Morocco From Empire To Independence Short Histories:

Morocco C.R. Pennell, 2009-01-23 Beginning with Morocco's incorporation into the Roman Empire this book charts the country's uneasy passage to the 21st century and reflects on the nation of citizens that is emerging from a diverse population of Arabs Berbers and Africans This history of Morocco provides a glimpse of an imperial world from which only the architectural treasures remain and a profound insight into the economic political and cultural influences that will shape this country's future *The Maghreb Since 1800* Knut S. Vikør, 2024-11-01 The Maghreb the region that today encompasses Morocco Algeria Tunisia and Libya is a region apart within the larger Muslim and Arab world Today the focus of popular uprisings for democracy and participation it underwent long periods of colonisation and anti colonial nationalist resistance both peaceful and militant To understand the nature of today's developments in North Africa we need fully to appreciate the tumultuous history of the region and how its four discrete countries followed different trajectories some marked by a continuity of social and political structures in both the colonial era and as independent states while others were marked by sharp ruptures and violent struggles These historical differences are still visible in the current era and tell us much about the societies in question This short history of the Maghreb surveys its development from the coming of Islam to the present day but with greatest emphasis on the modern period from the early nineteenth century onwards It follows the French protectorates Morocco and Tunisia and how their nationalist movements forged the independent states that followed and it chronicles the wars of resistance and liberation in Algeria and Libya and how these conflicts also marked their independence with a long running civil war in the former and the recent uprising against the Gaddafi regime in the latter [The Berber Identity Movement and the Challenge to North African States](#) Bruce Maddy-Weitzman, 2011-05-01 Like many indigenous groups that have endured centuries of subordination the Berber Amazigh peoples of North Africa are demanding linguistic and cultural recognition and the redressing of injustices Indeed the movement seeks nothing less than a refashioning of the identity of North African states a rewriting of their history and a fundamental change in the basis of collective life In so doing it poses a challenge to the existing political and sociocultural orders in Morocco and Algeria while serving as an important counterpoint to the oppositionist Islamist current This is the first book length study to analyze the rise of the modern ethnocultural Berber Amazigh movement in North Africa and the Berber diaspora Bruce Maddy Weitzman begins by tracing North African history from the perspective of its indigenous Berber inhabitants and their interactions with more powerful societies from Hellenic and Roman times through a millennium of Islam to the era of Western colonialism He then concentrates on the marginalization and eventual reemergence of the Berber question in independent Algeria and Morocco against a background of the growing crisis of regime legitimacy in each country His investigation illuminates many issues including the fashioning of official national narratives and policies aimed at subordinating Berbers in an Arab nationalist and Islamic centered universe the emergence of a counter movement promoting an expansive Berber imagining that emphasizes

the rights of minority groups and indigenous peoples and the international aspects of modern Berberism New Directions in African Military History Timothy J. Stapleton, 2025-06-02 *New Directions in African Military History* takes a thematic approach to the history of war and military structures in Africa and highlights the under researched areas African Military History represents a relatively new and fast growing sub field bridging the previously wide gap between the well established genres of African History and Military History Based on a synthesis of existing literature and aimed at a wide readership this book adopts a broad temporal range and uses select examples to highlight a series of points to cover the pre colonial to post colonial eras and offer examples from various parts of the continent This volume evaluates controversial academic debates examining evidence research methods approaches and changing historiographical contexts as well as pointing to potential new areas of research It comprises seven thematic chapters on ways of war weapons technology navies air power battles women combatants and genocide in African history This volume will be of value to students and scholars alike interested in Modern History Military History and African History **A Military History of Africa** Timothy J. Stapleton, 2013-10-21 A detailed and thorough chronological overview of the history of warfare and military structures in Africa covering ancient times to the present day *A Military History of Africa* achieves a daunting task it synthesizes decades of specialized academic research and literature including the most recent material to offer an accessible survey of Africa s military history from the earliest times to the present day The first volume examines the precolonial period beginning with warfare in ancient North Africa including ancient Egypt and Carthage and continues through the cavalry based Muslim empires of the trans Sahara trade and the wars of the slave trade in West and East Africa The second volume focuses on the wars of European colonial conquest and African resistance during the late 19th century African participation in both world wars and the early violent struggles for independence from the 1950s and early 1960s The third volume explores warfare in postcolonial Africa including coverage of the impact of the global Cold War conflicts in Southern Africa from the 1960s to 1980s the development of postcolonial African armed forces and civil wars sparked by the discovery of precious resources such as diamonds in Sierra Leone Readers of this three volume work will understand how warfare and military structures have been consistently central to the development of African societies *The Origins of Secular Institutions* H. Zeynep Bulutgil, 2022 An original theory and meticulous analysis of how advocates of political secularization emerged historically and why they succeeded in some contexts but not others Why do some countries adopt secular institutions while others do not In *The Origins of Secular Institutions* Zeynep Bulutgil develops a theory that combines ideational and organizational mechanisms to explain how institutional secularization occurs She first focuses on why political groups with a secularizing agenda emerge Her argument is that the circulation of Enlightenment literature among the elite and associations through which the elite could exchange ideas were the main factors that influenced the early emergence of secularizing political movements She then turns to the conditions under which these movements succeed Secularizing political groups are at a comparative

disadvantage when it comes to recruiting grassroots support because unlike religious actors they cannot rely on a pre existing institutional structure They become likely to overcome this obstacle if they have time to build a robust organization before religious political movements emerge Bulutgil supports these arguments by combining statistical analysis of original historical data with comparative analysis of countries in Europe France Spain The United Kingdom and the Middle East North Africa Turkey Morocco and Tunisia An authoritative explanation of why political secularization occurred in some countries but not others this book will reshape our understanding of an issue of unsurpassed importance for over two centuries the effects of modernity on politics

