Next Stop An Autistic Son Grows Up:

Next Stop Glen Finland, 2012-03-29 The summer David Finland was twenty one years old he and his mother Glen navigated the Washington D C Metro trains Every day David has autism and the hope was that if he could learn the train lines maybe he could get a job And if he could get a job then maybe he could move out on his own And maybe his parents marriage could get the jump start it so desperately needed Maybe A candid portrait of a differently abled young man poised at the entry to adulthood *Next Stop* recounts the complex relationship between a child with autism and his family as he steps out into the real world alone for the first time This personal narrative of a mother s perpetually tested hope is a universal story of how our children grow up and how we learn to let go and reclaim our lives no matter how hard that may be

Adults with Autism Stephen H. Morgan, Hugh Morgan, 1996-09-28 From childhood services to adult provision the needs of an individual develop and change yet the literature addressing specific adult requirements is scarce This volume sets out to fill this gap and provides practical help and guidance specifically for those caring for the growing recognised population of adults with autism Issues of theory and practice from both local and international perspectives are included Subsequent chapters analyse the implications arising from thought and behaviour inflexibility with emphasis on the management of transition and bereavement Models for practice in employment and further education and also pharmacological and educational approaches to mental health problems epilepsy and challenging behaviour are concluded by a chapter which develops many themes of this publication as the basis for a practitioner training programme in residential settings An essential guide for all those concerned with the care and well being of adults with autism including parents researchers practitioners and community care workers

Mental Health and Growing Up Ann York, 2004-07 The third edition will contain factsheets on 36 mental health issues Rewritten and now illustrated to be more accessible to the general public they are particularly useful for adults who look after children especially parents and teachers They are also helpful for young people who are concerned about themselves or a friend Factsheets can be copied free of charge so long as the Royal College of Psychiatrists is credited and no profit is gained from their use

A Few Impertinent Questions Berthajane Vandegrift,2010-05 The Freudian view seemed to be that people consist of Ids ego s and superego s People are supposedly also inhabited by something called a subconscious a mysterious entity with a tendency to think naughty thoughts and keep them a secret from one s conscious self When this naughty subconscious takes over and controls one s actions without permission people become neurotic If the patient lies on a couch and talks and a psychiatrist listens the subconscious might be tricked into revealing itself Once enticed out into the open by a therapist the subconscious supposedly looses its power to cause neurosis

Helping Children with Autism Learn Bryna Siegel,2003-06-05 Bryna Siegel gives parents of autistic children what they need most hope Her first book *The World of the Autistic Child* became an instant classic illuminating the inaccessible minds of afflicted children Now she offers an equally insightful thoroughly practical guide to treating the learning disabilities associated with this heartbreaking disorder The trouble with treating autism Siegel writes is

that it is a spectrum disorder a combination of a number of symptoms and causes To one extent or another it robs the child of social bonds language and intimacy but the extent varies dramatically in each case The key is to understand each case of autism as a discrete set of learning disabilities each of which must be treated individually Siegel explains how to take an inventory of a child s particular disabilities breaks down the various kinds unique to autism discusses our current knowledge about each and reviews the existing strategies for treating them There is no simple cure for this multifarious disorder she writes instead an individual program with a unique array of specific treatments must be constructed for each child She gives practical guidance for fashioning such a program empowering parents to take the lead in their child s treatment At the same time she cautions against the proliferating but questionable treatments hawked to afflicted families She knows the panic to do something anything to help an autistic child and she offers parents reassurance and support as well as sensible advice combining knowledge from experience theory and research For parents autism in a child is heartbreaking But it need not be overwhelming Bryna Siegel offers a new understanding and a practical thoughtful approach that will give parents new hope

Protecting the Gift Gavin De Becker,2013-05-15 Safety skills for children outside the home Warning signs of sexual abuse How to screen baby sitters and choose schools Strategies for keeping teenagers safe from violence All parents face the same challenges when it comes to their children s safety whom to trust whom to distrust what to believe what to doubt what to fear and what not to fear In this empowering book Gavin de Becker the nation s leading expert on predicting violent behavior and author of the monumental bestseller The Gift of Fear offers practical new steps to enhance children s safety at every age level giving you the tools you need to allow your kids freedom without losing sleep yourself With daring and compassion he shatters the widely held myths about danger and safety and helps parents find some certainty about life s highest stakes questions How can I know a baby sitter won t turn out to be someone who harms my child see page 103 What should I ask child care professionals when I interview them see page 137 What s the best way to prepare my child for walking to school alone see page 91 How can my child be safer at school see page 175 How can I spot sexual predators see page 148 What should I do if my child is lost in public see page 86 How can I teach my child about risk without causing too much fear see page 98 What must my teenage daughter know in order to be safe see page 191 What must my teenage son know in order to be safe see page 218 And finally in the face of all these questions how can I reduce the worrying see page 56 Autistic States in Children Frances Tustin,2021-03-28 Frances Tustin 1913 1994 was one of the first professionally trained child psychotherapists in Britain Although internationally recognised for her pioneering therapeutic work with autistic children her approach is considered by some to be controversial as her psychogenic view of childhood autism challenged the belief that it is biological and genetic Autistic States in Children is widely regarded as a vitally important work for understanding the causes of autism in young children Vividly describing her clinical encounters with autistic children Tustin argued that autistic states were above all self protective ones In her observational studies she noted how autistic children s interaction with

physical objects such as keys toy cars or other play items had a rigid and ritualistic quality far removed from the typical kind of fantasy play seen in other children Such objects are not used by autistic children for their intended purpose Tustin argued but rather in sensation dominated ways that interfere with mental development She also drew a fundamental distinction between two autistic groups an encapsulated group which is withdrawn and non verbal and an entangled group who are hyperactive and chaotic but have some language Autistic States in Children influenced not only those in psychotherapy and psychoanalysis but countless others who have contact with autistic children especially families and remains essential reading for anyone seeking a creative and compelling understanding of autism This Routledge Classics edition includes a new Foreword by Maria Rhode
