Birds of San Luis Obispo

Birds of SLO, 2021 Part 1, is a slide show featuring outstanding images of birds taken in San Luis Obispo County between January and May of last year by some of our finest nature photographers. The photos are amazing, and their impact is heightened by the live piano accompaniment provided by Oliver Glynn. Among the highlights will be some heartwarming baby pictures of Great Horned Owls, Pied-billed Grebes, American Kestrels, and a few from the Heron rookery in Morro Bay. And, yes, more dancing grebes. Also featured will be the elusive Streak-backed Oriole, another first for the Birds of SLO series. If you enjoy birds and birding, beginner or expert, you'll enjoy the presentation. *by Wendy McKeown.*

101 Hikes in Northern California Matt Heid, 2015-05-18 101 Hikes in Northern California by Matt Heid benefits readers by narrowing down the nearly infinite options for hiking in Northern California to the very best of the best adventures. It is distinct from other similar guidebooks in that it covers the northern two-thirds of the state, including nearly the entirety of the Sierra Nevada south to Kings Canyon National Park and the entire Big Sur region along the coast south to Silver Peak Wilderness. It also provides significant geographic diversity; hikes are spread out across the entire region. No matter where you are in northern California, you can find a hike in the book within a short drive. The guide is unique in the amount of natural history information it provides, especially the geologic stories of the featured destinations. It provides not just the essential directions for completing a hike; it enhances the experience by telling the story of how the landscape came to be the way it is. Discover Nature at the Seashore Elizabeth P. Lawlor, 1992 Introduces the three types of seashore and the creatures and features of each. Presents related experiments.
