K. Schonberg

Monsters To Destroy The Neoconservative War On Terror And Sin:

Monsters to Destroy Ira Chernus, 2007 **Monsters to Destroy** Ira Chernus, 2015-12-03 This book takes an incisive look at the stories we are told and tell ourselves about evil forces and American responses Chernus pushes beyond political rhetoric and media clichés to examine psychological mechanisms that freeze our concepts of the world Norman Solomon author *War Made Easy* How Presidents and Pundits Keep Spinning Us to Death In his new book *Monsters to Destroy The Neoconservative War on Terror and Sin* Ira Chernus tackles the question of why U S foreign policy aimed at building national security has the paradoxical effect of making the country less safe and secure His answer The war on terror is based not on realistic appraisals of the causes of conflict but rather on stories that neoconservative policymakers tell about human nature and a world divided between absolute good and absolute evil The root of the stories is these policymakers terror of the social and cultural changes that swept through U S society in the 1960s George W Bush and the neoconservatives cast the agents of change not simply as political opponents but as enemies or sinners acting with evil intent to destroy U S values and morals that is as monsters rather than human beings The war on terror transfers that plot from a domestic to a foreign stage making it more appealing even to those who reject the neoconservative agenda at home Because it does not deal with the real causes of global conflict it harms rather than helps the goal of greater national security The War on Terror and Terror of War Harry Anastasiou, 2023-04-04 In this book the author Harry Anastasiou explains previously unaddressed historical outcomes resulting from the combined impact of the September 11 2001 attacks and the United States subsequent Global War on Terror While expounding on the finer details of the decades long interaction between militant jihadism and the Global War on Terror the analysis explores two contrasting narratives that of bellicose nationalism and that of peace and democracy As central drivers in the historical evolution of America their contrasting influences shaped policy political culture and strategic approaches in both the domestic and international arenas Throughout the post 9 11 era mainstream America underwent significant cultural and political shifts away from the narrative of peace and democracy as it tilted towards bellicose nationalism Focusing primarily on the presidency of George W Bush the book explores how nationalism harmed the rule of law human rights and democracy both domestically and internationally Viewing war as a regime rather than as a means to promote democracy the author conducts a reality based demythologization of war demonstrating how costly and counterproductive it has been In this light he questions the historical efficacy of war as well as the way nationalism both generates and glorifies war *Radical Democracy and Political Theology* Jeffrey W. Robbins, 2011-04-06 Alexis de Tocqueville once wrote that the people reign over the American political world like God over the universe unwittingly casting democracy as the political instantiation of the death of God According to Jeffrey W Robbins Tocqueville s assessment remains an apt observation of modern democratic power which does not rest with a sovereign authority but operates as a diffuse social force By linking radical democratic theory to a contemporary fascination with political theology Robbins envisions the

modern experience of democracy as a social cultural and political force transforming the nature of sovereign power and political authority Robbins joins his work with Michael Hardt and Antonio Negri's radical conception of network power as well as Sheldon Wolin's notion of fugitive democracy to fashion a political theology that captures modern democracy's social and cultural torment This approach has profound implications not only for the nature of contemporary religious belief and practice but also for the reconceptualization of the proper relationship between religion and politics Challenging the modern liberal and secular assumption of a neutral public space Robbins conceives of a postsecular politics for contemporary society that inextricably links religion to the political While effectively recasting the tradition of radical theology as a political theology this book also develops a comprehensive critique of the political theology bequeathed by Carl Schmitt It marks an original and visionary achievement by the scholar the *Journal of the American Academy of Religion* hailed one of the best commentators on religion and postmodernism

Media, Myth and Terrorism D. Kelsey, 2015-04-28 *Media Myth and Terrorism* is a rigorous case study of Blitz mythology in British newspaper responses to the July 7th bombings Considering how the press politicians and the public were caught up in popular accounts of Britain's past Kelsey explores the ideological battleground that took place in the weeks following the bombings

