# Mortal Combat Aids Denialism And The Struggle For Antiretrovirals In South Africa

**Peter Neville Rule**

## **Mortal Combat Aids Denialism And The Struggle For Antiretrovirals In South Africa:**

**The Politics of AIDS Denialism** Pieter Fourie, Melissa Meyer, 2016-03-03 Successive South African governments have had controversial views on HIV and AIDS which have led to allegations that South Africa is in a state of denial about the AIDS epidemic This book attempts to determine the validity of such claims of government denial by formulating and testing a denial hypothesis The hypothesis is contextualized with an overview of the South African epidemic as well as a review of allegations of government denial It reveals possible political factors that may motivate policy makers to resort to official denial and tentatively concludes with a confirmation of the allegations contained in the denial hypothesis However this is done within the broader notion that denial is inherently vague and couched in language rarely in writing and therefore difficult to test with certainty and as such this book s real value lies in the insights gained into the complex politics of denial By exploring the dynamics of denial and denialism and applying this to the South African AIDS epidemic this study provides a comprehensive analysis

**The Politics of AIDS Denialism** Melissa Meyer, Professor Pieter Fourie, 2013-03-28 Successive South African governments have had controversial views on HIV and AIDS which have led to allegations that South Africa is in a state of denial about the AIDS epidemic This book attempts to determine the validity of such claims of government denial by formulating and testing a denial hypothesis The hypothesis is contextualized with an overview of the South African epidemic as well as a review of allegations of government denial It reveals possible political factors that may motivate policy makers to resort to official denial and tentatively concludes with a confirmation of the allegations contained in the denial hypothesis However this is done within the broader notion that denial is inherently vague and couched in language rarely in writing and therefore difficult to test with certainty and as such this book s real value lies in the insights gained into the complex politics of denial By exploring the dynamics of denial and denialism and applying this to the South African AIDS epidemic this study provides a comprehensive analysis

**Mortal Combat** Nicoli Nattrass, 2007 Mortal Combat is a history of AIDS policy in South Africa It exposes the strategy and tactics of AIDS denialists and focuses on the struggle for antiretrovirals to prevent mother to child transmission of HIV and to extend the lives of people living with AIDS Nicoli Nattrass is Director of the AIDS and Society Research Unit and Professor of Economics at the University of Cape Town Book jacket

**The Struggle for Access to Treatment for HIV/AIDS in India** Dipika Jain, Rachel Stephens, 2008 *HIV/AIDS in South Africa 25 Years On* Poul Rohleder, Leslie Swartz, Seth C. Kalichman, Leickness Chisamu Simbayi, 2009-09-01 Much has happened since the first appearance of AIDS in 1981 it has been identified studied and occasionally denied The virus has shifted host populations and spread globally Medicine the social sciences and world governments have joined forces to combat and prevent the disease And South Africa has emerged as ground zero for the pandemic The editors of HIV AIDS in South Africa 25 Years On present the South African crisis as a template for addressing the myriad issues surrounding the epidemic worldwide as the book brings together a widely scattered body of literature analyzes psychosocial and sexual

aspects contributing to HIV transmission and prevention and delves into complex intersections of race gender class and politics Including largely overlooked populations and issues e g prisoners persons with disabilities stigma as well as challenges shaping future research and policy the contributors approach their topics with rare depth meticulous research carefully drawn conclusions and profound compassion Among the topics covered The relationship between HIV and poverty starting from the question Which is the determinant and which is the consequence Epidemiology of HIV among women and men concepts of femininity and masculinity and gender inequities as they affect HIV risk gender specific prevention and intervention strategies The impact of AIDS on infants and young children risk and protective factors care of children by HIV positive mothers HIV infected children Current prevention and treatment projects including local level responses community based work and VCT voluntary counseling and testing programs New directions promoting circumcision vaccine trials positive prevention South Africa s history of AIDS denialism The urgent lessons in this book apply both globally and locally making HIV AIDS in South Africa 25 Years On uniquely instructive and useful for professionals working in HIV AIDS and global public health

