*Monsters by Trade* Lisa Surwillo, 2014-06-11 Transatlantic studies have begun to explore the lasting influence of Spain on its former colonies and the surviving ties between the American nations and Spain In *Monsters by Trade* Lisa Surwillo takes a different approach explaining how modern Spain was literally made by its Cuban colony Long after the transatlantic slave trade had been abolished Spain continued to smuggle thousands of Africans annually to Cuba to work the sugar plantations Nearly a third of the royal income came from Cuban sugar and these profits underwrote Spain's modernization even as they damaged its international standing Surwillo analyzes a sampling of nineteenth century Spanish literary works that reflected metropolitan fears of the hold that slave traders and the slave economy more generally had over the political cultural and financial networks of power She also examines how the nineteenth century empire and the role of the slave trader are commemorated in contemporary tourism and literature in various regions in Northern Spain This is the first book to demonstrate the centrality of not just Cuba but the illicit transatlantic slave trade to the cultural life of modern Spain

**Cultural Heritage and Slavery** Stephan Conermann, Claudia Rauhut, Ulrike Schmieder, Michael Zeuske, 2023-11-20 In the recent cultural heritage boom community based and national identity projects are intertwined with interest in cultural tourism and sites of the memory of enslavement Questions of historical guilt and present responsibility have become a source of social conflict particularly in multicultural societies with an enslaving past This became apparent in the context of the Black Lives Matter movement in 2020 when statues of enslavers and colonizers were toppled controversial debates about streets and places named after them re ignited and the European Union apologized for slavery after the racist murder of George Floyd Related debates focus on museums on artworks acquired unjustly in societies under colonial rule the question of whether and how museums should narrate the hidden past of enslavement and

colonialism including their own colonial origins with respect to narratives about presumed European supremacy and the need to establish new monuments for the enslaved their resistance and abolitionists of African descent In this volume we address this dissonant cultural heritage in Europe with a strong focus on the tangible remains of enslavement in the Atlantic space in the continent This may concern for instance the residences of royal noble and bourgeois enslavers charitable and cultural institutions universities banks and insurance companies financed by the traders and owners of enslaved Africans merchants who dealt in sugar coffee and cotton and the owners of factories who profited from exports to the African and Caribbean markets related to Atlantic slavery

*The Atlantic and Africa* Dale W. Tomich, Paul E. Lovejoy, 2021-08-01 *The Atlantic and Africa* breaks new ground by exploring the connections between two bodies of scholarship that have developed separately from one another On the one hand the second slavery perspective that has reinterpreted the relation of Atlantic slavery and capitalism by emphasizing the extraordinary expansion of new frontiers of slave commodity production and their role in the economic social and political transformations of the nineteenth century world economy On the other hand Africanist scholarship that has established the importance of slavery and slave trading in Africa to the political economic and social organization of African societies during the nineteenth century Taken together these two movements enable us to delineate the processes forming the capitalist world economy establish its specific geographical and historical structure and reintegrates Africa into the transformations in the world economy This volume explores this paradigm at diverse levels ranging from state formation and the reorganization of world markets to the creation of new social roles and identities

**Masculine Figures** Nicholas Wolters, 2023-01-25 Based on years of archival research in Madrid and Barcelona this interdisciplinary study offers a fresh approach to understanding how men visualized themselves and their place in a nation that struggled to modernize after nearly a century of civil war colonial entanglement and imperial loss *Masculine Figures* is the first study to provide a comprehensive overview of competing models of masculinity in nineteenth century Spain and it is particularly novel in its treatment of Catalan texts and previously unstudied evidence e g department store catalogs commercial advertisements fashion plates and men s tailoring journals Fictional masculinity performs a symbolic role in representing and negotiating the contradictions male novelists often encountered in their attempts to professionalize not only as writers but also as businessmen professors lawyers and politicians Through specific and recurring figures like the student the priest the businessman and the heir male novelists portray and represent an increasingly middle class world at odds with the values and virtues it inherited from an imperial Spanish past and those it imported from more industrialized nations like England and France The visual culture of the time and place marks the material turn in middle class masculinity and sets the stage for discussions of race and sexuality

