#### Mission To China Matteo Ricci And The Jesuit Encounter With The East:

Mission to China Mary Laven, 2011 In the sixteenth century the vast and sophisticated empire of China lay almost entirely unknown to Western travellers As global trade expanded this land of reputedly boundless wealth pale faced women and indecipherable tongues began to feed the fantasies of European merchants and adventurers The Catholic Church meanwhile saw in this great people millions of souls who would be damned unless the Christian message could be brought to them In this book Mary Laven tells the extraordinary story of the first Jesuit mission to China Confronting enormous challenges the Italian priest Matteo Ricci and a tiny handful of learned companions gained permission from the notoriously xenophobic Wanli emperor to settle in the fabled Forbidden City Living among eunuchs and mandarins wearing the clothes of Confucian scholars Ricci and his associates strove to master the language and culture of their hosts At the same time they energetically preached the virtues of Western art and science In Mission to China Mary Laven brings this remote world vividly to life The Great Encounter of China and the West, 1500-1800 D. E. Mungello, 2013 For the Chinese the drive toward growing political and economic power is part of an ongoing effort to restore China's past greatness and remove the lingering memories of history s humiliations This widely praised book explores the 1500 1800 period before China s decline when the country was viewed as a leading world culture and power Europe by contrast was in the early stages of emerging from provincial to international status while the United States was still an uncharted wilderness D E Mungello argues that this earlier era ironically may contain more relevance for today than the more recent past This fully revised fourth edition retains the clear and concise quality of its predecessors while drawing on a wealth of new research on Sino Western history and the increasing contributions of Chinese historians Building on the author's decades of research and teaching this compelling book illustrates the vital importance of history to readers trying to understand China's renewed rise

Sixteenth-Century Mission Robert L. Gallagher, Edward L. Smither, 2021-04-07 Did the Reformers lack a vision for missions In Sixteenth Century Mission a diverse cast of contributors explores the wide reaching practice and theology of mission during this era Rather than a century bereft of cross cultural outreach we find both Reformers and Roman Catholics preaching the gospel and establishing the church in all the world This overlooked yet rich history reveals themes and insights relevant to the practice of mission today

Turning Points in the Expansion of Christianity Alice T. Ott, 2021-11-16 This readable survey on the history of missions tells the story of pivotal turning points in the expansion of Christianity enabling readers to grasp the big picture of missional trends and critical developments Alice Ott examines twelve key points in the growth of Christianity across the globe from the Jerusalem Council to Lausanne 74 an approach that draws on her many years of classroom teaching Each chapter begins with a close up view of a particularly compelling and paradigmatic episode in Christian history before panning out for a broader historical outlook The book draws deeply on primary sources and covers some topics not addressed in similar volumes such as the role of British abolitionism on mission to Africa and the relationship

between imperialism and mission It demonstrates that the expansion of Christianity was not just a Western driven phenomenon rather the gospel spread worldwide through the efforts of both Western and non Western missionaries and through the crucial ministry of indigenous lay Christians evangelists and preachers This fascinating account of worldwide Christianity is suitable not only for the classroom but also for churches workshops and other seminars China Andrew T. Kaiser, 2019-03-28 Welsh Baptist missionary to China Timothy Richard 1845 1919 was once widely regarded as one of the greatest missionaries whom any branch of the Church whether Roman Catholic Russian Orthodox or Protestant has sent to China Today few have heard of Richard and his remarkable lifetime of ministry in China As the first critical examination of Richard s missionary identity this groundbreaking historical study traces the narrative of Richard s early life in Wales and his formative first two decades of service in China Richard's adaptations to the common evangelistic techniques of his day his interest in learning from grassroots Chinese sectarian religions his integration of evangelism and famine relief during the North China Famine 1876 79 his strategic decision to evangelize Chinese elites and his complicated relationships with Hudson Taylor and other China missionaries are all explored through the writings and personal letters of Richard and his contemporaries The resulting portrait represents a significant revision to existing interpretations of this influential China missionary emphasizing his deep empathy for the people of China and his abiding evangelical identity Readable and relevant Encountering China provides a new generation with an introduction to this lost legend of China mission Research Companion to the Counter-Reformation Alexandra Bamji, Geert H. Janssen, Mary Laven, 2016-03-23 In the last two decades the history of the Counter Reformation has been stretched and re shaped in numerous directions Reflecting the variety and innovation that characterize studies of early modern Catholicism today this volume incorporates topics as diverse as life cycle and community science and the senses the performing and visual arts material objects and print culture war and the state sacred landscapes and urban structures Moreover it challenges the conventional chronological parameters of the Counter Reformation and introduces the reader to the latest research on global Catholicism The Ashgate Research Companion to the Counter Reformation presents a comprehensive examination of recent scholarship on early modern Catholicism in its many guises It examines how the Tridentine reforms inspired conflict and conversion and evaluates lives and identities spirituality culture and religious change This wide ranging and original research guide is a unique resource for scholars and students of European and transnational history Catholic Reformation in Protestant Britain Alexandra Walsham, 2016-04-15 The survival and revival of Roman Catholicism in post Reformation Britain remains the subject of lively debate This volume examines key aspects of the evolution and experience of the Catholic communities of these Protestant kingdoms during the sixteenth and seventeenth centuries Rejecting an earlier preoccupation with recusants and martyrs it highlights the importance of those who exhibited varying degrees of conformity with the ecclesiastical establishment and explores the moral and political dilemmas that confronted the clergy and laity It reassesses the significance of the Counter

