[School Education](#) Charlotte M. Mason,2021 Originally published in 1905 this book argues that the educational outlook was rather misty and depressing both at home and abroad That science should be a staple of

education that the teaching of Latin of modern languages of mathematics must be reformed that nature and handicrafts should be pressed into service for the training of the eye and hand that boys and girls must learn to write English and therefore must know something of history and literature and on the other hand that education must be made more technical and utilitarian these and such as these are the cries of expedience with which we take the field But we have no unifying principle no definite aim in fact no philosophy of education *Home Education* Charlotte Mason, 2015-06-10 *Home Education* is a groundbreaking exploration into the art of cultivating a rich and vibrant learning environment within the confines of one's home Mason a visionary educator lays out a compelling philosophy that transcends traditional schooling methods focusing on the holistic development of a child's mind character and habits Through the lens of living books nature study and a thoughtful approach to discipline Mason offers a refreshing perspective that empowers parents to provide an education that is not only intellectually rigorous but also fosters a love for learning In this timeless work Mason provides practical insights into the daily rhythms of home education emphasizing the importance of cultivating an atmosphere of curiosity and wonder She advocates for the use of living books engaging and narrative rich texts that ignite a child's imagination and create a genuine connection to the subjects studied Additionally Mason encourages the integration of nature into the learning experience promoting outdoor exploration and observation as essential elements of a well-rounded education *Home Education* serves as a guide for parents seeking an alternative more personalized approach to education that goes beyond rote memorization and standardized testing Charlotte Mason's philosophy outlined with clarity and conviction resonates with those who aspire to nurture not only academically proficient individuals but also compassionate well-rounded human beings This book is a compelling resource for anyone looking to embark on a transformative journey in home-based learning **The Educational Times, and Journal of the College of Preceptors** ,1905 *The Journal of Education* ,1888 *Educational Times* ,1896
