty cards are highly controversial in the literature Recent research **Social Policy and Citizenship** Adalbert

What Went Wrong George R. Tyler, 2013-07-16 Something has gone seriously wrong with the American economy The American economy has experienced considerable growth in the last 30 years But virtually none of this growth has trickled down to the average American Incomes have been flat since 1985 Inequality has grown and social mobility has dropped dramatically Equally troubling these policies have been devastating to both American productivity and our long term competitiveness Many reasons for these failures have been proposed Globalization Union greed Outsourcing But none of these explanations can address the harsh truth that many countries around the world are dramatically outperforming the U S in delivering broad middle class prosperity And this is despite the fact that these countries are more exposed than America to outsourcing and globalization and have much higher levels of union membership In *What Went Wrong* George R Tyler a veteran of the World Bank and the Treasury Department takes the reader through an objective and data rich examination of the American experience over the last 30 years He provides a fascinating comparison between the America and the

experience of the family capitalism countries Australia Austria Belgium Denmark France Germany the Netherlands and Sweden Over the last 30 years they have outperformed the U S economy by the only metric that really matters delivering better lives for their citizens The policies adopted by the family capitalist countries aren t socialist or foreign They are the same policies that made the U S economy of the 1950s and 1960s the strongest in the world What Went Wrong describes exactly what went wrong with the American economy how countries around the world have avoided these problems and what we need to do to get back on the right track

Energy Policy for Europe Knud Pedersen,Arno Behrens,Christian Egenhofer,2008 The European Union has entered a new and crucial stage in energy policy After the adoption of legally binding targets to address climate change energy security and competitiveness the 27 member states are now turning their attention to the implementation of these targets However with an unfinished internal market for gas and electricity and with member states continuing to focus on bilateral energy relationships with supplier countries the EU is still at the very beginning of a common EU energy policy This report from the CEPS Task Force on Energy Policy for Europe contributes to the debate about an emerging first generation EU energy policy It identifies those policy areas that are expected to benefit most from deeper EU integration i e where the European added value is expected to be greatest and formulates recommendations on how such integration could be achieved in practice In particular the report calls for the development of more and better energy policy indicators against which to assess member state energy policies to ensure policy coherence at the EU and member state level
