## **Morality Of The Heart A Psychology For The Christian Moral Life:**

**Morality of the Heart** Charles M. Shelton, 1997 Using developmental psychological theory from Lawrence Kohlberg's theory of moral development Norma Hann's emphasis on the role of emotion and defense mechanisms in self-perceptions related to morality and Carol Gilligan's theory of sexual differences in ethics as well as Martin Hoffman's theory of empathic development Shelton constructs a moral theory rooted in the human capacity for empathy He considers how empathy is developed how emotions may be developed and how persons become blind to their own immorality ending with a brief caution about the limits of empathy Recommended for all libraries but especially for public and seminary libraries

**The Psychology of Gratitude** Robert A. Emmons, Michael E. McCullough, 2004-02-26 Gratitude like other positive emotions has inspired many theological and philosophical writings but it has inspired very little vigorous empirical research In an effort to remedy this oversight this volume brings together prominent scientists from various disciplines to examine what has become known as the most neglected emotion The volume begins with the historical philosophical and theoretical foundations of gratitude then presents the current research perspectives from social personality and developmental psychology as well as from primatology anthropology and biology The volume also includes a comprehensive annotated bibliography of research on gratitude This work contributes a great deal to the growing positive psychology initiative and to the scientific investigation of positive human emotions It will be an invaluable resource for researchers and students in social personality and developmental clinical and health psychology as well as to sociologists and cultural anthropologists

Ciochi, 2015-01-26 While there is a unity to truth from God's perspective there are nevertheless many different ways of knowing studying and defining that truth Thus the task of integration is the task of relating theology and other disciplines in such a way that one articulates and defends a comprehensive unified Christian worldview *Christian Perspectives on Being Human* is a vital step in that essential process of integration In this unique anthology colleagues from various departments at Biola University undertake an important multidisciplinary approach to integration J P Moreland and David Ciochi represent philosophy in this discussion Robert Saucy theology Sherwood Lingenfelter anthropology Nancy Duvall and Keith Edwards psychology Walt Russell and Scott Rae New Testament and medical ethics and Klaus Issler Christian education     Spirituality and Moral Theology James Keating, 2000 A collection of essays by leading moral theologians on the topic of how being good is related to being holy in the context of pastoral life     **The Bible in Ethics** John W. Rogerson, Mark Daniel Carroll R., Margaret Davies, 1995-12-01 The Bible has influenced contemporary culture both positively and negatively The present volume is a collection of papers that were discussed at an international colloquium on the use of the Bible in Ethics in the Department of Biblical Studies at the University of Sheffield in April 1995 Participants came from many parts of the world and from different backgrounds and the papers reflect their varied interests and the contexts in which they work The contributors in addition to the three editors are John Barton Bruce Birch Mark Brett Mark Chapman David Clines Philip Davies Cheryl Exum Stephen Fowl Norman Gottwald John Haldane Walter Houston Sharon Ringe Christopher Rowland Lisa Sowle Cahill and Gerald West     *A Sacred Voice is Calling* Neafsey, John , 2014-04-24     *The Way of Goodness and Holiness* Richard M . Ethics at the Heart of Higher Education C. R. Crespo, Rita Kirk, 2020-08-26 Today's college students have more knowledge available to them than can be absorbed mastery of a subject area creates siloes where nearly every course is tailored to comprehending subject matter that may be outdated before they graduate But learning is more than subject