The Iraq War Encyclopedia Thomas R. Mockaitis, 2013-08-15 This reference work is an ideal resource for anyone interested in better understanding the controversial Iraq War It treats the war in its entirety covering politics religion and history as well as military issues The Iraq War started in 2003 in a quest to rid the nation of weapons of mass destruction WMDs that were never found It lasted over 8 years during which more than 30 000 U S service members were wounded and almost 4 500 American lives lost Comprised of some 275 entries this comprehensive encyclopedia examines the war from multiple points of view Each article is written by an expert with specialized knowledge of the topic The reference covers every aspect of the Iraq War from the U S invasion Operation IRAQI FREEDOM through the rise of Al Qaeda in Iraq the surge and the U S withdrawal Other significant aspects of the conflict are addressed as well including Abu Ghraib WMDs the controversial use of private military contractors and Britain's role in the war The book also features an overview essay a causes and consequences essay maps photos a chronology and a bibliography

Monster Culture in the 21st Century Marina Levina, Diem-My T. Bui, 2013-05-23 In the past decade our rapidly changing world faced terrorism global epidemics economic and social strife new communication technologies immigration and climate change to name a few These fears and tensions reflect an evermore interconnected global environment where increased mobility of people technologies and disease have produced great social political and economical uncertainty The essays in this collection examine how monstrosity has been used to manage these rising fears and tensions Analyzing popular films and televisions shows such as *True Blood* *Twilight* *Paranormal Activity* *District 9* *Battlestar Galactica* and *Avatar* it argues that monstrous narratives of the past decade have become omnipresent specifically because they represent collective social anxieties over resisting and embracing change in the 21st century The first

comprehensive text that uses monstrosity not just as a metaphor for change but rather a necessary condition through which change is lived and experienced in the 21st century this approach introduces a different perspective toward the study of monstrosity in culture

The Dynamics of Democratization Nathan J. Brown, 2011-07-01 The explosive spread of democracy has radically transformed the international political landscape and captured the attention of academics policy makers and activists alike With interest in democratization still growing Nathan J Brown and other leading political scientists assess the current state of the field reflecting on the causes and diffusion of democracy over the past two decades The volume focuses on three issues very much at the heart of discussions about democracy today dictatorship development and diffusion The essays first explore the surprising but necessary relationship between democracy and authoritarianism they next analyze the introduction of democracy in developing countries last they examine how international factors affect the democratization process In exploring these key issues the contributors ask themselves three questions What causes a democracy to emerge and succeed Does democracy make things better Can democracy be successfully promoted In contemplating these questions *The Dynamics of Democratization* offers a frank and critical assessment of the field for students and scholars of comparative politics and the political economy of development Contributors Gregg A Brazinsky George Washington University Nathan J Brown George Washington University Kathleen Bruhn University of California at Santa Barbara Valerie J Bunce Cornell University Jos Antonio Cheibub University of Illinois at Urbana Champaign Bruce J Dickson George Washington University M Steven Fish University of California at Berkeley John Gerring Boston University Henry E Hale George Washington University Susan D Hyde Yale University Craig M Kauffman George Washington University Staffan I Lindberg University of Florida Sara Meerow University of Amsterdam James Raymond Vreeland Georgetown University Sharon L Wolchik George Washington University

God in the Corridors of Power Michael Ryan, Les Switzer, 2009-08-25 *God in the Corridors of Power* Christian Conservatives the Media and Politics in America is a comprehensive study of Christian conservative power in America s political culture how it was achieved how it is maintained and where it is going It came about in part because of an enduring influence in the school room the seminary and in the pulpit and in part because conservatives are so skilled at using commercial and non commercial media including religious media to disseminate their views to broader audiences Though their power has waxed and waned they continue to be a potent force in public policy today The authors argue that the astonishing electoral successes of Christian conservatives at all levels of national state and local government was made possible by linking political social media and religious interests with an emerging consensus about what constitutes a conservative mindset in American politics Christian conservatives unquestionably have been the most significant component in a coalition of religious conservatives traditionalist conservatives and neoconservatives that has driven the Republican Party now for almost two generations This multifaceted understanding of Christian conservative activists in religion and politics traces the impact Christian conservatives have had on American Christianity as a whole while also examining the

limitations imposed on the Christian conservative agenda by American civil religion the Constitution and case law The authors explore women s reproductive rights in the debate over contraception and abortion and gay civil rights in the debate over gay marriage and family rights The debate over intelligent design and evolution is examined in the context of the campaign to transform public school education The run up to the wars in Afghanistan and Iraq is scrutinized against the background of the declared war on terrorism While the conservative religious and secular coalition within the Republican Party began to fragment even before the end of George W Bush s first term in office it remained a powerful force in the 2004 and 2008 elections The book concludes with some thoughts about the impact of Christian conservatives in politics media and religion in the future

