Measuring Human Capabilities National Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Measuring Human Capabilities: Performance Potential of Individuals and Collectives, 2015-04-10 Every year the U S Army must select from an applicant pool in the hundreds of thousands to meet annual enlistment targets currently numbering in the tens of thousands of new soldiers A critical component of the selection process for enlisted service members is the formal assessments administered to applicants to determine their performance potential Attrition for the U S military is hugely expensive Every recruit that does not make it through basic training or beyond a first enlistment costs hundreds of thousands of dollars Academic and other professional settings suffer similar losses when the wrong individuals are accepted into the wrong schools and programs or jobs and companies Picking the right people from the start is becoming increasingly important in today s economy and in response to the growing numbers of applicants Beyond cognitive tests of ability what other attributes should selectors be considering to know whether an individual has the talent and the capability to perform as well as the mental and psychological drive to succeed

Measuring Human Capabilities An Agenda for Basic Research on the Assessment of Individual and Group Performance Potential for Military Accession examines promising emerging theoretical technological and statistical advances that could provide scientifically valid new approaches and measurement capabilities to assess human capability This report considers the basic research necessary to maximize the efficiency accuracy and effective use of human capability measures in the military s selection and initial occupational assignment process The research recommendations of

Measuring Human Capabilities will identify ways to supplement the Army's enlisted soldier accession system with additional predictors of individual and collective performance. Although the primary audience for this report is the U.S. military, this book will be of interest to researchers of psychometrics, personnel selection and testing, team dynamics, cognitive ability and measurement methods and technologies. Professionals interested in the foundational science behind academic testing, job selection and human resources management will also find this report of interest.

Assessment and Obligatory

Treatment of Violent and Sexually Violent Offenders Ruud H. J. Hornsveld, Floris W. Kraaimaat, Luk A. C. L. Gijs, Emma J. Palmer, 2019-11-13. This book examines the assessment and obligatory treatment programs for violent and sexually violent offenders, primarily adolescents and adults diagnosed with cluster B personality disorder or a conduct disorder. It describes concepts, theories and legal aspects as well as the psychological and neurobiological characteristics of violent and sexually violent offenders and forensic psychiatric patients. Chapters review treatment programs and provide guidelines for gathering additional information and formulating functional analyses to establish individual treatment plans. In addition, chapters offer treatment modules for violent offenders and sexually violent offenders and address specific problems that may be encountered in practice and how to overcome these problems. The book concludes with the editors' recommendations for future research in offender assessment and rehabilitation. Topics featured in this book include: Heuristic models of aggressive and sexually aggressive behavior; The use of self-reporting questionnaires in offender populations; Reliable assessment instruments; The effectiveness of existing rehabilitation programs; Cognitive behavioral treatment modules for violent and sexually violent offenders; Self-regulation and self-management skills to be used in rehabilitation programs; Facilitating treatment integrity in penitentiary and forensic psychiatric institutions. **Assessment and Obligatory Treatment of Violent and Sexually Violent Offenders** is an essential resource for researchers, clinicians, therapists and upper-level undergraduate and graduate students in forensic psychology, public health, criminology, criminal justice and behavioral therapy and rehabilitation.