**HIV/AIDS and the South African State** Annamarie Bindenagel Šehovi?,2016-04-22 For three decades post apartheid the HIV AIDS epidemic from first acknowledgement to its management as a chronic disease demanded unparalleled attention This was nowhere more evident than in South Africa This book explores how the state responded to its responsibilities to defend and protect human security Linking this to the role of the state as sovereign protector and provider of security it applies the findings to the broader re interpretation of sovereign responsibility in the 21st Century This book does not seek to absolve the South African state of its responsibility to respond Moreover it argues that although the state the government before during and after the transition to democracy was aware of and acknowledged the threat political economic and social posed by the epidemic it nonetheless chose not to make the epidemic a priority policy issue As a result it argues that the South African HIV AIDS case illustrates the tension inherent between a state s ultimate sovereign responsibility to respond and its tactical dependence on external contributors to meet the demands of all of its constituents

South African AIDS Activism and Global Health Politics M. Mbali,2013-03-29 South Africa has the world s largest number of people living with HIV This book offers a history of AIDS activism in South Africa from its origins in gay and anti apartheid activism to the formation and consolidation of the Treatment Action Campaign TAC including its central role in the global HIV treatment access movement

**Business and Social Crisis in Africa** Antoinette Handley,2019-11-21 Much of the time when confronted with a crisis of national dimensions businesses do exactly what we expect them to do they look to their own survival Occasionally however firms in some contexts go beyond this Based on qualitative country based fieldwork in Eastern and Southern Africa Antoinette Handley examines how African businesses can be key responders to wider social and political crises often responding well in advance of the state She reveals the surprising ways in which business responses can be focused not on short term profits but instead on ways that assist society in resolving that crisis in

the long term Taking African businesses in Kenya Uganda Botswana and South Africa as case studies this detailed exploration of the private sector response to crises including HIV AIDS and political violence crises introduces the concept of relative business autonomy exploring the conditions under which it can emerge and develop when and how it may decline and how it might contribute to a higher level of overall societal resilience      **Thinking Politically about HIV** Kent

Buse,Dennis Altman,2016-04-08 AIDS has a unique political history As fears grew of a global pandemic on the scale of AIDS in sub Saharan Africa AIDS was briefly treated as an issue of high politics in the international arena and generated significant resources for country programmes That initial commitment is now declining and if AIDS is to maintain its visibility and contribution to global solidarity human rights and dignity its politics will have to evolve to reflect the profound geo political economic and social transformations underway today This volume brings together leading scholars from a variety of disciplines who work at the intersection of politics and HIV They reflect on the lessons learned from the past thirty years of the politics of AIDS and how political science writ large can further contribute to the understanding and practice of political mobilization around AIDS Through case studies and analysis new insights into identity politics and social movements in countries as diverse as Brazil Switzerland Vietnam and Zambia are offered alongside new approaches to understanding the determinants and incentives which generate political will and commitment This book was published as a special issue of Contemporary Politics      **Until We Have Won Our Liberty** Evan Lieberman,2024-09-24 A compelling account of South

Africa s post Apartheid democracy At a time when many democracies are under strain around the world Until We Have Won Our Liberty shines new light on the signal achievements of one of the contemporary era s most closely watched transitions away from minority rule South Africa s democratic development has been messy fiercely contested and sometimes violent But as Evan Lieberman argues it has also offered a voice to the voiceless unprecedented levels of government accountability and tangible improvements in quality of life Lieberman opens with a first hand account of the hard fought 2019 national election and how it played out in Mogale City a post Apartheid municipality created from Black African townships and White Afrikaner suburbs From this launching point he examines the complexities of South Africa s multiracial society and the unprecedented democratic experiment that began with the election of Nelson Mandela in 1994 While acknowledging the enormous challenges many South Africans continue to face including unemployment inequality and discrimination Lieberman draws on the country s history and the experience of comparable countries to demonstrate that elected Black led governments have without resorting to political extremism improved the lives of millions In the context of open and competitive politics citizens have gained access to housing basic services and dignified treatment to a greater extent than during any prior period Countering much of the conventional wisdom about contemporary South Africa Until We Have Won Our Liberty offers hope for the enduring impact of democratic ideals      *The Ashgate Research Companion to Lesbian and Gay Activism* David Paternotte,Manon Tremblay,2016-03-03 The Ashgate Research Companion to Lesbian and Gay Activism

provides scholars and students with a comprehensive and authoritative state of the art review of the current research in this subject Each of the 22 specially commissioned chapters develops and summarises their key issue or debate in relation to activism that is the claims strategies and mobilisations including internal debates and divisions impediments and state responses of the lesbian and gay movement By drawing together leading scholars from political science sociology anthropology and history this companion provides an up to the minute snapshot of current scholarship as well as signposting several fruitful avenues for future research This book is both an invaluable resource for scholars and an indispensable teaching tool for use in the classroom

