Inventing Los Alamos Jon Hunner, 2014-08-04 A social history of New Mexico s Atomic City Los Alamos New Mexico birthplace of the Atomic Age is the community that revolutionized modern weaponry and science An instant city created in 1943 Los Alamos quickly grew to accommodate six thousand people scientists and experts who came to work in the top secret laboratories others drawn by jobs in support industries and the families How

these people as a community faced both the fevered rush to create an atomic bomb and the intensity of the subsequent cold war era is the focus of Jon Hunner's fascinating narrative history. Much has been written about scientific developments at Los Alamos but until this book little has been said about the community that fostered them. Using government records and the personal accounts of early residents *Inventing Los Alamos* traces the evolution of the town during its first fifteen years as home to a national laboratory and documents the town's creation, the lives of the families who lived there and the impact of this small community on the Atomic Age. *The Journal of the American Medical Association*, 1903 **A Fireman's Edge** Preston Gallup, 2019-10-11 A Fireman's Edge is about the life of a career firefighter. As a Christian from an early age, the author felt a calling to serve his fellow man through the fire service. Through many circumstances and many close calls throughout his career, the author believes that his faith in the Lord is what gave him an edge. To overcome the many fears, perils, and near-death experiences while walking on the edge can only be attributed to a much higher power: A loving God that watches over his children. **Journal of the American Medical Association**, 1911 Reform in Undergraduate Science Teaching for the 21st Century Dennis W. Sunal, Emmett L. Wright, Jeanelle Bland, 2006-05-01 The mission of the book series Research in Science Education is to provide a comprehensive view of current and emerging knowledge, research strategies, and policy in specific professional fields of science education. This series would present currently unavailable or difficult to gather materials from a variety of viewpoints and sources in a usable and organized format. Each volume in the series would present a juried scholarly and accessible review of research, theory, and/or policy in a specific field of science education. K-16 Topics covered in each volume would be determined by present issues and trends as well as generative themes related to current research and theory. Published volumes will include empirical studies, policy analysis, literature reviews, and positing of theoretical and conceptual bases. Resources in Education, 1995 **Sandhills Boy** Elmer Kelton, 2010-04-27 A charming memoir of renowned western novelist Kelton's early years in the saddle, at the desk, and in the trench, a pleasure through and through. Kirkus Reviews Voted the Best Western writer of all time by his peers, Elmer Kelton wrote fifty novels that form a testament and tribute to the American West. But who is that Texas gentleman with the white Stetson and rimless eyeglasses whose friendly face appears on so many book jackets? *Sandhills Boy* is Kelton's memoir, a funny and poignant story of a freckle-faced country boy, green as a gourd, a sheep ready to be sheared, growing up in the wild, dry sandhills of West Texas. The son of a working cowboy and ranch foreman, Elmer was expected to follow in his father's footsteps but learned at an early age that he had no talents in the cowboy's trade. Buck Kelton said Elmer was slow as the seven-year itch and reluctantly supported his son's decision to become a student at the University of Texas and eventually a journalist and writer. Kelton's life in ranch and oil patch Texas during the Great Depression is told with warm, nostalgic humor, animated with stories of the cowboys and their wives and kids who gave the time and place its special flavor. He writes with great feeling of his service in WW2 in France, Germany, and Czechoslovakia and the romantic circumstances in which his life changed in the