Reformation mission as an evangelical enterprise analyses its communication strategies and its impact on popular piety and illuminates how Catholic ritual life creatively adapted itself to a climate of repression Reacting sharply against the insularity of many previous accounts this book investigates developments in the British Isles in relation to wider international initiatives for the renewal of the Catholic faith in Europe and for its plantation overseas It emphasises the reciprocal interaction between Catholicism and anti Catholicism throughout the period and casts fresh light on the nature of interconfessional relations in a pluralistic society It argues that persecution and suffering paradoxically both constrained and facilitated the resurgence of the Church of Rome They presented challenges and fostered internal frictions but they also catalysed the process of religious identity formation and imbued English Welsh and Scottish Catholicism with peculiar dynamism Prefaced by an extensive new historiographical overview this collection brings together a selection of Alexandra Walsham's essays written over the last fifteen years fully revised and updated to reflect recent research in this flourishing field Collectively these make a major contribution to our understanding of minority Catholicism and the Counter Reformation Missionary Men in the Early Modern World Ulrike Strasser, 2025-10-01 How did in the era after the Council of Trent gender shape the expanding Jesuit enterprise in the early modern world What did it take to become a missionary man And how did missionary masculinity align itself with the European colonial project This book highlights the central importance of male affective ties and masculine mimesis in the formation of the Jesuit missions as well as the significance of patriarchal dynamics Focusing on previously neglected German actors Strasser shows how stories of exemplary male behavior circulated across national boundaries directing the hearts and feet of men throughout Europe toward Jesuit missions in faraway lands The sixteenth century Iberian exemplars of Ignatius of Loyola and Francis Xavier disseminated in print and visual media inspired late seventeenth century Jesuits from German speaking lands to bring Catholicism and European gender norms to the Spanish controlled Pacific The age of global missions hinged on the reproduction of missionary manhood in print and real European Studies in Asia Georg Wiessala, 2014-03-21 As countries across Asia continue to rise and become more life assertive global powers the role that Higher Education has played and continues to play in this process is an issue of growing pertinence Furthermore understanding the relationship between Europe and Asia fostered by historical and contemporary knowledge transfer including Higher Education is crucial to analysing and encouraging the progress of both regional integration and inter regional cooperation With a specific focus on international Higher Education European Studies in Asia investigates knowledge transfer and channels of learning between Europe and Asia from historical contemporary and teaching perspectives The book examines a selection of significant historical precedents of intellectual dialogue between the two regions and in turn explores contemporary cross regional discourses both inside and outside of the official frameworks of the European Union EU and the Asia Europe Meetings ASEM Drawing on extensive case studies based on many of his own teaching experiences Georg Wiessala addresses key questions such as the nature and construction of the European Studies

in Asia curriculum aspects of values co constructed learning and adult pedagogy in the discipline of European Studies in Asia the politics of Asian host cultures the internationalization of Asian Higher Education and the experiences and expectations of tertiary sector students of this subject in Asia Australia and New Zealand In doing so the author articulates a range of outcomes for the further development of Higher Education cooperation agendas between Asia and Europe in the discipline of European Studies and in related fields such as International Relations This case study led book makes an original and novel contribution to our understanding of European Studies in Asia As such it will be of great interest to students and scholars of Asian Education Comparative Education European Studies and International Relations Franciscan Spirituality and Mission in New Spain, 1524-1599 Steven E. Turley, 2016-04-15 Franciscans in sixteenth century New Spain were deeply ambivalent about their mission work Fray Juan de Zum rraga the first archbishop of Mexico begged the king to find someone else to do his job so that he could go home Fray Juan de Ribas one of the original twelve apostles of Mexico and a founding pillar of the church in New Spain later fled with eleven other friars into the wilderness to escape the demands of building that church Fray Jer nimo de Mendieta having returned from an important preaching tour in New Spain wrote to his superior that he did not want to enlist again and that the only way he would return to the mission field was if God dragged him by the hair This discontent was widespread grew stronger with time and carried important consequences for the friars interactions with indigenous peoples their Catholic co laborers and colonial society at large This book examines that discontent and seeks to explain why the exhilaration of joining such a glorious enterprise so often gave way to grinding discontent The core argument is that despite St Francis s own longing to do mission work his followers in New Spain found that effective evangelization in a frontier context was fundamentally incompatible with their core spirituality Bringing together two streams of historiography that have rarely overlapped spirituality and missions this book marks a strong contribution to the history of spirituality in both Latin America and Europe as well as to the growing fields of transatlantic and world history

