Distribution in Japan Yoshirō Miwa,Kiyohiko Nishimura,J. Mark Ramseyer,2002 Several years have passed since the store wars over barriers to foreign products at Japanese distribution firms Yet among English speaking readers how these firms operate remains a puzzle In this book the best Japanese scholars in their fields attempt to unravel that puzzle Avoiding culture based explanations they employ a systematic and rigorous economic logic yet since they also avoid mathematical notation the argument remains accessible to generalist readers Collectively the authors make four basic points Within a country distribution is less similar than it appears Not only does it vary enormously across industries but it often varies within a given industry as well Across countries distribution is less diverse than it appears Although appearances sometimes suggest major cross national contrasts on more careful analysis the differences often disappear Distribution sometimes depends on the product involved Because distribution functions as the principal means by which manufacturers acquire information about consumer preferences the character of distribution can depend crucially both on demand patterns and on manufacturing technology In the absence of regulatory intervention distribution generally will be efficient and non exclusionary Regulation usually introduces inefficiency and often creates barriers to entry Importantly however the targets of exclusion will less often involve foreign than domestic competitors To illustrate these points the authors draw on both analyses that cross various sectors and analyses that are specific to sectors they study both regulated and unregulated industries they describe industries with extensive imports industries with extensive exports and industries with neither they