**Thinking Through Resistance** Nicola Bulled,2017-03-03 Thinking Through Resistance examines a diverse range of case studies of opposition to biomedical public health policies from resistance to HPV vaccinations in Texas to disputes over HIV prevention research in Malawi to assess the root causes of opposition It is argued that far from being based on ignorance resistance instead serves as a form of advocacy calling for improvements in basic health care delivery alongside expanded access to infrastructure and basic social services With contributions from medical anthropologists sociologists and public health experts the book makes important reading for researchers students and practitioners in the fields of public health medical anthropology and public policy

**Fierce Medicines, Fragile Socialities** Dominik Mattes,2019-08-01 Set in Tanga a city on the Tanzanian Swahili coast Dominik Mattes examines the implementation of antiretroviral HIV treatment ART in the area exploring the manifold infrastructural and social fragilities of treatment provision in public HIV clinics as well as patients multi layered struggles of coming to terms with ART in their everyday lives Based on extensive ethnographic fieldwork the book shows that notwithstanding the massive rollout of ART providing treatment and living a life with HIV in settings like Tanga continue to entail social economic and moral challenges and long term uncertainties which contradict the global rhetoric of the normalization of HIV

**Science Under Siege** Kendrick Frazier,2023-10-17 For more than thirty years Skeptical Inquirer has steadfastly championed science and reason and has been the leading voice for reliable scientific examination of the paranormal and other questionable claims popularized by the media and mass culture In this collection of outstanding articles editor Kendrick Frazier has selected some of the best writing on topics of current interest Among the highlights are A Skeptical Look at September 11th which prompted a drove of responses many angry and was selected by Richard Dawkins for the Best Science and Nature Writing of 2003 Carl Sagan s final question and answer piece on the topic of science and skeptical inquiry Ann Druyan s beautifully expressed Science Religion Wonder and Awe NASA scientist Stuart Jordan s excellent appraisal of the scientific evidence for global warming which prompted much critical response and led to another follow up article Perspectives by Judge John E Jones III Barbara Forrest David Morrison Massimo Pigliucci and Charles Sullivan and Cameron McPherson Smith on the evolution vs intelligent design controversy Articles by physicians Steven Novella and Richard G Judelsohn that strongly defend the value of vaccinations and critique the anti vaccination movement Additional distinguished contributors include

Mario Bunge Martin Gardner Paul Kurtz Chris Mooney Steven Pinker Ray Hyman Joe Nickell and many others This collection of stimulating articles exploring science and skeptical inquiry examining public controversies and investigating pseudoscientific claims is a must for scientists educators skeptics and everyone concerned about scientific literacy

**Securing Health** Suzanne Hindmarch,2016-04-28 This book offers a critical inquiry into the framing of health and disease as a security issue In particular the book examines what happens in the United Nations when the ostensibly low politics of global health meet the high politics of security and when the logic of security comes to shape global health initiatives It offers a critical re assessment of efforts in the United Nations system to position HIV as a security threat with the hope that this would attract greater attention and resources for the global HIV response The book advances securitization theory by presenting a new framework for studying HIV as a policy process uniting several theoretical strands into a single powerful model for empirical application It uses this model to draw attention to important understudied aspects of HIV securitization including the role played by discourses about Africa and the evolution of ideas about HIV and security as actors learned over time On the basis of this empirically grounded assessment of how securitization works as a theory and a political strategy the book suggests that securitization is inherently limited and perhaps dangerous as a strategy for securing social change This book will be of much interest to students of critical security studies global health development studies and IR in general

