Our Enemies in Blue Kristian Williams, 2015-08-03 Let's begin with the basics violence is an inherent part of policing The police represent the most direct means by which the state imposes its will on the citizenry They are armed trained and authorized to use force Like the possibility of arrest the threat of violence is implicit in every police encounter Violence as well as the law is what they represent Using media reports alone the Cato Institute's last annual study listed nearly seven thousand victims of police misconduct in the United States But such stories of police brutality only scratch the surface of a national epidemic Every year tens of thousands are framed blackmailed beaten sexually assaulted or killed by cops Hundreds of millions of dollars are spent on civil judgments and settlements annually Individual lives families and communities are destroyed In this extensively revised and updated edition of his seminal study of policing in the United States Kristian Williams shows that police brutality isn't an anomaly but is built into the very meaning of law enforcement in the United States From antebellum slave patrols to today's unarmed youth being gunned down in the streets peace keepers have always used force to shape behavior repress dissent and defend the powerful *Our Enemies in Blue* is a well researched page turner that both makes historical sense of this legalized social pathology and maps out possible alternatives

justice in which we keep us safe **Pacifying the Homeland** Brendan McQuade, 2019-08-06 The United States has poured over a billion dollars into a network of interagency intelligence centers called fusion centers These centers were ostensibly set up to prevent terrorism but politicians the press and policy advocates have criticized them for failing on this account So why do these security systems persist Pacifying the Homeland travels inside the secret world of intelligence fusion looks beyond the apparent failure of fusion centers and reveals a broader shift away from mass incarceration and toward a more surveillance and police intensive system of social regulation Provided with unprecedented access to domestic intelligence centers Brendan McQuade uncovers how the institutionalization of intelligence fusion enables decarceration without fully addressing the underlying social problems at the root of mass incarceration The result is a startling analysis that contributes to the debates on surveillance mass incarceration and policing and challenges readers to see surveillance policing mass incarceration and the security state in an entirely new light **The Emerald International Handbook of Feminist Perspectives on Women's Acts of Violence** Stacy Banwell, Lynsey Black, Dawn K. Becoming Abolitionists Derecka Purnell, 2022-10-04 One of the New York Times 6 New Paperbacks to Read Now in paperback and with new material a 2021 Kirkus Best Book of the year in both Nonfiction and Current Events the book Naomi Klein called a triumph of political imagination and a tremendous gift to all movements struggling towards liberation For more than a century activists in the United States have tried to reform the police Millions of people continue to protest police violence because these solutions do not match the problem the police cannot be reformed In her critically acclaimed first book *Becoming Abolitionists* Purnell draws from her experiences as a lawyer writer and organizer initially skeptical about police abolition She saw too much sexual violence and buried too many friends to consider getting rid of police in her hometown of St Louis let alone the nation But the police were a placebo Calling them felt like something and something feels like everything when the other option seems like nothing Purnell details how multi racial social movements rooted in rebellion risk taking and revolutionary love pushed her and a generation of activists toward abolition The book travels across geography and time and offers lessons that activists have learned from Ferguson to South Africa from Reconstruction to contemporary protests against police shootings Here Purnell invites readers to envision new systems that work to address the root causes of violence *Becoming Abolitionists* shows that abolition is not solely about getting rid of police but a commitment to create and support different answers to the problem of harm in society and most excitingly an opportunity to reduce and eliminate harm in the first place *The End of Policing* Alex S. Vitale, 2021-12-07 The best selling bible of the

movement to defund the police in an updated edition Urgent provocative and timely The End of Policing will make you question most of what you have been taught to believe about crime and how to solve it James Forman Jr author of Locking Up Our Own The massive uprising that followed the police killing of George Floyd in the summer of 2020 by some estimates the largest protests in US history thrust the argument to defund the police to the forefront of international politics That case had been put persuasively a few years earlier in The End of Policing by Alex Vitale now a leading figure in the urgent public discussion over policing and racial justice The central problem Vitale demonstrates is the dramatic expansion of the police role over the last forty years Drawing on firsthand research from across the globe he shows how the implementation of alternatives to policing such as drug legalization regulation and harm reduction instead of the policing of drugs has led to reductions in crime spending and injustice This updated edition includes a new introduction that takes stock of the renewed movement to challenge police impunity and shows how we move forward evaluating protest policy and the political situation