matter expertise Our fast paced environment requires instantaneous reactions to complex questions Our instant messaging age champions quick response over reflection or thought even the president governs by Twitter Yet the ethical dilemmas are no less complex than the subject matter cyber security prison reform labor rights abortion artificial intelligence or gun laws are common table topics over lunch Struggling through that complexity is central to understanding its implications for our culture This book brings together some of the leading ethicists in the country to consider the rightful place of ethics in the university today The authors make the case that higher education has a special duty to empower students to cultivate their character ethically assess situations and prepare them for an increasingly complex world With contributions from Mary Camp Alexander Cole Charles E Curran Robert J Howell D Stephen Long Robin Lovin Richard O Mason William F May Thomas Wm Mayo John Sadler     **Just Ministry** Richard M. Gula,2010 At a time when concerns for misconduct abuse scandals and liability have brought pastoral ministers under greater scrutiny than ever before and have threatened to undermine their morale Just Ministry offers a positive perspective on the vocation of pastoral ministry and wise ethical guidance to foster integrity in ministry     **Rewired** Paul N. Markham,2007-07-01 Rewired begins with the claim that contemporary views of Christian spirituality particularly in the American evangelical tradition concentrate too exclusively on the interior and individual nature of spiritual experience Paul Markham argues that a reexamination of the doctrine of religious conversion is needed within American evangelicalism and finds resources for such a model in the Wesleyan theological tradition and from philosophical and scientific insights into a nonreductive physicalist view of human nature In considering data from theology and science this book represents an integrated work in science and religion     **Values in Philippine Culture and Education** Manuel B. Dy,1994     **Transforming Self and Community** Len Sperry,2002 Offers a holistic approach to spiritual direction and pastoral counseling     **Ethics and Spirituality** Roy H. May Jr.,2012-09-18 Saint Paul declares Live by the Spirit Gal 5 6 This means our way of living ought to be guided by the Holy Spirit Through a series of theoretical reflections questions and directed activities this activity book will help you understand the relationship between spirituality and ethics provide you some theoretical tools and practices for doing ethics and living spiritually and encourage you to clarify your own manner of approaching ethical questions founding moral values and theological positions that undergird ethics and spirituality Your moral imagination will be stimulated Have fun     **Go and Do Likewise** William Spohn,2000-09-01 What does Jesus have to do with ethics There are two brief answers given by believers everything and not much While evangelical or fundamentalist Christians would find authoritative guidance in the words and commands of Jesus as recorded in the New Testament many mainstream Christian ethicists would say that Jesus is too concrete or narrowly particular to have any direct import for ethics In this book Williams Spohn takes a middle way showing how Jesus is the concrete universal of Christian ethics By forming a bridge from the lives of contemporary Christians to the words and deeds of Jesus Jesus story as a whole exemplifies moral perception motivation and Christian identity In addition Spohn shows how

the practices of Christian spirituality specifically prayer service and community train the imagination and reorient emotions to produce a character and a way of life consonant with Christian New Testament moral teaching      **Promise Renewed**

Martin R. Tripole,1999 Speaking candidly twenty seven noteworthy Jesuits from major areas of Jesuit higher education have contributed essays that discuss how the recent 34th General Congregation has had an impact on their scholarship and role as teachers and administrators      *Communication in Eastern Europe* Fred L. Casmir,2012-12-06 This volume represents a

clear attempt to learn something from the events in Eastern European countries It does not start with simplistic or old assumptions based on convenient Western communication models but instead takes a new approach If chaos theory could fundamentally change how physicists looked at order in the universe then it may be of value for communication scholars to attempt to understand the diversity of chaos or order in the human universe rather than attempt to force existing models on it for their own explanatory purposes This book is not merely based on the study of select groups of university students or on laboratory settings created in the minds of social scientists It seeks to understand some of the real world including the historical backgrounds and the theoretical assumptions brought to studies of intercultural conflicts Using personal and professional insights developed during firsthand contacts with existing situations chapter authors illustrate some of the realities by using the complexity of changes in Eastern European states during the final decade of the 20th century From education to business from the role of women to the role of mass media from the impact of political systems to the impact of history communication between those who are culturally diverse though they may have been arbitrarily forced to live under the same political roof is the theme of these scholarly studies The editor s reason for developing this volume of original essays is his belief that diversity rather than assumed similarity or even sameness based on the use of inadequate terminology is necessary for learning from contemporary human experiences He further believes that diversity and the significant roles of cultural values as well as of history need to become key concepts in the model with which to begin when it comes to the study of various aspects of intercultural communication It is therefore vital that scholars who represent various points of view and backgrounds contribute to that process After all understanding what is happening in the world is centrally anchored in or related to effective and successful intercultural communication between scholars who have different academic and personal backgrounds      **Spirituality and Morality** Dennis Joseph Billy,Donna L. Orsuto,1995 Spirituality and Morality

is a provocative collection of essays that examine how spirituality and moral theology interact and influence each other on a wide variety of levels The eight essays written by Catholic scholars explore the relationship between spirituality and moral theology from such important vantage points as history conversion vocation personal prayer liturgy right relationships docility to the Spirit and discipleship They deal with the issues that emerge at the interface of theology and lived Christian experience Spirituality and morality although once intimately united have developed along different paths in the Roman Catholic theological tradition Spirituality and Morality offers a significant contribution by developing a practical means for

rediscovering the living connection between two disciplines BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved     The Moral Life James F. Keenan, 2024-01-02 A profound inquiry into what prompts human beings to act morally Most foundational texts on theological ethics address either the person or society In The Moral Life James F Keenan SJ posits that these two are inextricably linked He presents eight stages of preparing for the moral life describing vulnerability as the foundation for contemporary ethics He understands vulnerability to be what establishes the human capacity for recognizing and responding to others rather than a compromised state of being Mutual recognition emerges as the first moral act of the vulnerable human He shows how conscience guides the activity of one who has first vulnerably recognized others The Moral Life offers scholars and students of Christian ethics a novel perspective on what we need to know not only to be and live morally but also to teach and share with others what they need to know