**Dialogue and Boundary Learning** Peter Neville Rule,2015-12-01 In an increasingly monologic world of war exploitation and fear of the other dialogue within and between humans and with the world around us is critical to a humane future This book explores dialogue and learning in theory practice and praxis across a spectrum of lifelong education contexts It develops a philosophical basis by examining the lives works and dialogic traditions of four key thinkers Socrates Martin Buber Mikhail Bakhtin and Paulo Freire It then examines dialogue and learning in contexts ranging from early childhood development to adult community and higher education In doing so it develops and illustrates the innovative concepts of dialogic space boundary learning and diacognition It has a specific focus on learners and learning in contexts of oppression and marginality and with a view to personal and social emancipation It is located in an African context specifically South Africa although its resonance is both local and global The book marks an innovative contribution to our understanding of dialogue and learning framed by the great dialogic traditions of the past and is a dialogical provocation to the ongoing generation of praxis This book is valuable for grounding lifelong learning experiences within an African context It underlines the complexities involved in carrying out authentic dialogue at different stages of education in Africa throughout the lifespan exploring cases of border crossing and boundary maintenance Peter Mayo University of Malta and Series Editor of the International Issues in Adult Education Series

**Religion and Human Rights** Wilhelm Gräb,Lars Charbonnier,2015-05-19 Current processes of globalization are challenging Human Rights and the attempts to institutionalize them in many ways The question of the connection between religion and human rights is a crucial point here

The genealogy of the Human Rights is still a point of controversies in the academic discussion Nevertheless there is consensus that the Christian tradition especially the doctrine that each human being is an image of God played an important role within the emergence of the codification of the Human Rights in the period of enlightenment It is also obvious that the struggle against the politics of apartheid in South Africa was strongly supported by initiatives of churchy and other religious groups referring to the Human Rights Christian churches and other religious groups do still play an important role in the post apartheid South Africa They have a public voice concerning all the challenges with which the multiethnic and economically still deeply divided South African society is faced with The reflections on these questions in the collected lectures and essays of this volume derive from an academic discourse between German and South African scholars that took place within the German South African Year of Science 2012 13

**Music, Culture, and the Politics of Health** Austin C. Okigbo, 2016-08-03 This book is an ethnographic study of a HIV AIDS choir who use music to articulate their individual and collective experiences of the disease The study interrogates as to understand the bigger picture of HIV AIDS using the approach of microanalysis of music event It places the choir and the cultural and political issues addressed in their music in the broader context of South Africa s public health and political history and the global culture and politics of AIDS

*Crossing Colonial Historiographies* Anne Digby, Projit B. Mukharji, 2010-04-16 This book offers an innovative engagement with the diverse histories of colonial and indigenous medicines Engagement with different kinds of colonialism and varied indigenous socio political cultures has led to a wide range of approaches and increasingly distinct traditions of historical writing about colonial and indigenous modes of healing have emerged in the various regions formerly ruled by different colonial powers The volume offers a much needed opportunity to explore new conceptual perspectives and encourages critical reflection on how scholars research specialisms have influenced their approaches to the history of medicine and healing The book includes contributions on different geographical regions in Asia Africa and the Americas and within the varied contexts of Chinese Spanish Portuguese German Dutch and British colonialisms It deals with issues such as internal colonialism the plural history of objects transregional circulation and entanglement and the historicisation of medical historiography The chapters in the volume explore the scope for conceptual interaction between authors from diverse disciplines and different regions highlighting the synergies and thematic commonalities as well as differences and divergences

**Science Communication: An Introduction** Frans Van Dam, Liesbeth De Bakker, Anne M Dijkstra, Eric Allen Jensen, 2020-03-05 The book provides a concise informative comprehensive and current overview of key issues in the field of science communication the background of science communication its theoretical bases and its links to science communication practice Especially the link between theory research and practice is very well developed in the book and in the individual chapters I think that is valuable for both readers new to the field of science communication but also for those who identify with only one of these sides it is indeed a comprehensive and concise overview convincing in its aim to link

theory research and practice and I will definitely use it for my lectures on science communication JCOM Journal of Science CommunicationA concise coherent and easily readable textbook about the field of science communication connecting the practice of science communicators with theory In the book recent trends and shifts in the field resonate such as the transition from telling about science to interacting with the public and the importance of science communication in health and environmental communication The chapters have been written by experts in their disciplines coming from philosophy of science and communication studies to health communication and science journalism Cases from around the world illustrate science communication in practice The book provides a broad up to date and coherent introduction to science communication for both students of science communication and related fields as well as professionals Related Link s
