Race Rights Reparations Fernne Brennan,2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of its existence then developing the tools needed to deal with it and finally to implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The

development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination Institutional racism needs to be understood as being located in the processes and procedures of societal institutions

meeting our commitments UNESCO,2017-10-30 The second edition of the Global Education Monitoring Report GEM Report presents the latest evidence on global progress towards the education targets of the UN Sustainable Development Goals With hundreds of millions of people still not going to school and many not achieving minimum skills at school it is clear education systems are off track to achieve global goals The marginalized currently bear the most consequences but also stand to benefit the most if policy makers pay sufficient attention to their needs Faced with these challenges along with tight budgets and increased emphasis on results oriented value for money countries are searching for solutions Increased accountability often tops the list The 2017 8 GEM Report shows the entire array of approaches to accountability in education It ranges from countries unused to the concept where violations of the right to education go unchallenged to countries where accountability has become an end in itself instead of a means to inclusive equitable and high quality education and lifelong learning for all The report emphasizes that education is a shared responsibility While governments have primary responsibility all actors schools teachers parents students international organizations private sector providers civil society and the media 0 3 have a role in improving education systems The report emphasized the importance of transparency and availability of information but urges caution in how data are used It makes the case for avoiding accountability systems with a disproportionate focus on narrowly defined results and punitive sanctions In an era of multiple accountability tools the report provides clear evidence on those that are working and those that are not Back cover *Transforming our World Through Design, Diversity and Education* Gerald Craddock,Cormac Doran,Larry McNutt,Dónal Rice,2018-10-15 Good design is enabling and each and every one of us is a designer Universal Design is widely recognized an important concept that should be incorporated in all person centred policies The United Nations Convention on the Rights of Persons with Disabilities UNCRPD clearly stipulates that the most effective way of delivering on the promise of an inclusive society is through a Universal Design approach Sitting at the intersection of the fields of Higher Education and Universal Design this book presents papers delivered at the Universal Design and Higher Education in Transformation Congress UDHEIT2018 held in Dublin Ireland from 30 October to 2 November 2018 This event brings together key experts from industry education and government and non government organization sectors to share experiences and knowledge with all participants The 86 papers included here are grouped under 17 headings or themes ranging from education and digital learning through healthcare to engagement with industry and urban design Celebrating and integrating all that is good in design diversity and education this book will be a valuable resource for all those interested in the inspiring and empowering developments in both Universal Design and higher education [Biblical Foundations for the Role of Healing in Evangelization](#) Mathias D. Thelen,2017-12-07 It s almost undeniable that God is working miracles of healing in evangelization today For theologians pastors and evangelists some questions arise What is the relationship between physical healing and the message of salvation Should the church really expect God to do healings in evangelization today Father Thelen answers these questions by examining the relationship

between the preaching of the gospel and physical healing in the New Testament The gospel of Jesus Christ is not simply a message of fact it is a message of power that is often expressed through the working of deeds that serve as signs of the reality preached salvation As signs of the kingdom healings that accompany the preaching of the gospel play an indispensable role in bringing people to faith throughout the New Testament The result of this biblical study is a clarion call for the church to renew its faith in God's desire and power to confirm his word through healing As healing becomes more accepted and frequent in evangelization a Catholic biblical and theological approach to healing as it relates to evangelization an approach that can be different from its Protestant counterpart is necessary This modest book fits this need

Criminal Misconduct in Office Jeremy Horder, 2018 Democracy cannot function if the public loses faith in politicians and that faith will be lost if politicians abuse their power with impunity This book analyses the criminal offence of misconduct in office and explains how it should be used along with other measures to hold politicians to account for abuse of their position
