

Advance Praise for
MOONWALKING WITH EINSTEIN

"You have to love a writer who employs chick sexing to help explain human memory. Foer is a charmer, a crackling mind, a fresh wind. He approaches a complex topic with so much humanity, humor, and originality that you don't realize how much you're taking in and understanding. It's kind of miraculous."

—**MARY ROACH**, author of *Packing for Mars*, *Boink*, *Spook*, and *Stiff*

"In this marvelous book, Joshua Foer invents a new genre of nonfiction. This is a work of science journalism wrapped around an adventure story, a bildungsroman fused to a vivid investigation of human memory. If you want to understand how we remember, and how we can all learn to remember better, then read this book."

—**JONAH LEHRER**, author of *How We Decide* and *Proust Was a Neuroscientist*; contributing editor, *Wired*

"Joshua Foer proves what few of us are willing to get our heads around: there's more room in our brains than we ever imagined. *Moonwalking with Einstein* isn't a how-to guide to remembering a name or where you put your keys. It's a riveting exploration of humankind's centuries-old obsession with memory, and one man's improbable quest to master his own."

—**STEFAN FATSIS**, author of *A Few Seconds of Panic* and *Word Freak*

Aging Wisely Robert A. Levine, 2014-07-17 Everyone ages Not everyone ages well Aging Wisely explains that much of what happens to our minds and bodies as we grow older depends on our approach to life and our attitudes and feelings about ourselves Though there are elements beyond our control we must take advantage of those things we can control while dealing competently with adversity In describing the impact of aging and various conditions associated with the aging process upon our minds and bodies Aging Wisely provides readers with the knowledge needed to fight back and maximize their relevance and independence It emphasizes the importance of maintaining the quality of our lives in addition to longevity for survival alone does not matter if the quality of survival is poor To age successfully we must find satisfaction and pleasure in what we do in the time available to us Here Robert A Levine explores how attitudes about aging and quality of life can affect the process of aging He suggests that maintaining a good attitude is a key element to aging well reminding readers that aside from illnesses and random events we are in control of our lives Through personal accounts and real stories from mid lifers and older people the various issues associated with the aging process are addressed in an easy to follow way to allow people to understand the choices they have and the decisions they may have to make when faced with common diseases of aging Levine devotes chapters to discussing the various illnesses that people can face in their older years and strategies for leading fulfilling lives while reducing their risk of physical and cognitive decline He considers ageism and its impact on society and he discusses how advances in science and technology will affect how people age in the future Levine offers helpful consideration of aging for readers who are preparing themselves for what lies ahead allowing them to then confront aging with the advantage of being ready