**Women on War in Spain's Long Nineteenth Century** Christine Arkininstall, 2022-12-01 The ways in which women have historically authorized themselves to write on war has blurred conventionally gendered lines intertwining the personal with the political *Women on War in Spain's Long Nineteenth Century* explores through feminist lenses the cultural representations of late nineteenth and early twentieth century Spanish women s texts on war Reshaping the current knowledge and understanding of key female authors in Spain s fin de si cle this book examines works by notable writers including Rosario de Acuña Blanca de los Rios Concepción Arenal and Carmen de Burgos as they engage with the War of Independence the Third Carlist War Spain s colonial wars and World War I The selected

works foreground how women's representations of war can challenge masculine conceptualizations of public and domestic spheres Christine Arkininstall analyses the works overarching themes and symbols such as honour blood the Virgin and the Mother and the intersecting sexual social and racial contracts In doing so Arkininstall highlights how these texts imagine outcomes that deviate from established norms of femininity offer new models to Spanish women and interrogate the militaristic foundations of patriarchal societies *Cuban Literature in the Age of Black Insurrection* Matthew Pettway, 2019-12-30 Juan Francisco Manzano and Gabriel de la Concepción Valdés Plácido were perhaps the most important and innovative Cuban writers of African descent during the Spanish colonial era Both nineteenth century authors used Catholicism as a symbolic language for African inspired spirituality Likewise Plácido and Manzano subverted the popular imagery of neoclassicism and Romanticism in order to envision black freedom in the tradition of the Haitian Revolution Plácido and Manzano envisioned emancipation through the lens of African spirituality a transformative moment in the history of Cuban letters Matthew Pettway examines how the portrayal of African ideas of spirit and cosmos in otherwise conventional texts recur throughout early Cuban literature and became the basis for Manzano and Plácido's antislavery philosophy The portrayal of African Atlantic religious ideas spurned the elite rationale that literature ought to be a barometer of highbrow cultural progress Cuban debates about freedom and selfhood were never the exclusive domain of the white Creole elite Pettway's emphasis on African inspired spirituality as a source of knowledge and a means to sacred authority for black Cuban writers deepens our understanding of Manzano and Plácido not as mere imitators but as aesthetic and political pioneers As Pettway suggests black Latin American authors did not abandon their African religious heritage to assimilate wholesale to the Catholic Church By recognizing the wisdom of African ancestors they procured power in the struggle for black liberation

*Riot and Rebellion in Mexico* Ana Sabau, 2022-02-08 Many scholars assert that Mexico's complex racial hierarchy inherited from Spanish colonialism became obsolete by the turn of the nineteenth century as class-based distinctions became more prominent and a largely mestizo population emerged. But the residues of the colonial caste system did not simply dissolve after Mexico gained independence. Rather, Ana Sabau argues, ever-present fears of racial uprising among elites and authorities led to persistent governmental techniques and ideologies designed to separate and control people based on their perceived racial status as well as to the implementation of projects for development in fringe areas of the country. *Riot and Rebellion in Mexico* traces this race-based narrative through three historical flashpoints: the Bajío riots, the Haitian Revolution, and the Yucatán's caste war. Sabau shows how rebellions were treated as racially motivated events rather than political acts and how the racialization of popular and indigenous sectors coincided with the construction of whiteness in Mexico. Drawing on diverse primary sources, Sabau demonstrates how the race war paradigm was mobilized in foreign and domestic affairs and reveals the foundations of a racial state and racially stratified society that persist today. **Slavery, Mobility, and**

**Networks in Nineteenth-Century Cuba** Daylet Domínguez, Victor Goldgel Carballo, 2023-09-06 With a focus on nineteenth-century Cuba, this volume examines understudied forms of mobility and networks that emerged during Second Slavery. After being forcibly taken across the Atlantic, enslaved Africans were moved within Cuba and sometimes sold to owners in other Caribbean islands or the U.S. South. The chapters included in this book, written by historians and literary critics, pay special attention to debates between abolitionists and proslavery ideologues, the ways in which people and ideas moved from the countryside to the city, from one Caribbean island to the next, and from the United States or the coasts of West Africa to the sugarcane fields. They examine how enslaved persons ran away or were captured and coerced to relocate, how they mobilized information and ideas to ameliorate their situation, and how they were used to advance other people's interests. Movement, these chapters show, was regularly deployed to reinforce enslavement and the suppression of rights while at times helping people in their struggle for freedom. This book will be a great resource for academics, researchers, and advanced students of Latin American Literature, Global Slavery, and Postcolonial Studies. The chapters were originally published in the journal *Atlantic Studies: Global Currents*. **Spain in the nineteenth century** Andrew Ginger, Geraldine Lawless, 2018-05-10

How did it happen? What did the process of the end of empire look like? *Empire's End* considers the nation's imperial legacy beyond this period all the way up to the present moment. In addition to scrutinizing the political, economic, and social implications of

this end these chapters emphasize the cultural impact of this process through an analysis of a wide range of representations literature literary histories periodical publications scientific texts national symbols museums architectural monuments and tourist routes that formed the basis of transnational connections and exchange The book breaks new ground by addressing the ramifications of Spain's imperial project in relation to its former colonies not only in Spanish America but also in North Africa and the Philippines thus generating new insights into the circuits of cultural exchange that link these four geographical areas that are rarely considered together *Empire's End* showcases the work of scholars of literature cultural studies and history centering on four interrelated issues crucial to understanding the end of the Spanish empire the mappings of the Hispanic Atlantic race human rights and the legacies of empire