Western views of China and China's place in the world The Church as Safe Haven ,2018-11-23 The Church as Safe Haven conceptualizes the rise of Chinese Christianity as a new civilizational paradigm that encouraged individuals and communities to construct a sacred order for empowerment in modern China Once Christianity enrooted itself in Chinese society as an indigenous religion local congregations acquired much autonomy which enabled new religious institutions to take charge of community governance Our contributors draw on newly released archival sources as well as on fieldwork observations investigating what Christianity meant to Chinese believers how native actors built their churches and faith based associations within the pre existing social networks and how they appropriated Christian resources in response to the fast changing world This book reconstructs the narratives of ordinary Christians and places everyday faith experience at the center Contributors are Christie Chui Shan Chow Lydia Gerber Melissa Inouye Diana Junio David Jong Hyuk Kang Lars Peter Laamann Joseph Tse Hei Lee George Kam Wah Mak John R Stanley R G Tiedemann Man Shun Yeung Dialect and Nationalism in China, 1860-1960 Gina Anne Tam, 2020-03-05 Analyzes how fangyan local Chinese languages or dialects were central to the creation of modern Chinese nationalism Religious Encounters in Transcultural Society David William Kim, 2017-11-30 This volume focuses on the various phenomena of religious encounters in a transcultural society where religion or religious traditions play a significant role in a multi cultural concept Religious Encounters in Transcultural Society is divided into three parts Islamic encounters with regional religions East Asian religious encounters and alternative religious encounters This book evokes the fact that religious encounters exist in every transcultural society even though they often remain hidden behind socio cultural issues The situation can be changed but one culture cannot harmoniously and always contain two or multi beliefs The issue of religious encounters mostly arises in the transnational process of religious globalization Sinicizing Christianity, 2017-04-18 Chinese people have been instrumental in indigenizing Christianity Sinizing Christianity examines Christianity s transplantation to and transformation in China by focusing on three key elements Chinese agents of introduction Chinese redefinition of Christianity for the local context and Chinese institutions and practices that emerged and enabled indigenisation As a matter of fact Christianity is not an exception but just one of many foreign ideas and religions which China has absorbed since the formation of the Middle Kingdom Buddhism and Islam are great examples Few scholars of China have analysed and synthesised the process to determine whether there is a pattern to the ways in which Chinese people have redefined foreign imports for local use and what insight Christianity has to offer Contributors are Robert Entenmann Christopher Sneller Yuqin Huang Wai Luen Kwok Thomas Harvey Monica Romano Thomas Coomans Chris White Dennis Ng Ruiwen Chen and Richard Madsen The European Heritage Gerard Delanty, 2017-07-06 This book offers a critical interpretation of the European heritage for the present day It shows that a transnational perspective on memory and European historical formation draws attention to processes of entanglement and that a focus on such forms of entanglement might be a basis for critical and comparative research on heritage The book

poses the question is it possible for European societies and Europe more generally to create a transnational form of heritage that reflects transnational and entangled memories and identities **The Price of Collapse** Timothy Brook,2023-11-21 How climate change ushered in the collapse of one of history s mighty empires In 1644 after close to three centuries of relative stability and prosperity the Ming dynasty collapsed Many historians attribute its demise to the Manchu invasion of China but the truth is far more profound The Price of Collapse provides an entirely new approach to the economic and social history of China exploring how global climate crisis spelled the end of Ming rule The mid seventeenth century witnessed the deadliest phase of the Little Ice Age when temperatures and rainfall plunged and world economies buckled Timothy Brook draws on the history of grain prices to paint a gripping portrait of the final tumultuous years of a once great dynasty He explores how global trade networks that increasingly moved silver into China may have affected prices and describes the daily struggle to survive amid grain shortages and famine By the early 1640s as the subjects of the Ming found themselves caught in a deadly combination of cold and drought that defied all attempts to stave off disaster the Ming price regime collapsed and with it the Ming political regime A masterful work of scholarship The Price of Collapse reconstructs the experience of ordinary people under the immense pressure of unaffordable prices as their country slid from prosperity to calamity and shows how the market mediated the relationship between an empire and the climate that turned against it
