Building New Worlds, 1946-1959 John Boston, Damien Broderick, 2013-02-13 Building New Worlds is a history of a pivotal decades long episode in the birth and growth of today s science fiction Enthralling and amusing it s written with affection and wit This is no dry modishly theorized academic analysis Nor is it a rah rah celebration of the Good Old Days Here is a candid and astute reader s response to a magazine that by today s standards was often comically bad but was also immensely important in its time and improved like the Little Engine or maybe Starship That Could New Worlds is best remembered today as the fountainhead of the New Wave of audacious experimental SF in the second half of the 1960s under editor Michael Moorcock But these first pioneering issues from 1946 59 were edited by the magazine s founder John Ted Carnell 1912 72 Carnell was a pillar of the old style UK SF establishment but gamely supportive of innovators most famously of the brilliant J G Ballard Brian W Aldiss and John Brunner whose early work he nurtured The story of how New Worlds got started survived and got better is essential to the history of

the genres of the fantastic in the UK and indeed the world And huge fun to read Watch for the companion volumes New Worlds Before the New Wave and Strange Highways dealing with New World s companion magazine Science Fantasy

Strange Highways: Reading Science Fantasy, 1950-1967 John Boston,Damien Broderick,2013-01-15 Science Fantasy blends science fiction AND fantasy so it tends to be bolder and more highly colored than pure science fiction In the middle of the last century the British magazine SCIENCE FANTASY created its own distinctive strains of fantasy narrative most famously by such writers as Brian W Aldiss J G Ballard John Brunner Michael Moorcock and Thomas Burnett Swann among others This book looks closely at the whole trajectory of that lost magazine from its birth in 1950 through 1967 when it was briefly called SF Impulse John Boston provides a brilliantly insightful and often every funny account of the rise evolution and final fall of SCIENCE FANTASY its writers and its quirky editors Boston is joined by writer and critic Damien Broderick adding his own waspish and nostalgic comments This volume the first of three dealing with the history and development of the major British SF magazines is a compelling night journey into the past where the future took a turn down paths not often explored It s a trip not to be missed

Harlan Ellison Ellen Weil,Gary K. Wolfe,2002 *Reverse Colonization* David M. Higgins,2021-09 Reverse colonization narratives are stories like H G Wells s *War of the Worlds* where technologically superior Martians invade and colonize England that ask Western audiences to imagine what it s like to be the colonized rather than the colonizers In this book David M Higgins argues that although some reverse colonization stories are thoughtful and provocative because they ask us to think critically about what empire feels like from the receiving end reverse colonization fantasy has also led to the prevalence of a very dangerous kind of science fictional thinking in our current political culture Everyone now including anti feminists white supremacists and far right reactionaries likes to imagine themselves as the Rebel Alliance fighting against the Empire or Neo trying to escape the Matrix or Katniss Everdeen waging war against the Capitol Reverse colonization fantasy in other words has a dangerous tendency to enable white men and other subjects of privilege to appropriate a sense of victimhood for their own social and political advantage

Posthuman Subjectivity in the Novels of J.G. Ballard Carolyn Lau,2023-07-28 This book proposes that Ballard s novels extrapolate the formation of a posthuman subjectivity that is centred around an affirmative understanding of what a human body can do This new subjectivity transforms constraints and prescribed desires into creative openings in a hyper mediated control society that conditions docile bodies through technology and consumerism Set in surrealist predicaments in postwar affluent Western societies Ballard s novels remind us of the fragile veneer of order in the familiar every day In these moments of crisis complacent characters are compelled to undergo a process of defamiliarisation and transformation of their understanding of the self and the body The ability to form new relationships with the unfamiliar is imperative to survival in a hostile environment Ballard delineates both the possibilities and obstacles of forming these relationships In particular the author attributes the failure to do so to the irreconcilable contradictions of late capitalism
