Sir Arthur Evans and Minoan Crete Nanno Marinatos,2014-12-22 Before Sir Arthur Evans the principal object of Greek prehistoric archaeology was the reconstruction of history in relation to myth European travellers to Greece viewed its picturesque ruins as the gateway to mythical times while Heinrich Schliemann at the end of the nineteenth century allegedly uncovered at Troy and Mycenae the legendary cities of the Homeric epics It was Evans who in his controversial excavations at Knossos steered Aegean archaeology away from Homer towards the broader Mediterranean world Yet in so doing he is thought to have done his own inventing recreating the Cretan Labyrinth via the Bronze Age myth of the Minotaur Nanno Marinatos challenges the entrenched idea that Evans was nothing more than a flamboyant researcher who turned speculation into history She argues that Evans was an excellent archaeologist one who used scientific observation and classification Evans s combination of anthropology comparative religion and analysis of cultic artefacts enabled him to develop a bold new method which Sir James Frazer called mental anthropology It was this approach that led him to propose remarkable ideas about Minoan religion theories that are now being vindicated as startling new evidence comes to light Examining the frescoes from Akrotiri on Santorini that are gradually being restored the author suggests that Evans s hypothesis of one unified goddess of nature is the best explanation of what they signify Evans was in 1901 ahead of his time in viewing comparable Minoan scenes as a blend of ritual action and mythic imagination Nanno Marinatos is a leading authority on Minoan religion In this latest book she combines history archaeology and myth to bold and original effect offering a wholly new appraisal of Evans and the significance of his work Sir Arthur Evans and Minoan Crete will be essential reading for all students of Minoan civilization as well as an irresistible companion for travellers to Crete

Minoan-Mycenaean Religion and Its Survival in Greek Religion Martin Persson Nilsson,1927 **Minoans** Rodney
Castleden,2002-01-04 Thoroughly researched Rodney Castleden s Minoans Life in Bronze Age Crete here uses the results of
recent research to produce a comprehensive new vision of the peoples of Minoan Crete Since Sir Arthur Evans rediscovered
the Minoans in the early 1900s we have defined a series of cultural traits that make the Minoan personality elegant graceful
and sophisticated these nature lovers lived in harmony with their neighbours while their fleets ruled the seas around Crete
This at least is the popular view of the Minoans But how far does the later work of archaeologists in Crete support this view
Drawing on his experience of being actively involved in research on landscapes processes and prehistory for the last twenty
years Castleden writes clearly and accessibly to provide a text essential to the study of this fascinating subject Lands and