Beyond Nations John R. Chavez, 2009-06-29 Beyond Nations traces the evolution of peripheral ethnic homelands around the North Atlantic from before transoceanic contact to their current standing in the world political system For example Megumaage homeland of the Micmac is transformed into the French colony of Acadia then into the British colony of Nova Scotia and subsequently into the present Canadian province Centrally Professor Chavez tracks the role of colonialism in the transformation of such lands but especially the part played by federalism in moving beyond the ethnic and racial conflicts resulting from imperialism Significantly Chavez gives attention to the effects of these processes on the individual mind arguing that historically federalism has permitted the individual to sustain and balance varying ethnic loyalties regionally nationally and globally Beyond Nations concludes with a discussion of an evolving global imagination that takes into account migrations borderlands and transnational communities in an increasingly postcolonial and postnational world

Africa: War and Conflict in the Twentieth Century Timothy Stapleton, 2018-05-11 This book examines the causes course and consequences of warfare in twentieth century Africa a period which spanned colonial rebellions both World Wars and the decolonization process Timothy Stapleton contextualizes the essential debates and controversies surrounding African conflict in the twentieth century while providing insightful introductions to such conflicts as African rebellions against colonial regimes in the early twentieth century including the rebellion and infamous genocide of the Herero and Nama people in present day Namibia The African fronts of World War I and World War II and the involvement of colonized African peoples in these global conflicts Conflict surrounding the widespread decolonization of Africa in the 1950s and 1960s Rebellion and civil war in Africa during the Cold War when American and Soviet elements often intervened in efforts to turn African battlegrounds into Cold War proxy conflicts The Second Congo Civil War which is arguably the bloodiest conflict in any region since World War II Supported by a glossary a who's who of key figures a timeline of major events a rich bibliography and a set of documents which highlight the themes of the book Africa War and Conflict in the Twentieth Century is the best available resource for students and scholars seeking an introduction to violent conflict in recent African history

Turkey Feroz Ahmad, 2003 This insightful history of Turkey tells the story of a country caught between the ideologies of East and West

War: A Short History Jeremy Black, 2010-10-21 The definitive introductory study of war Professor Black introduces the subject in a broad manner ranging across historical time

periods and geographical boundaries A Short History of the Yugoslav Peoples Frederick Bernard Singleton,1985-03-21 This book provides a survey of the history of the South Slav peoples who came together at the end of the First World War to form the first Yugoslav kingdom **A Short History of African Philosophy, Second Edition** Barry Hallen,2009-09-03 A Short History of African Philosophy discusses major ideas figures and schools of thought in philosophy in the African context While drawing out critical issues in the formation of African philosophy Barry Hallen focuses on recent scholarship and relevant debates that have made African philosophy critical to understanding the rich and complex cultural heritage of the continent This revised edition expands the historical perspective takes account of recent discoveries and new canonical figures highlights new discussions about gender as a cultural and philosophical phenomenon clarifies issues regarding indigenous cultures and human rights and builds on the notion that African philosophy shares methods and concerns of philosophy worldwide This short reference is an essential resource for students scholars and general readers *The Routledge Companion to World History since 1914* Chris Cook,John Stevenson,2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world s major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world s major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history Biopolitics and Memory in Postcolonial Literature and Culture Michael R. Griffiths,2017-05-15 From the Truth and Reconciliation Commission in South Africa to the United Nations Permanent Memorial to the Victims of Slavery and the Transatlantic Slave Trade many worthwhile processes of public memory have been enacted on the national and international levels But how do these extant practices of memory function to precipitate justice and recompense Are there moments when such techniques performances and displays of memory serve to obscure and elide aspects of the history of colonial governmentality This collection addresses these and other questions in essays that take up the varied legacies continuities modes of memorialization and poetics of remaking that attend colonial governmentality in spaces as varied as the Maghreb and the Solomon Islands Highlighting the continued injustices arising from a process whose aftermath is far from settled the contributors examine works by twentieth century authors representing Asia Africa North America Latin America Australia and Europe Imperial practices throughout the world have fomented a veritable culture of memory The essays in this volume show how the legacy of colonialism s attempt to transform the mode of life of colonized peoples has been central to the

largely unequal phenomenon of globalization *Short History of North Africa* Jane Soames Nickerson,1961 *A Short History of Mediæval and Modern Times* Philip Van Ness Myers,1906 *A Short History of the Jewish People* Raymond P. Scheindlin,2000 From the original legends of the Bible to the peace accords of today s newspapers this engaging one volume history of the Jews will fascinate and inform 30 illustrations **The Adams papers** ,1977 **The New Interpreter's Study Bible** Walter J. Harrelson,2003 In a new study Bible based on The New Revised Standard Version with Apocrypha 60 scholars provide background and insight on the biblical text in a book that features extensive historical and theological annotations brief introductions and outlines for each biblical book 19 newly commissioned historical maps and more *A Short History of the World* Geoffrey Blainey,2003-03-08 A superb history of the world s people during the last four million years beginning before the human race moved out of Africa to explore and settle the other continents Mr Blainey explores the development of technology and skills the rise of major religions and the role of geography considering both the larger patterns and the individual nature of history A delightful read gracefully written and full of odd and interesting pieces of information as well as thoughtful comparisons that span both time and space William L O Neill
