### **The Reception of Jewish Tradition in the Social**

**Imagination of the Early Christians** John M.G. Barclay, Kylie Crabbe, 2021-08-26 The contributors to this volume take as their theme the reception of Jewish traditions in early Christianity and the ways in which the meaning of these traditions changed as they were put to work in new contexts and for new social ends Special emphasis is placed on the internal variety and malleability of these traditions which underwent continual processes of change within Judaism and on reception as an active strategic and interested process All the essays in this volume seek to bring out how acts of reception contribute to the social formation of early Christianity in its social imagination its speech and thought about itself or in its social practices or both This volume challenges static notions of tradition and passive ideas of reception stressing creativity and the significance of strong readings of tradition It thus complicates standard narratives of the parting of the ways between Christianity and Judaism showing how even claims to continuity were bound to make the same different

**West Germans and the Nazi Legacy** Caroline Sharples, 2011-12-21 This book constitutes a new history of the complex memory cultures that persisted within post war West Germany examining the attitudes of ordinary people to the second wave of Nazi war crimes trials ushered in during the 1960s It explores responses to the prospect of continuing investigations the reception afforded to the defendants and the sheer resonance that such proceedings could generate within a local community Drawing upon case studies from across the Federal Republic it bridges a gap between the current historiography and localised memory studies and analyses of war crimes trials Far from viewing the 1960s as an uncomplicated decade of change this book emphasises the range of voices that were competing to make themselves heard during this period whether they came from survivors groups crusading journalists and students or from former prisoners of war veterans organisations and the war widowed This diversity of opinion and experience enabled the persistence of silences distortions and mythologies that could afford some level of distance to be imposed between the perpetrators of the Nazi genocide and the ordinary West German population The process of coming to terms with the past was thus complicated and protracted

P l cs discusses various aspects of the cultural and literary history of Hungary during the hundred years that followed the Battle of Moh cs 1526 and the onset of the Reformation The author focuses on the special Ottoman context of the Hungarian Reformation movements including the Protestant and Catholic Reformation and the spiritual reform of Erasmian intellectuals The author argues that the Ottoman presence in Hungary could mean the co existence of Ottoman bureaucrats and soldiers with the indigenous population He explores the culture of occupied areas the fascinating ways Christians came to terms with Muslim authorities and the co existence of Muslims and Christians cs treats not only the culture of the Reformation in an Ottoman context but also vice versa the Ottomans in a Protestant framework As the studies show the culture of the early modern Hungarian Reformation is extremely manifold and multi layered Historical documents such as theological political and literary works and pieces of art formed an interpretive unified whole in the self representation of the era Two interlinked and unifying ideas define this diversity on the one hand the idea of European ness i e the idea of strong ties to a Christian Europe and on the other the concept of Reformation itself Despite its constant ideological fragmentation the Reformation sought universalism in all its branches As cs shows it was re formatio in the original sense of the word i e restoration an attempt to restore a bygone perfection imagined to be ideal      **The Apocalypse in the Middle Ages** Richard Kenneth Emmerson,Bernard McGinn,1992 An innovative overview of the influence of the Apocalypse on the shaping of the Christian culture of the Middle Ages      **Hebrew in the Church** Pinchas E. Lapide,1984-12 This is a print on demand book and is therefore non returnable This book represents the only comprehensive attempt made thus far to survey all the efforts among Christians and Jews from New Testament times onward to translate the New Testament and the Christian liturgy into Hebrew Whether the translators were intended to convert the Jews or to equip them with information necessary for the discussion of religion with Christians they served to promote conversation and overcome divisions The author s intimate knowledge of not only Biblical but also Michnaic and Modern Hebrew has enabled him to appreciate the various efforts at translation with acute sensitivity Thus the book is virtually a catalog of successes and failures in mutual understanding More than the mere data of history Hebrew in the Church is a penetrating contribution to the entire history of Jewish Christian relations It sheds fresh light on history itself and it suggests important implications for anyone concerned with the exegesis of the New Testament This unprecedented volume should receive the serious attention not only of specialists but of all who work for a new understanding between Christians and Jews      **Divine Diagrams** Berthold Kress,2014-05-12 After the Reformation the successful painter Paul Lautensack 1477 78 1558 dedicated himself to spreading revelations on the nature of God Lautensack was besides D rer the only German artist who wrote against the iconoclasts and he believed that he as a painter could explain the images of Revelation better than theologians like Luther He presented his insights in hundreds of highly sophisticated diagrams that display a wide range of material accessible to an urban craftsman from the vernacular