Terror and Territory Stuart Elden,2009 Today s global politics demands a new look at the concept of territory From so called deterritorialized terrorist organizations such as al Qaeda to U S led overthrows of existing regimes in the Middle East the relationship between territory and sovereignty is under siege Unfolding an updated understanding of the concept of territory Stuart Elden shows how the contemporary war on terror is part of a widespread challenge to the connection between the state and its territory Although the importance of territory has been disputed under globalization territorial relations have not come to an abrupt end Rather Elden argues the territory sovereignty relation is being reconfigured Traditional geopolitical analysis is transformed into a critical device for interrogating hegemonic geopolitics after the Cold War and is employed in the service of reconsidering discourses of danger that include failed states disconnection and terrorist networks Looking anew at the war on terror the development and application of U S policy the construction and demonization of rogue states events in Lebanon Somalia and Pakistan and the wars continuing in Afghanistan and Iraq *Terror and Territory* demonstrates how a critical geographical analysis informed by political theory and history can offer an urgently needed perspective on world events

U.S. Conflicts in the 21st Century Spencer C. Tucker,2015-12-14 This three volume reference work provides an up to date presentation and analysis of the U S wars of the 21st century addressing their backgrounds causes courses and consequences It serves as an indispensable resource for students seeking to understand the role of the United States in the world today Addressing the U S conflicts in Iraq Afghanistan and the Global War on Terror from the year 2001 to the present this comprehensive three volume encyclopedia covers the significant individuals key events and important places involved in these recent military events Beginning with the rise of Al Qaeda in the 1990s and the attacks on September 11 2001 and covering events through ISIS s dramatic surge in Iraq and Syria the hundreds of detailed entries also examine historical trends nations and ethnicities involved in the conflicts influential figures and organizations economic political diplomatic and cultural influences wars campaigns and battles and important weapons systems The set s A Z organization makes it an easy to use ready reference for high school and college students Perspective essays on several controversial topics such as the use of torture and the effects of the Patriot Act serve to inspire readers to apply critical thinking A detailed chronology is provided to help students place all the important events

that have occurred in the Afghanistan War Iraq War and War on Terror Each of the chronologically arranged primary documents is introduced with a brief overview to provide important background information and context *Constructing 21st Century U.S. Foreign Policy* K. Schonberg, 2009-07-06 This book argues that in the years since the 9 11 attacks socially constructed understandings of the identity of the United States and its friends and enemies have played a critical role in determining the course of U S foreign policy in particular the Bush administration s choices with regard to the war on Iraq

The Ages of the Incredible Hulk Joseph J. Darowski, 2015-11-30 The Incredible Hulk is one of the earliest Marvel Comics superheroes Through the decades the character and his narrative elements the causes of Bruce Banner s transformations the Hulk s strength intelligence and skin color the stories tone theme and sources of conflict have been continually reinvented to remain relevant This collection of new essays explores Marvel s more than five decades of Hulk comics The contributors analyze the Hulk and his supporting cast in their shifting historical contexts offering insights into both our popular entertainment and our cultural history Topics include the Cold War s influence on early Incredible Hulk issues a feminist reading of She Hulk and writer Peter David s focus on the AIDS crisis The Pathologies of Power Christopher J. Fettweis, 2013-09-30 Discusses how deeply held beliefs guide American foreign policy and identifies the foundations of those beliefs explaining how they have inspired poor strategic decisions in Washington Beware of Small States David Hirst, 2010-03-30 In this magisterial history of Lebanon from the end of Ottoman rule to the Hezbollah and Hamas wars of today acclaimed and fiercely independent Middle East journalist and historian David Hirst charts the interplay between a uniquely complex country and the broader struggles of the modern Middle East Lebanon is the battleground on which the region s greater states pursue their strategic political and ideological conflicts conflicts that sometimes escalate into full scale proxy wars Hirst warns that only serious diplomatic action from the Obama administration can prevent the next such action from engulfing the entire region **Apocalyptic Crimes** Ronald C. Kramer, 2025-03-11 In 2023 the Bulletin of the Atomic Scientists set the iconic Doomsday Clock to ninety seconds to midnight the closest to midnight or civilization ending apocalypse it has ever been Designed at the onset of the Cold War amid new fears of atomic weapons the Doomsday Clock is a symbolic countdown to annihilation Now a generation later the world is more vulnerable than ever to the nuclear weapons it sought to warn against In *Apocalyptic Crimes* Ronald C Kramer reconsiders the immense danger these weapons pose to humanity examining the use threat to use and continued possession of nuclear weapons from a criminological perspective Kramer argues that any country holding on to its nuclear arsenal including the United States is committing a criminal act Offering a sharp rebuke to the common claim that nuclear stockpiles serve to deter the escalation of conflict *Apocalyptic Crimes* emphasizes the harm caused by the mere possession of these deadly weapons It further considers the culpability of political officials acting as representatives of the state whose threatening statements about nuclear weapons contain actions or omissions that violate specific international laws But Kramer also shows how a nuclear

apocalypse might be averted and offers a pathway to disarmament Through critical analysis and a specific criminology of nuclear weapons Kramer outlines the political actions necessary to rewind the Doomsday Clock and pull the world back from the brink of destruction before the clock strikes midnight

Neoconservatism and the New American Century M. Ryan, 2010-10-25 Situated at the intersection of political history intellectual history and the history of U S foreign policy this book offers an in depth examination of the development of neoconservative foreign policy from the end of the Cold War to the election of George W Bush in 2000

Lessons from Iraq Miriam Pemberton, William D. Hartung, 2015-12-03 If what is shaping up to be the worst foreign policy disaster in U S history has an upside it is that the current war in Iraq should definitively permanently settle a handful of critical questions about American conduct in the world This book provides a list of those questions and even ventures some answers in the form of key lessons from Iraq The idea of assembling lessons as tools for avoiding the next war is less of a stretch than it seems given the group of writers represented here They include a Nobel Prize winning economist the former chief UN weapons inspector and an Iraqi American whose weekly conversations with his relatives have given him a grim education on what living through a war to spread democracy is like on the ground Also here is a Pulitzer Prize and National Book Award winner who traces the recurring American bad habit of starting wars as tryouts for big ideas All societies need a ready reference handbook that draws some lines around its conduct of war The Bush administration has produced a radical overhaul of the U S manual Given the Iraq experience it is urgent that we reject this version and think again This book is a manageably sized accessibly written affordable compilation of key points that most urgently need to be rethought

Routledge Handbook of Critical Criminology Walter S. DeKeseredy, Molly Dragiewicz, 2018-04-09 The main objective of the second edition of the Routledge Handbook of Critical Criminology is twofold 1 to provide original chapters that cover contemporary critical criminological theoretical offerings generated over the past five years and 2 to provide chapters on important new substantive topics that are currently being studied and theorized by progressive criminologists Special attention is devoted to new theoretical directions in the field such as southern criminology queer criminology and green criminology The diverse chapters cover not only cutting edge theories but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work In addition some of the chapters suggest innovative and realistic short and long term policy proposals that are typically ignored by mainstream criminology These progressive strategies address some of the most pressing social problems facing contemporary society today which generate much pain and suffering for socially and economically disenfranchised people The new edition of the Handbook is a major work in redefining areas within the context of international multidisciplinary critical research and in highlighting emerging areas such as human trafficking Internet pornography and image based sexual abuse It is specifically designed to be a comprehensive resource for undergraduate and postgraduate students researchers and policymakers

When Soldiers Fall Steven Casey, 2014-12 When Soldiers Fall traces the history of American combat

losses and the ways in which the government has reported casualties from WWI to the current War on Terror
